CITY OF HAMPTON, VIRGINIA
DEPARTMENT OF FINANCE

June 30, 2025

HAMPTON VA

December 5, 2025

Honorable Mayor, Members of the City Council,
City Manager and the Citizens of the City of Hampton

We are pleased to submit the Annual Comprehensive Financial Report (ACFR) of the City of Hampton, Virginia (the City) for the fiscal year ended June 30, 2025. The Code of Virginia requires the City to publish, at the close of each fiscal year, a complete set of financial statements presented in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) and audited in accordance with Government Auditing Standards by a firm of licensed certified public accountants. This report has been prepared by the Department of Finance and the report does comply with state law and guidelines of the Auditor of Public Accounts of the Commonwealth of Virginia.

Cherry Bekaert LLP, Certified Public Accountant have audited the City's financial statements, including the financial records and transactions of all funds, component units and departments of the City. As a result, Cherry Bekaert issued an unmodified opinion on the City's financial statements for the year ended June 30, 2025. The independent auditor's report is located at the front of the Financial Section of this report.

The independent audit of the financial statements of the City is part of a broader, federally mandated "Single Audit" designed to meet the special needs of federal grantor agencies. The standards governing Single Audit engagements require the independent auditors to report not only on the fair presentation of the Schedule of Expenditures of Federal Awards in relation to the audited financial statements, but also on the audited government's compliance with federal requirements that could have a direct and material effect on each of its major federal programs and on internal control over compliance in accordance with the U.S. Office of Management and Budget's Uniform Guidance. The independent auditors' report related specifically to the Uniform Guidance, including the Schedule of Expenditures of Federal Awards, findings and recommendations, and the auditor's report on Internal control over financial reporting and on compliance and other matters, is required to be submitted within the shorter of thirty (30) days after testing completion or nine (9) months after fiscal year end, which would be no later than March 31, 2026 for the City. Said testing and results, when issued, will be included in a separate compliance reporting package.

The City's Management assumes full responsibility for the accuracy, completeness, and reliability of all information presented in this report. We believe the data, as presented, is accurate in all material respects and is presented in a manner designed to fairly set forth the financial position and results of operations of the City as measured by the financial activity of its various funds. All disclosures necessary to enable the reader to gain the maximum understanding of the City's financial affairs have been included. In order to provide reasonable, but not absolute, assurance regarding the data, the management of the City has designed a framework of internal accounting controls to protect the City's assets from loss of unauthorized use or disposition, provide reliability of financial records for preparing financial statements and maintain the accountability for assets.

The concept of reasonable assurance recognizes that the cost of a control should not exceed the benefits likely to be derived; and that the evaluation of costs and benefits requires estimates and judgments by management. We believe that the City's internal accounting controls adequately safeguard assets and provide reasonable assurance of proper recording of financial transactions.

Management's discussion and analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the basic Financial statements. This letter of transmittal is intended to provide a profit of the City and summary information about its economic condition and intended to complement the MD&A.

City Profile

The City of Hampton, Virginia, settled in 1610, is the oldest English-speaking community in continuous existence in the United States. The City was incorporated on March 30, 1908 and has operated under its existing charter since December 16, 1952. Its boundaries were extended on July 1, 1952 through the annexation of Elizabeth City County and Phoebus. The City is comprised of 72 square miles, including 54.7 square miles of land and 17.3 square miles of water. Hampton is situated at the extreme southeastern tip of the Lower Peninsula of Virginia. It is bounded on the west by the City of Newport News, on the north by York County and the City of Poquoson, on the east by the Chesapeake Bay and on the south by the Harbors of Hampton Roads. Hampton is part of the Norfolk- Virginia Beach- Newport News Metropolitan Statistical Area (MSA).

As of July 1, 2024, the current estimated population in Hampton was 136,793.

Hampton is an independent, full-service City with sole local government taxing authority within its boundaries. It is empowered by state statute to levy property taxes on real and personal property located within its boundaries. The governing body of the City is an elected City Council composed of a mayor and six (6) council members. The Mayor and City Council members are elected for four (4) year terms in general elections held every two (2) years. The City Council appoints the City Manager who acts as the Chief Executive Officer of the government. The City Manager serves at the pleasure of the Council and is charged with the responsibility of carrying out their policies, directing business procedures, and appointing and removing all department heads and city employees.

As a full-service city, Hampton provides a broad range of municipal services to its citizens. Those services include public safety, education, public works, refuse-collection, recreation, building inspection, public health, social services, planning, community development, etc. The City of Hampton and its citizens purchase their water and sewer service directly from Newport News Waterworks and Hampton Roads Sanitation District, respectively.

Budgetary Systems: The City adopts an annual budget for the General Fund, but does not adopt an annual budget for any of the Special Revenue Funds except for the Stormwater Management Fund. The annual budget serves as the foundation for the City of Hampton's financial planning and control functions. The City must appropriate funds for both the City and school system operation in accordance with state law. The appropriated budget is prepared by fund, function, (e.g. public safety) and department (e.g. fire). The City Manager is authorized to transfer budgeted amounts within the General Fund; however, revisions that alter the total appropriations for a department must be approved by City Council. Transfers within the School Operating Fund are under the control of the School Board.

Component Units: The financial reporting entity includes all funds of the primary government (the City), as well as its component units. Component units are legally separate entities for which the City is financially accountable. The City has included the financial data of four discrete component units which are legally separate entities: Hampton City School Board, Economic Development Authority (EDA), Coliseum Central Business Improvement District, Inc. and Downtown Hampton Development Partnership, Inc.

Economic Conditions and Outlook

The City's central location in the Norfolk-Virginia Beach-Newport News Metropolitan Statistical Area affords its businesses the ability to take advantage of resources offered throughout the area. Hampton's many business assets have attracted an extensive list of national and international companies across a variety of industries. The city's largest business and employment growth is concentrated in the following industries: advanced manufacturing; aerospace, homeland defense & security; medical & healthcare; professional services; and retail.

During the last two fiscal years, the City announced and/or experienced the opening of new development projects, new businesses, and the expansion of existing businesses that resulted in more than \$430 million in capital investments, more than 498 jobs created, and contributions to the economic health of the City. A sampling of announcements include, but are not limited to the following:

- Construction was completed on the Phenix Commerce Center in 2025. The facility will host a 5,600 on-site work development center.
- The Virginia Governor announced that Liebherr Mining and Equipment will invest \$72.3 million to expand its plant located in Hampton and Newport News, creating 175 additional jobs.
- Threat Tec is investing \$12 million in the expansion in the company's facility located near Langley Research & Development Park.
- Amazon has invested \$30 million to transform an existing 403,000 industrial building into a same day delivery facility to better serve area customers.

Military, Federal Research Facility, and Veterans Medical Center

The federal government is Hampton's largest employer. The City is home to Joint Base Langley Eustis (JBLE); National Aeronautics and Space Administration Research Center (NASA) Langley Research Center (LRC); and the Veterans Affairs Medical Center.

JBLE is composed of Langley Air Force Base in Hampton, and Fort Eustis, located in Newport News, Virginia. Langley Air Force Base is one of the largest air service training camps and a pillar of the Hampton community. It is located on 3,167 acres and employs more than 9,000 military and civilian personnel.

