## **Downtown Hampton and Phoebus Traffic Concerns**

# Traffic Concerns

Considerations to reduce traffic congestion in Downtown Hampton and Phoebus area related to Interstate 64 and the Hampton Roads Bridge Tunnel traffic congestion.

# Ramp Metering

Request VDOT study ramp metering alternatives at Settlers Landing Road and Phoebus area entrance ramps to Interstate 64.

# No Left Turn Signs

Install no left hand turn signs on neighborhood streets connecting to Mallory Street toward I64 between the hours of 2 & 6 pm on Monday-Friday.

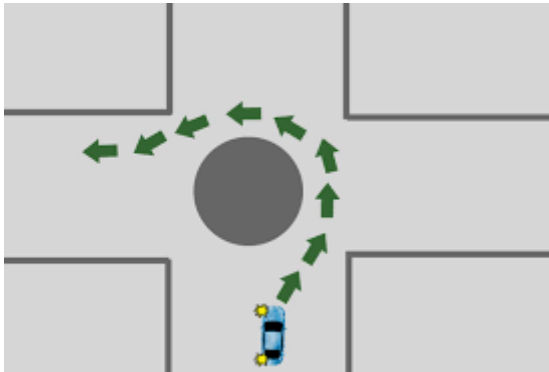

# Do Not Block the Box

Install painted “Do Not Block Boxes & Signs” at intersections along Mellon and Mallory Street. Blocking these intersections is enforceable by a \$250.00 fine.

# Traffic Circles

Install traffic circles on Settlers Landing Road in locations that may results in lower speeds. Traffic is permitted to flow in one direction around the center island.

# Settlers Landing Road

Install “Do Not Block Boxes & Signs” at intersections along Settlers Landing Road. Blocking these intersections is enforceable by a \$250.00 fine.

# Reduced Speed Limit

Reduce speed limit to 35 MPH on Mercury Boulevard at the entrance of Phoebus near Old Buckroe Road. Slower speeds may reduce traffic from cutting through Phoebus to access I64.

# Stop Signs

Installing additional stop signs in our Phoebus residential neighborhoods will improve safety. Vehicles would need to stop more frequently and maintain 25 mph.

# “No Turn On Red”

Remove “No Turn On Red Signs” in Phoebus where possible. Traffic backs up because these signs are in place and some could be eliminated.

# Traffic Apps

- Request Traffic Applications adjusted mobile apps to keep traffic on I64 and not bypass through Downtown Hampton and Phoebus.

# Summary

- We have more traffic traveling through the Hampton Roads Bridge Tunnel than it can support which impacts Hampton.
- Hampton Roads Bridge Tunnel expansion should improve the traffic congestion in Hampton.
- Although our traffic issues are concerning some business owners see traffic as an opportunity for increased business.
- Our proposed adjustments may mitigate some of the current impacts during the expansion of the HRBT.
