To: Planning Commission/ City Council

From: Partnership For a New Phoebus

Subject: American Legion Post 48

Recently American Legion Post 48 presented to the Partnership board their plans for a new post home in Phoebus. Representatives from the organization and their supporting architect presented their design plans, construction details and answered questions posed by the board.

The board had no concerns with the new building as proposed. We also requested that the chairman of our Business Enhancement subcommittee reach out to the Phoebus business community concerning this proposal. We had no negative feedback pertaining to this effort.

American Legion Post 48 has been an important part of Phoebus for many years. They have supported many worthwhile projects over the years and continue to contribute to the success of our community. The Partnership fully supports Post 48's plans for their new post home.

Sincerely,

Robert Carpenter  
President, Partnership for a New Phoebus