The National Aeronautics and Space Administration Research Center (NASA) Langley Research Center (LRC) is located on 788 acres in the City adjacent to Joint Base Langley-Eustis. The Center is an important national resource serving inherent government functions such as aeronautics, science, space technology, human space exploration, climate research and the air transportation system. LRC was the training facility for the first Mercury Seven astronauts and is now involved in NASA's expeditions to Mars and the Moon.

The Hampton VA Medical Center (HVAMC) is located on an 86-acre campus along the historic banks of the Chesapeake Bay adjacent to Hampton University. HVAMC is a world class facility with highly skilled and compassionate staff. The medical center is a leader in technology and innovation, providing health care services to veterans in southeastern Virginia and northeastern North Carolina.

General Government Financial Operations

All general governmental operations are accounted for in the General, Special Revenue, Capital Projects and Debt Service Funds. Substantially all recurring revenues and expenditures are accounted for in the General Fund and the School Operating Fund (included in the Discretely Presented Component Unit-School Board financial statements). For fiscal year 2025, the governmental funds recognized a \$17.7 million increase in fund balance. The net increase is the combined result of increased revenue, primarily in the General and Capital Projects Fund.

The General Fund revenues and slightly increased by approximately \$29.8 million or 6.9% when compared to fiscal year 2024 revenues. Local taxes, primarily property taxes, increase by \$10.7 million or 2% from the prior year as a result of increase real estate property values and the increase cost of vehicles. Charges for Services Fines and Forfeitures, and Miscellaneous Revenues also increased by \$3.1 million, \$3.3 million and \$9.4 million respectively. The increase in each of these revenue sources is a result of new activities and City initiatives discussed in greater detail in the Management Discussion & Analysis.

The General Fund expenditure increased by approximately \$5.4 million or 2% over fiscal year 2024. Increased expenditures are largely a result of wage increases.

Long Term Financial Planning

In the years 2025-2029 \$332.3 million is scheduled for City and School projects. The following summarizes these projects:

Education	\$62.9 million
Hampton's Waterways	\$63.2 million
Good Government	\$211.4 million
Economic Growth	\$20.2 million
Place Making	\$45.3 million
Safe and Clean City	\$29.2 million
Family Resilience and Economic Empowerment	\$2.0 million

Financial Policies

In April 2007, the City Council amended its existing financial policies. The financial policies relate to general operating elements of the City. These policies are used as financial planning parameters during the annual budget process. The five (5) financial policies and the actual results are summarized below:

1. **Debt Policy Limit.**
 - General obligation debt shall not exceed 3% of the assessed value of all real estate within the City subject to taxation. At June 30, 2025, general obligation debt totaled \$276 million or 1.8% of taxable real estate value, which was within the policy parameter.
 - General obligation bonded debt together with indirect debt, which includes certain revenue backed debt and subject-to appropriation or moral obligation commitments, and debt of certain special purpose entities (i.e. Community Development Authority) shall not exceed 4% of the assessed value of all real and personal property subject to taxation within the City. At June 30, 2025, this would amount to \$401.6 million or 2.3% of the assessed value of all taxable real and personal property which was within the policy parameter.
 - Debt of certain special purpose entities, such as community development authorities, shall not exceed 1% of the assessed value of all real and personal property subject to taxation within the City. At June 30, 2025, this would amount to \$73.9 million or 0% of the assessed value of all taxable real and personal property, which was within the policy parameter.
2. **Debt Service Policy Limit.** General obligation bonded debt and indirect debt shall not exceed 10% of the City's total General Fund and the School Operating Fund expenditures. At June 30, 2025, this would amount to \$32.6 million or 5% of total expenditures, which was within the policy parameter.
3. **General Obligation Debt Retirement Policy.** The City shall retire at least 60% of the principal balance of general bonded obligation debt within 10 years of the date the debt is issued. The City will retire approximately 65.5% of general bonded obligation debt for fiscal years 2026 through fiscal year 2035 that was outstanding as of June 30, 2025.
4. **Equity Funding.** A minimum of 2% to 6% of general fund revenues will be applied to Capital Improvement Projects(CIP) capital projects each year. At June 30, 2025, capital expenditures were \$45.7 million which is 9.8% of General Fund revenues. Also, a minimum of 10% to 15% of CIP projects over a rolling five-year period are to be funded from general fund revenues. For the five year period, 2025 through 2029, the City plans to use 29.7% of General Fund revenues on CIP projects.
5. **Unassigned Fund Balance.** The City will maintain an unassigned General Fund balance equal to 10% of total General Fund and School Operating Fund revenues. To the extent unassigned fund balance falls below the policy, the shortfall shall be replenished over a three-year period. The unassigned fund balance at June 30, 2025 was \$115.1 million or 17% of actual revenues. The City is in compliance with the Financial Policy Guidelines.

Credit Ratings

The City's credit ratings are as follows: AA+ by Standard and Poor's and Aa1 by Moody's Investor Services.

Major Initiatives and Accomplishments

Fort Monroe at Old Point Comfort is a National Historic Landmark and sits on a 565 acre island at the mouth of Hampton Roads with 3 miles of beaches, bayside boardwalk, 200 acres of parks and open space and spectacular views of the Chesapeake Bay. Today Fort Monroe still stands as the largest stone fortification and moat ever constructed in North America and is complete with 174 stately historic homes, over 1 million square feet of mainly historic non-residential space, a 332 slip marina, museum, the oldest operating lighthouse on the Chesapeake Bay, tremendous telecommunications infrastructure and convenient access to Interstate-64.

Fort Monroe was identified for closure by the 2005 Base Realignment and Closure Commission and was closed by the Army on September 15, 2011. Since that time, the Commonwealth of Virginia and City of Hampton have been preparing for closure and reuse of the Fort to mitigate the impact of the lost economic activity from the closure. Approximately 371 of the 565 acres of the property automatically reverts to Commonwealth ownership based on deed language when it was originally conveyed to the federal government in the 1800s. The Commonwealth and Army finalized the negotiations of the disposition of the “non-reversionary” acres in 2017 and transferred the remaining balance of federal land to the Fort Monroe Authority. That transfer included approximately 45 acres with an additional 20 acres to be transferred after the environmental remediation actions are completed. The final transfer was completed in 2019. Furthermore, the Commonwealth has transferred previously owned land to the Department of Interior to be incorporated into the Fort Monroe National Monument under the purview of the National Park Service. As part of the State’s partnership with the City, it was agreed that the City would receive a Payment In Lieu Of Taxes (PILOT) to cover the costs of City services that Hampton provides to state controlled property at Fort Monroe. The PILOT is based on the City’s real estate tax assessment and tax rate as if it was any other private property in the City, but excludes any property owned by the federal government or used by the City.

