

Extended Love, Inc.  
Psycho Social Services

We offer adult daycare service to meet the unique developmental needs of each person. Our goal is to provide outreach, coordinate services, and make referrals in the community as needed. We also provide high quality community-based services so that each individual we service can enjoy their life to the fullest. Individuals receive training and assistance with communication, shopping, personal care, and community activities, for example, bowling and attending restaurants. They will have outings such as, going to museums and parks in the community.