The key priority of the City and Commonwealth has been to keep a living and vibrant community throughout the transition. On November 1, 2011, President Barrack Obama took action to declare 245 acres of Fort Monroe a National Monument that will be managed by the National Park Service. Studies have shown the presence of a National Park increased the value of surrounding properties approximately 20%. Coupled with the history of Fort Monroe, the presence of the national park will also generate tourism to the City. The Fort Monroe Authority has also been successfully renting out the historic homes and has attracted some commercial tenants as well. Most of the existing developed area of the Fort will be subject to the PILOT and, in essence, be added to the City’s tax rolls. The Commonwealth is investing over \$22 million in infrastructure enhancements, upgrades and repairs. The intent is to ultimately market many of the properties for private investment and redevelopment. As properties are sold they will be added as revenue gains for the City’s tax rolls as well.

Awards and Achievements

The Government Finance Officers Association of the United States and Canada (GFOA) awards a *Certificate of Achievement for Excellence in Financial Reporting* to governmental units that publish an easily readable and efficiently organized Annual Comprehensive Financial Report that meets all generally accepted accounting principles and applicable legal requirements. The City has received this award for its Annual Comprehensive Financial Report for the fiscal year ended June 30, 2024.

A Certificate of Achievement is valid for a period of one year only. We believe our current report continues to conform to Certificate of Achievement Program requirements. This report will also be submitted to the GFOA to determine its eligibility for a certificate.

The City’s Budget Department received the Government Finance Officers Association *Distinguished Budget Presentation Award* for the fiscal year 2025 Budget document.

Acknowledgments

We acknowledge, with gratitude, the continued efficient and dedicated service rendered by the Finance Department staff and the assistance rendered by Cherry Bekaert LLP in keeping us in conformity with the rapidly changing accounting interpretations and principles. We also appreciate the responsible and progressive management program administered by your office and the members of the City Council.

Respectfully submitted,

HAMPTON VA

An aerial photograph of a coastal town, likely a historical fortification, situated on a peninsula. The town features a mix of modern and historical architecture, including large red-brick buildings and smaller houses. A prominent feature is a large, multi-tiered fortification with thick walls and bastions, situated on a grassy area. The town is surrounded by a network of roads and parking lots. In the background, a large body of water, possibly a bay or a wide river, stretches towards the horizon under a clear blue sky.

Financial SECTION

Report of Independent Auditor

To the Honorable Mayor and Members of City Council
City of Hampton, Virginia
Hampton, Virginia

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Hampton, Virginia (the "City"), as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

In our opinion, based on our audit and the report of the other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City, as of June 30, 2025, and the respective changes in financial position, and, where applicable, cash flows thereof, and the budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

We did not audit the financial statements of the Downtown Hampton Development Partnership Inc., which represent 0.7%, 2.2%, and 0.2%, respectively, of the assets, net position, and revenues of the aggregate discretely presented component units, as of June 30, 2025. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for the Downtown Hampton Partnership, Inc., is based solely on the report of the other auditors.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and the *Specifications for Audits of Counties, Cities, and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia (the "Specifications"). Our responsibilities under those standards and Specifications are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the City and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions. The financial statements of the Downtown Hampton Development Partnership, Inc. were not audited in accordance with *Government Auditing Standards*.

Emphasis of Matter

As discussed in Note 18 to the financial statements, the City adopted Governmental Accounting Standards Board Statement 101, *Compensated Absences*, during the year ended June 30, 2025 which resulted in a restatement of beginning net position. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Specifications will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Specifications, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and the Required Supplementary Information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The accompanying Combining and Individual Statements, as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Combining and Individual Statements are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the Introductory Section, Statistical Section, and the Continuing Disclosures, as listed in the table of contents, but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 5, 2025, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of the City of Hampton (City), we offer readers of the City's Annual Comprehensive Financial Report this narrative overview and analysis of the financial activities of the City for the fiscal year ended June 30, 2025. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal.

FINANCIAL HIGHLIGHTS

- The assets and deferred outflows of resources of the City exceeded its liabilities and deferred inflows of resources at the close of the most recent fiscal year by \$927.6 million (net position). The unrestricted net position, which represents the amounts available to meet the City's ongoing obligations to citizens and creditors, was \$154.8 million.
- Unrestricted Net Position increased by \$36.8 million when compared to the previous year. Increased home values and interest rates, resulted in the City recognizing a \$12.5 million or 4% increase in its general revenues, ending the year at \$361.1 million.
- The City implemented the Governmental Accounting Standards Board Statement 101: Compensated Absences which was effective for fiscal years ended June 30, 2025. The implementation resulted in a \$10 million increase to compensated absences reported as long-term debt.
- At the close of the current fiscal year, the City's governmental funds reported combined fund balances of \$374.2 million, an approximate 5% increase in comparison with the prior year. Of this amount, \$115.1 million or 31% is available for spending at the government's discretion (governmental unassigned fb).
- At the end of the current fiscal year, unrestricted fund balance (the total of committed, assigned, and unassigned components of fund balance) for the General Fund was \$165.7 million.

OVERVIEW OF THE FINANCIAL STATEMENTS

The discussion and analysis provided here are intended to serve as an introduction to the City's Annual Comprehensive Financial Report, which consists of four (4) sections including the introductory, financial, statistical and continuing disclosures. The basic financial section consists of three (3) sections: government-wide statements, fund financial statements and notes to financial statements.

GOVERNMENT-WIDE FINANCIAL STATEMENTS

The *government-wide financial statements* are designed to provide the reader with a broad overview of the City of Hampton's finances, in a manner similar to a private-sector business. Government-wide financial statements are reported using the full accrual basis of accounting and therefore presents the City's current year revenues and expenses, regardless of when cash is received or paid.

The *Statement of Net Position* (Exhibit A-1) presents information on all of the City's assets, liabilities and deferred inflows/outflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the city is improving or deteriorating.

The *Statement of Activities* (Exhibit A-2) presents information showing how the City's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows. Thus, revenues and expenses are reported for some items that will only result in cash flows in future fiscal periods (e.g. uncollected taxes).

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their cost through user fees and charges (business-type activities). The governmental activities of the City include general government, public safety, highways and

streets, sanitation, and culture and recreation. The business-type activities of the City include two event venues: Hampton Coliseum, Hampton Roads Convention Center; two golf courses: the Hamptons and Woodlands; one museum: Virginia Air & Space Museum; and three waste disposal functions including Solid Waste; Wastewater; and Refuse-Steam Plant (garbage). The government-wide financial statements include not only the City itself (known as the primary government), but four other legal separate entities including: Hampton City Schools, the Economic Development Authority, the Coliseum Business Improvement District, and the Downtown Hampton Development Partnership, Inc. Financial information for these component units is reported separately from financial information presented for the primary government itself (Exhibits A-11 and A-12).

FUND FINANCIAL STATEMENTS

The *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

GOVERNMENTAL FUNDS

Governmental funds are used to account for essentially the same functions reported as government activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in assessing the government's near-term requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City maintains nine individual governmental funds. Information is presented separately in the governmental fund balance (Exhibit A-3) sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances (Exhibit A-4) for the general, federal grant, economic development, debt service fund, and capital projects funds, which are considered to be major funds. Data from the other four governmental funds are combined into a single aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements in the combining and individual fund statements and schedules section of this report (see Exhibit C-1 and C-2). The City adopts an annual appropriated budget for its general and stormwater management funds. A budgetary comparison statement has been provided for the general fund to demonstrate compliance with this budget at Exhibit A-5. The budgetary comparison statement for the Stormwater Management fund can also be found in the individual fund statements and schedules section of this report (see Exhibits C-3)

PROPRIETARY FUNDS

The City maintains two different types of proprietary funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses enterprise funds to account for its two event venues: Hampton Coliseum, Hampton Roads Convention Center; two golf courses: the Hamptons and Woodlands; one museum: Virginia Air & Space Museum; and three waste disposal functions including Solid Waste; Wastewater; and Refuse-Steam Plant (garbage). Internal service funds are an accounting device used to accumulate and allocate costs internally among the City's various functions. The City uses internal service funds to account for the management of its information technology services (Information Technology Fund), retained risks (Risk Management Fund) and for its fleet of vehicles (Fleet Management and Equipment Replacement). Because these services predominantly benefit governmental rather than business-type functions, they have been included within governmental activities in the government-wide

financial statements. Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the Hampton Roads Convention Center, Virginia Air & Space Museum, and Wastewater Management, which are considered to be major funds (Exhibits A-6 through A-8). Conversely, the remaining enterprise funds and the internal service funds are combined into a single, aggregated presentation in the proprietary fund financial statements.

Individual fund data for the nonmajor enterprise and internal service funds are provided in the form of combining statements in the combining and individual fund statements and schedules section of this report. See exhibits nonmajor enterprise funds at exhibits D-1 through D-3. See internal service funds at exhibits E-1 through E-3.

FIDUCIARY FUNDS

Fiduciary funds are used to account for resources held for the benefit of parties outside of the government. Fiduciary funds are not reported in the government-wide financial statements because the resources of those funds are not available to support the City's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The City maintains two different types of fiduciary funds. The Hampton Employees Retirement System (HERS), a pension trust fund, is used to report resources held in trust for retirees and beneficiaries. The Custodial funds report resources, not in a trust, that are held by the City for other parties outside of City's reporting entity. The fiduciary fund financial statements provide separate information for the HERS pension trust fund and the Custodial Funds, which are considered to be major funds (Exhibits A-9 through A-10).

NOTES TO THE FINANCIAL STATEMENTS

The notes provide additional information that is necessary to acquire a full understanding of the data provided in the government-wide and fund financial statements.

OTHER INFORMATION

In addition to the basic financial statements and accompanying notes, this report also presents required supplementary information concerning the City's progress in funding its obligations to provide pension and OPEB benefits to its employees. Required supplementary information can be found immediately after the notes to the financial statements. The combining statements referred to earlier in connection with nonmajor governmental funds, internal service funds and custodial funds are presented immediately following the required supplementary information.

GOVERNMENT-WIDE OVERALL FINANCIAL ANALYSIS

As noted earlier, net position over time may serve as a useful indicator of a government's financial position. In the case of the City's assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$927.6 million, at the close of the most recent fiscal year.

FINANCIAL ANALYSIS OF THE CITY AS A WHOLE

The City's combined net position (which is the City's bottom line) increased by \$44.8 million in fiscal year 2025 as a result of the following changes:

Governmental Activities:

- The sale of the Hampton Road's Regional Jail resulted in the City recognizing \$8.1 million of unbudgeted windfall revenue.
- Long-term debt experienced a \$17 million decrease resulting from the following net changes:
 - The City issued new debt totaling \$5.9 million in support of its new traffic photo enforcement program and the construction of a new science wing at Bethel High School.
 - Principal bond and lease payments reduced long term debt by a total of \$24.2 million.

Business-Type Activities:

- The Wastewater Management Fund experienced \$6 million increase in net position as a resulting from a \$6.7 million or 62% increase in revenues driven by a rate increase that became effective on July 1, 2024.
- The Hampton Road's Convention Center experienced a \$3.8 million as a result of City Council's continued commitment to provide the center with two percent of the General Fund's total meal and lodging taxes.

Each of these factors contributing to the change in net position will be discussed in further detail in the next sections.

ANALYSIS OF CHANGES IN STATEMENT OF ACTIVITIES

GOVERNMENTAL FUNDS

During the current fiscal year ended June 30, 2025, net position for governmental activities increased \$32.9 million. The increase in governmental net position is a combined result of increased current assets and decreased current and long-term liabilities. Current assets, which are materially made up of cash and investments increased by \$14.2 million. The investments is largely a result of unbudgeted windfall revenue recognized from the sale of the Hampton Road's Regional Jail facility. As discussed in Note 14, the Hampton Road's Regional Jail Authority is a political subdivision of the Commonwealth of Virginia that was created through an agreement by five localities within the Hampton Roads region, including the City of Hampton. The Authority ceased operations in April 2024 began winding down operations. During fiscal year 2025, the Authority's jail facility was sold and gains from the sale were disbursed to member localities. Resultantly, the City recognized a \$8.1 million gain from the sale that was invested in the State's local investment pool.

Overall, liabilities experienced a net \$10.6 million decrease. The non-operational aspect of this change (\$9.5 million increase) caused by the GASB 101 implementation was previously discussed. From an operational perspective, the City issued \$5.9 million of new debt and paid \$24.2 million in principal on existing debt.

In terms of new debt, City was authorized to borrow up to \$20 million from the Commonwealth of Virginia's Literary Fund to fund the construction of a 38,000 square foot science wing addition at Bethel High School. The debt, referred to as the Literary Loan, is structured as a line of credit during the construction phase of the project allowing the City to only borrow the exact amount needed to cover the cost of construction. When the construction is complete, the debt will be converted into a general obligation bond payable in 20 years. As of June 30, 2025, the City had drawn \$375,000 against the loan.

Additionally, the City began its first phase of its traffic photo enforcement program using leased camera equipment. Camera were installed at select red lights and school zones to identify and deter traffic violations. As of June 30, 2025, the new camera equipment increased right-to-use capital assets and lease liabilities by \$4.5 million.

BUSINESS TYPE ACTIVITIES

The Business-type activities reported a \$8.78 million total positive change in net position. The positive increase in net position is largely a result of the Wastewater Management Fund which recognized a \$5.95 million increase in net position and the Hampton Roads Convention Center (HRCC) which experienced a \$3.8 million increase in net position. City Council approved a 73-cent increase in the wastewater fee effective July 1, 2024. The fee increase was approved to support continued maintenance on the aging wastewater system. As a result of the fee increase, the Wastewater Fund recognized \$17.54 million of revenues, \$6.7 million or 62% more than the prior year.

HRCC's net position increase results from City Council's continued commitment to funding a portion of the HRCC's operating cost by transferring two percent of the General Fund's total meal and lodging taxes to the HRCC fund. These non-operating revenues offset the fund's annual operating deficit. For the fiscal year ending 2025, \$9.57 million was transferred to the HRCC which offset the \$(5.78) million operating deficit resulting in a positive change in net position.

FINANCIAL ANALYSIS OF GOVERNMENTAL FUNDS

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for discretionary use as they represent the portion of fund balance which has not yet been limited to use for a particular purpose by either an external party, the City itself, or a group or individual that has been delegated authority to assign resources for use for particular purposes by the City's Council. As of June 30, 2025, the

City's governmental funds reported combined fund balances of \$374.2 million, an increase of \$17.7 million in comparison to the prior year. Of this amount, \$115.1 million, or 31%, constitutes unassigned fund balance, which is available for spending at the government's discretion. The remainder of the fund balance is either nonspendable, restricted, committed, or assigned to indicate that it is (1) not in spendable form, \$37 thousand; (2) restricted for particular purposes, \$18.8 million; (3) committed for particular purposes, \$177.8 million; or (4) assigned for particular purposes, \$62.5 million.

ANALYSIS OF INDIVIDUAL FUNDS

GOVERNMENTAL FUNDS

The General Fund is the chief operating fund of the City. The fund balance of the City's General Fund slightly increased by \$18.4 million or 12% for the current fiscal year. The increase in General Fund revenues are primarily a result of revenues from the Hampton Road's Regional Jail which was a major factor in miscellaneous revenues increasing by approximately \$9.3 million, from \$6 million in the prior year to \$15.3 million in the current year. A continued increase in property values contributed to a \$8.4 million or 4% increase in personal property taxes. Fines and forfeitures also recognized a \$3.1 million increase over the \$1.0 million balance reported in the prior year. School speed zone and red light enforcement cameras resulted in \$2.1 million and \$1.0 million of revenues, respectively.

General Fund expenditures slightly increased by \$5.40 million or 2% from the prior year as a result of general wage increases that became effective on July 1, 2024. None of the other governmental funds experienced a major changes in their fund balances which aligned with expectation.

GENERAL FUND BUDGETARY HIGHLIGHTS

Original budget compared to final budget: During the year, there was no need for any significant amendments to increase either the original estimated revenues or original budgeted appropriations. However, there was a need to make an amendment to reallocate appropriations among departments to accommodate grants and fund transfers that were appropriated after the original budget was approved.

Final budget compared to actual results: The General Fund's revenues were budgeted at \$441 million. Actuals performed higher than budgeted, ending the year \$465 million, a 5% increase over budget. The most significant differences between estimated revenues and actual revenues were as follows:

- Local Taxes exceeded budget by \$7.3 million or 2%
- Fines and forfeitures were under budget by \$2.5 or 37%.
- Revenues from use of money and property exceed budget by \$4.9 million or 81%.
- Charges for services exceed budget by \$2.3 million or 21%.
- Miscellaneous revenue exceeded budget by \$9.8 million or 17%

Revenue sources such as local taxes and revenues from use of money and property that are impacted by economic factors such as property values, inflation and federal interest rates. In creating the fiscal year 2025 budget these factors were considered in the City's revenues projections. While the City has begun to recognize a reduction in the percentage of revenue growth, local taxes and revenues from use of money and property exceeded budgeted expectation due to the City's conservative budgeting standards.

The city utilizes a 3rd part vendor to bill citizens for fire and rescue ambulatory fees. During fiscal year 2024, the vendor's financial records were compromised resulting in a loss of data that precluded the vendor from remitting the final quarter of ambulatory revenues to the City. Data recovery efforts were ongoing as of June 30, 2024 and therefore reliable data was unavailable to generate a receivable and recognize revenue for April - June 2024 ambulance fees. The \$2.3 million increase in Charges for Services revenue recognized in fiscal year 2025 is a result of the City recouping revenues from this incident. The balance is immaterial to the General Fund's net position and revenues. A beginning balance adjustment was not deemed necessary and the recovery of revenues were recognized in fiscal year 2025.

While the implementation of school speed zone and red light enforcement cameras have resulted in additional revenues when compared to prior year, revenues from this program were based on a greater number of cameras than were actually installed during the fiscal year contributing to this revenue source underperforming budget.

The increase to miscellaneous revenue is a result of the Hampton Roads Regional Jail, previously discussed.

CAPITAL ASSETS

The City's investment in capital assets for its governmental and business-type activities as of June 30, 2025, amounts to \$1,038.8 million (net of accumulated depreciation/amortization). The total increase in capital assets for the current fiscal year was less than 1%. This investment in capital assets includes land, buildings, machinery, equipment, vehicles, park facilities, roads, highways, bridges, intangibles, etc., as summarized in the schedule below:

The capital plan set forth \$77.9 million to be spent during fiscal year 2025 in various projects including a \$27 million investment in Hampton City School's maintenance and technology; \$19.6 million in citywide street and traffic maintenance; \$9.1 million in the maintenance of public properties; and \$1.9 million in upgrading court and jail security.

LONG-TERM DEBT

At the end of fiscal year 2025, the City had \$275.8 million in outstanding general obligation bonds and \$51.5 million in outstanding revenue bonds. More detailed information about the City's long-term liabilities is presented in Note 10 to the financial statements.

The Commonwealth of Virginia limits the amount of general obligation debt the City can issue to 10% of the assessed valuation of real property. As of June 30, 2025, the City's aggregate general obligation indebtedness is \$1.569 billion below this limit.

NEXT YEAR'S BUDGET

The City's staff and City Council considered many factors when developing the fiscal year 2026 budget. The fiscal year 2026 approved budget for the General Fund is \$678 million, a 5.4% increase over fiscal year 2025.

CONTACTING THE CITY'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, investors and creditors with a general overview of the City's finances and to demonstrate the City's accountability for the money it receives. Questions concerning this report or requests for additional financial information should be directed to Karl S. Daughtrey, Director of Finance, 22 Lincoln Street, 7th Floor, Hampton, Virginia 23669, telephone (757) 727-6230.

CITY OF HAMPTON, VIRGINIA
Reconciliation of the Balance Sheet of Governmental Funds
To the Statement of Net Position (Exhibit A-1)
June 30, 2025

Amounts reported for governmental activities in the Statement of Net Position are different because:

Total fund balances - governmental funds	\$ 374,187,094
Capital assets of \$1,284,872,849, net of accumulated depreciation of \$395,522,116, used in governmental activities are not financial resources and, therefore, are not reported in the funds.	889,350,733
Intangible right-to-use assets of \$21,728,219, net of accumulated amortization of \$5,156,895, used in governmental activities are not financial resources and therefore are not reported in the funds.	16,571,324
Differences between expected and actual experiences, assumption changes and net differences between projected and actual earnings and contributions subsequent to the measurement date for the postretirement benefits (pension and OPEB) are recognized as deferred outflows of resources and deferred inflows of resources on the Statement of Net Position.	
Deferred outflows - pension related	37,260,984
Deferred outflows - OPEB related	29,493,639
Deferred inflows - pension related	(18,867,505)
Deferred inflows - OPEB related	<u>(20,514,991)</u>
Total deferred outflows and inflows related to postemployment benefits	27,372,127
Other long-term assets that are not available to pay for current period expenditures and, therefore, are either deferred or not reported in funds.	14,296,996
Internal service funds are used by management to charge the cost of fleet management and risk management and certain other activities to individual funds. The assets, deferred outflows of resources, liabilities, and deferred inflows of resources of the internal service funds are included in governmental activities in the Statement of Net Position on the Combining Statement of Net Position-Internal Service Funds (Exhibit A-6)	
Internal Service Fund Total Net Position	62,862,254
Deferred outflows - pension related	(212,309)
Deferred outflows - OPEB related	(114,099)
Deferred inflows - pension related	95,317
Deferred inflows - OPEB related	261,248
Capital assets	(19,609,057)
Current and noncurrent portion of long-term liabilities	<u>29,054,591</u>
Total	72,337,945
Long-term liabilities that are not due and payable in the current period, and therefore, are not reported in the funds.	
General obligation bonds payable	(298,126,187)
Compensated absences	(20,073,621)
Lease and subscription payable	(17,052,861)
Net pension liability	(122,275,817)
Net OPEB liability	(97,297,877)
Notes and other long-term payables	<u>(27,643,334)</u>
Total long-term liabilities	(582,469,697)
Accrued interest payable in long-term debt	(3,427,631)
Governmental funds report the effect of premiums, discounts, and refunding and similar items when debt is first issued, whereas these amounts are deferred and amortized in the Statement of Activities.	
Deferred outflows on refunding	1,546,241
Deferred inflows on refunding	<u>(3,188,457)</u>
Total deferred outflows and inflows on refunding	(1,642,216)
Interfund balances related to amounts eliminated in the Statement of Net Position	<u>(23,710,179)</u>
Net position of governmental activities	<u>\$ 782,866,496</u>

The accompanying notes are an integral part of these financial statements.

CITY OF HAMPTON, VIRGINIA
Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities (Exhibit A-2)
For the Year Ended June 30, 2025

Amounts reported for governmental activities in the Statement of Activities are different because:

Net change in fund balance - total governmental funds	\$ 17,722,656
---	---------------

Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of these assets is allocated over their estimated useful lives and reported as depreciation expenses. This is the amount by which capital outlays exceeded depreciation expenses in the current period. Loss on disposal of assets is not reported in the governmental funds, but is reflected in the Statement of Activities.

Capital acquisitions	24,629,333
Capital outlay - Intangible right-to-use assets	5,488,582
Depreciation and amortization expense	<u>(26,672,781)</u>
	3,445,134

Revenues in the statement of activities that do not provide current financial resources are not reported as revenue in the funds but earned during the period that are not yet available are reported in the Statement of Activities, but not reported as revenues in the funds	1,957,884
---	-----------

The net effect of various miscellaneous transactions involving capital assets (i.e. sales, trade-in, and donations) is to increase (or decrease) net position.

Donated capital assets	399,300
Loss on disposal of assets	<u>166,392</u>
	565,692

Bonds and other debt proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the Statement of Net Position. Repayment of bonds and other debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position. Also, governmental funds report the effect of premiums, discounts and similar items when debt is first issued, whereas these amounts are deferred and amortized in the Statement of Activities.

Increase in compensated absences	(1,344,961)
Issuance of new debt: Literary Loan	(375,616)
Repayment of debt principal	22,054,453
Principal paid on leases	2,257,258
Proceeds from lease issued	<u>(5,488,582)</u>
	17,102,552

The internal service funds are used by management to charge the costs of equipment replacement, fleet management, information technology, and risk management to individual funds. The net revenue of the internal service funds is reported with governmental activities.	889,019
--	---------

Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds.

Change in accrued interest expense for long-term debt	(28,273)
Change in accrued interest expense for intangible right-to-use lease liabilities	(1,732)
Amortization of premiums	2,518,119
Changes in pension liabilities and related deferred outflows and inflows of resources	(145,279)
Changes in OPEB liabilities and related deferred outflows and inflows of resources	<u>2,142,704</u>
	4,485,539
Change in net position of governmental activities	<u><u>\$ 46,168,476</u></u>

The accompanying notes are an integral part of these financial statements

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

In 1610, the construction of Fort Henry and Fort Charles at the mouth of Hampton Creek marked the beginnings of Hampton. In 1619, the settlers chose an English name for the community, Elizabeth City. The settlement was known as Hampton as early as 1680 and in 1705, Hampton was recognized as a town. The City of Hampton (the City) was first incorporated in 1849 and classified as a city of the second class in 1908. In 1952 Hampton, the independent town of Phoebus and Elizabeth City County, encompassing Buckroe and Foxhill, were consolidated under one municipal government and classified as a city of the first class.

The following is a summary of the significant accounting policies.

Reporting Entity

The accompanying financial statements present the City and its component units. These statements conform to accounting principles generally accepted in the United States of America (GAAP) applicable to government units promulgated by the Governmental Accounting Standards Board (GASB). Accordingly, the City follows GAAP and presents an Annual Comprehensive Financial Report, which includes the Management's Discussion and Analysis, Government-wide (Statement of Net Position and Statement of Net Activities) Financial Statements and Budgetary Comparison Schedules.

Component Unit Disclosures

The component units discussed in the following section are included in the City's reporting entity because the City is financially accountable for these organizations, as defined within GAAP. Each discretely presented component unit is reported in a separate column in the government-wide financial statements to emphasize that it is legally separate from the government.

Discretely Presented Component Units

Discretely presented component units are entities that are legally separate from the City, but for which the City is financially accountable, and whose relationship with the City is such that exclusion would cause the City's financial statements to be misleading or incomplete. The discretely presented component units are: Hampton City School Board, Hampton Economic Development Authority, Coliseum Central Business Improvement District, Inc. and Downtown Hampton Development Partnership, Inc. All of these component units are considered major. They are reported as a separate column in Exhibits A-1 and A-2 and are also presented in detail in Exhibits A-11 and A-12.

Hampton City School Board

The Hampton City School Board (School Board) is a legally separate entity which oversees the operations of and establishes educational policies for the City's public school system. Seven School Board members are elected by the voters of the City. The School Board has no power to levy taxes or issue bonds. Its budget is subject to approval by the City Council; however, Council only approves, rejects, or modifies the single amount requested by the School Board. The City provides operating and capital funding to the School Board. Therefore, the School Board is fiscally dependent and imposes specific financial burdens on the City. Combining statements for the School Board are presented in Exhibits G-1 through G-3. The School Board does not issue separate financial statements.

Hampton Economic Development Authority

The Hampton Economic Development Authority (EDA) is a public corporation established under the Industrial Development and Revenue Bond Act of the Commonwealth of Virginia, together with ordinances adopted by the City Council. The EDA was established to promote and develop trade within the City by inducing manufacturing, industrial and commercial enterprises to locate or remain in the City. The EDA is included as a discretely presented component unit because the City appoints the governing body of the EDA, funds the EDA's

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, continued:

operating and capital budgets and it receives all of the revenues derived from EDA land sales. The EDA does not issue separate financial statements.

Coliseum Central Business Improvement District, Inc.

The Coliseum Central Business Improvement District, Inc. (Coliseum BID) was incorporated on January 22, 1996, to promote, develop and market the Coliseum Central Business District in the City. Coliseum BID was created by action of the City Council under provisions of the Code of Virginia. An additional tax is assessed on commercial real estate located in the District to provide funds for the economic development of the District. City Council levies the additional tax for the District and provides other funding for operations. Coliseum BID is included in the City's reporting entity because it is fiscally dependent and it imposes specific financial burdens on the City. A copy of the separately issued financial statements for Coliseum BID may be obtained by writing to Coliseum BID, 2101 Executive Drive, Suite 550, Hampton, Virginia 23666 or by calling (757) 826-6351.

Downtown Hampton Development Partnership, Inc.

The Downtown Hampton Development Partnership, Inc. (Downtown Hampton) was incorporated on August 15, 1995, to promote, develop, and market the Downtown Hampton Business Improvement District. Downtown Hampton was created by action of the City Council under provisions of the Code of Virginia. The City assesses an additional tax on the value of the commercial real estate located in the District to provide funds for the economic development of the District. City Council levies the additional tax for the District and provides other funding for operations. Downtown Hampton is included in the City's reporting entity because it is fiscally dependent and it imposes specific financial burdens on the City. A copy of the separately issued financial statements for Downtown Hampton may be obtained by writing to Downtown Hampton Development Partnership, 710 Settlers Landing Road, Hampton, Virginia 23669 or by calling (757) 727-1271.

Fiduciary Component Unit - Hampton Employees Retirement System (HERS)

HERS is a single employer public employee defined benefit pension plan established and administered by the City. It was established as a separate trust fund in 1966 to augment the retirement benefits provided to full-time permanent City and School Board employees under the Virginia Retirement System.

Other Related Organizations

The financial statements of the following public organizations, commissions, authorities and boards are not included in the reporting entity. These organizations are political subdivisions created under the laws of the Commonwealth of Virginia. Their governing boards are appointed, at least in part, by the City, where responsibility in most instances is limited to pro rata representation through appointments to the governing boards. The individual governing boards of the organizations appoint management, establish budgetary control and are accountable for their own fiscal affairs including deficits, debt service, operating costs, etc. The City is not financially accountable for these organizations.

Peninsula Airport Commission

The Peninsula Airport Commission (PAC) operates the Newport News/Williamsburg International Airport. Board membership is allocated among and appointed by the various localities. The PAC's operating and capital expenditures, including debt service, are financed by its operations and contributions from the participating localities. The City has no budgetary authority, is not responsible for deficits or debt service and cannot set rates for services or uses of the airport facilities.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, continued:

Other

There are certain other agencies and commissions that service the City and surrounding localities whose board membership is allocated among and appointed by the various localities. These agencies include: Hampton Roads Transit (HRT), Hampton Roads Planning District Commission (HRPDC), Virginia Peninsula Public Service Authority (VPPSA), Hampton Roads Economic Development Alliance (HREDA) and the Peninsula Council for Workforce Development (PCFWD). Expenditures of these agencies are financed by federal and state grants, fees, and contributions. During the year ended June 30, 2025, the City provided operating and capital support of \$5,470,091 to HRT, \$202,820 to HRPDC, \$10,000 to VPPSA, \$157,720 to HREDA and \$34,509 to PCFWD.

Jointly Governed Organizations

The City has two jointly governed organizations, the Hampton-Newport News Community Services Board (CSB) and the Eastern Virginia Regional Industrial Facilities Authority (EVRIFA).

Hampton-Newport News Community Services Board

The CSB operates as an agent for the Cities of Hampton and Newport News in the establishment and operation of community mental health, mental retardation and substance abuse programs as provided for in Chapter 10 of Title 37.1 of the Code of Virginia, relating to the Virginia Department of Mental Health and Mental Retardation. The CSB designates its own management and adopts its own budget. The operations are financed principally by state and federal funds. The City provided operating support of \$2,197,527 to the CSB during fiscal year 2025.

Eastern Virginia Regional Industrial Facilities Authority

The EVRIFA, a political subdivision of the Commonwealth of Virginia, was created under the provision of Chapter 64 of Title 15.2 of the Code of Virginia, to promote economic development in the Hampton Roads region. EVRIFA is governed by a Board of Directors, composed of two officials appointed by participating localities. Currently, the Cities of Hampton, Newport News, Norfolk, Portsmouth, Virginia Beach, Chesapeake, Franklin, Poquoson, Williamsburg and the counties of Gloucester, Isle of Wight, South Hampton, James City and York are members of the Authority. The membership-based organization collects annual dues from participating localities to fund economic development projects. The City provided operating support of \$9,000 to EVRIFA during fiscal year 2025.

Government-wide and Fund Financial Statements

The government-wide reporting model (Exhibits A-1 and A-2) includes financial statements prepared using full accrual accounting for all government activities. The government-wide financial statements, the Statement of Net Position and the Statement of Activities, report information on all of the non-fiduciary activities of the City and its component units. As a general rule, the effect of interfund activity has been removed from these statements. Governmental activities, which are normally supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely primarily on fees and charges for services. The Primary Government is reported separately from certain legally separate component units for which the Primary Government is financially accountable.

Statement of Net Position

The Statement of Net Position (Exhibit A-1) is designed to display the financial position of the Primary Government (governmental and business-type activities) and its discretely presented component units. Governments report all capital assets, including infrastructure, in the government-wide Statement of Net Position and report depreciation expense in the Statement of Activities. The net position of a government is displayed in three categories - net investment in capital assets, restricted and unrestricted. Also included in the Statement of Net Position are long term debt and obligations.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, continued:

Statement of Activities

The government-wide Statement of Activities (Exhibit A-2) reports expenses and revenues in a format that focuses on the cost of each of the City's functions. The expenses of the individual functions are compared to the revenues directly generated by the function through user fees or intergovernmental grants.

The Statement of Activities demonstrates the degree to which direct expenses of a given function or segment is offset by program revenues. Program revenues include charges to customers who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment and grants and contributions that are restricted to meet the operational and/or capital requirements of a particular function or segment. Taxes and other items that are not included in program revenues are classified as general revenues

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements. The City reports the following major governmental funds: the General, Federal Grants Special Revenue, Economic Development Special Revenue, Debt Service and Capital Project funds. The major enterprise funds are: Convention Center, Virginia Air and Space Center (Museum), and Wastewater Management funds.

Basis of Accounting

The basis of accounting applied to a fund and the Discretely Presented Component Units is determined by the measurement focus. Basis of accounting refers to when revenues, expenditures (governmental) or expenses (proprietary), transfers and the related assets and liabilities are recognized in the accounts and reported in the financial statements.

In the government-wide financial statements, all Proprietary Funds, Fiduciary Funds, and Discretely Presented Component Units are accounted for using the economic resources measurement focus. This measurement focus is the same as that used by commercial enterprises. This approach includes not just current assets and liabilities (such as cash and accounts payable) but also capital assets and long-term liabilities (such as buildings and infrastructures, including bridges and roads, and general obligation debt). The accrual basis of accounting also reports all of the revenues and cost of providing services each year, not just those received or paid in the current year or soon thereafter.

The accrual basis of accounting is followed in the government-wide financial statements, the Internal Service, Enterprise, Fiduciary Funds and the Discretely Presented Component Units. Under this method of accounting, revenues are recognized when earned and expenses are recognized when the related liability is incurred. Proprietary funds distinguish operating revenues and expenses from non-operating items. Generally, operating revenues and expenses result from services provided by or producing and delivering goods in connection with the proprietary fund's principal operations.

All Governmental Funds are accounted for using the current financial resources measurement focus and modified accrual basis of accounting. This means that generally only current assets and current liabilities are reflected on their balance sheets. Their operating statements present increases (revenues and other financing resources) and decreases (expenditures and other financing uses) in net current assets.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, continued:

Under the modified accrual basis of accounting, followed by the General, Special Revenue-Federal Grants, Special Revenue-Economic Development, Debt Service and Capital Projects Funds, revenues are recognized when they become both measurable and available to finance operations of the current year. Revenues considered susceptible to accrual consist primarily of property taxes, certain grants and sales and utility taxes. Accordingly, real and personal property taxes are recorded as revenue when levied and billed, net of allowances for uncollectible amounts. Property taxes not collected within 45 days after year-end are reflected as unavailable revenues. Revenues from Federal, state, and other grants, used to fund specific City expenditures, are recorded at the time of receipt of notification of the grant. Revenues from general purpose grants are recognized in the period to which the grant applies. Sales and utility taxes collected by the State or utility companies and subsequently remitted to the City are recognized as revenue upon collection by the State or utility company, which is generally in the month preceding receipt by the City. Licenses, permits, fines and rents are recorded as revenue when received. Expenditures, other than interest and principal on long-term debt and other long term liabilities, are recorded as the related liabilities are incurred, if measurable. Interest and principal on long-term debt are recognized when due. General capital asset acquisitions are reported as expenditures in the governmental funds. Issuance of long-term debt and acquisitions under leases are reported as other financing sources.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources as they are needed.

Budgets and Budgetary Accounting

The City's procedures for establishing the budgetary data reflected in the financial statements for the General Fund and School Operating Fund are as follows:

1. The City Manager submits to the City Council a recommended budget no later than April 15th, for the fiscal year commencing the following July 1. The operating budget includes proposed expenditures and the means of financing them.
2. Public hearings are conducted by the City Council to obtain taxpayer comments.
3. The budget is legally enacted through the passage of an ordinance by City Council no later than May 15th.
4. The City Manager or his/her designee is authorized to transfer budgeted amounts within departments within the General Fund. Revisions that alter the total appropriations for a department must be approved by City Council. Therefore, the level of control at which expenditures may not exceed appropriations is the total expenditure level of each department. Transfers within the School Operating Fund are under the control of the School Board.
5. Formal budgetary integration is employed as a management control device during the year for the General Fund and School Board Component Unit Operating Fund.
6. Budgets for the City General Fund and School Board Operating Fund are legally adopted on a basis consistent with Generally Accepted Accounting Principles.

Budgeted amounts are as originally adopted or as amended by City Council and the School Board during fiscal year 2025. Unencumbered appropriations lapse at year-end in the General and School Operating Funds. Appropriations which are encumbered at year-end are carried forward into the following year's appropriation to allow liquidation of the encumbrances.

An annual budget is not adopted for the Debt Service Fund because effective control is alternatively achieved through general obligation bond indenture provisions. Annual budgets are not employed for Capital Projects Fund and Special Revenue Funds, except the Stormwater Fund, because each program grant or capital project is approved separately.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, continued:

General Property Tax Calendar

Real property is assessed at fair market value as of July 1 of each year; personal property and public service corporation properties (real and personal) are assessed as of January 1 of each year. Taxes are levied on a fiscal- year basis for real property and a calendar year basis for personal property. Taxes are due and payable in two equal installments on June 5th and December 5th. Installments due on June 5, 2025, are levied for the current fiscal year and, when unavailable in the current period, are reported as deferred inflows of resources. Installments due on December 5, 2025, are levied for fiscal year 2026, therefore, are unearned and reported as deferred inflows of resources.

Penalties are assessed at 10% of the tax due for real estate and personal property which are not paid by the due date. Interest at 10% per year for real and personal property is charged on unpaid tax installments. A lien is recorded on all real property with delinquent real estate taxes not paid within three years.

Encumbrances

Encumbrance accounting, under which purchase orders, contracts and other commitments for the expenditure of monies are recorded in order to reserve that portion of the applicable appropriation, is employed as an extension of formal budgetary integration in the General Fund and School Operating Fund. Encumbered amounts for specific purposes for which amounts have not been previously restricted, committed or assigned will be reported within committed or assigned fund balance, as appropriate.

Investments

Investments of the Hampton Employees' Retirement System are stated at fair value, except for short-term investments, which are stated at cost. All other City investments are generally stated at fair value, except for short-term cash equivalents, which are stated at cost.

Receivables

Receivables of the General Fund are stated net of an allowance for uncollectible taxes of \$3,201,353. Management has determined that the allowance is sufficient to provide for any losses that may be sustained on realization of the accounts receivable.

Inventories

The inventories reflected in the Enterprise Funds and School Funds consist principally of food items and items held for resale and are valued at cost (first-in, first-out). The General Fund's inventory consists of consumable supplies valued at cost (first-in, first-out). The Internal Service Funds' inventories consist principally of expendable items held for consumption and are valued by the average-cost method. Inventories are recognized as expenditures and expenses when consumed or sold.

Prepays

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements. Prepays in the General Fund, Internal Service Funds and Enterprise Funds consist of mainly insurance and contract costs which are recognized proportionately over the periods the service is provided (consumption method).

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, continued:

Land Held for Resale

Land held for resale by EDA is stated at cost or, if donated, at acquisition value as of the date received. Development costs of the EDA are added to the cost of the land when incurred. Total land and development costs are allocated to total saleable acreage under development and are charged to expenses on a prorated basis when the land is sold.

Interfund Activity

Activity between funds that represents lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as “due to/from other funds” (current portion) or “advances to/from other funds” (non-current portion of interfund loans). Any residual balances outstanding between governmental activities and business-type activities are reported in the government-wide financial statements as internal balances (see note 8).

Restricted Assets:

Restricted assets represent the following invested assets set aside in the Convention Center:

	Convention Center
RESTRICTED ASSETS	
Cash:	
Operating/Capital Reserve Fund	\$ 11,524,349
Debt Service Reserve Fund	358,650
Investments:	
Operating Reserve Fund	7,036,141
Bond Fund	647,460
Debt Service Reserve Fund	<u>5,728,515</u>
	<u><u>\$ 25,295,115</u></u>

The assets for Convention Center are classified as restricted since their use is limited by the Bond Trust Indenture.

Capital and Intangible Right to Use Assets

Capital Assets

Capital assets include land; buildings; machinery and equipment; infrastructure such as roads, bridges, sidewalks; and intangible assets such as easements, and proprietary software. Capital assets are reported at historical cost, or estimated historical cost if actual cost is not available, less accumulated depreciation for the Primary Government in the applicable governmental or business-type activities columns in the government-wide financial statements and in the proprietary fund financial statements.

Capital assets, other than computer equipment, computer software, and infrastructure assets, are defined by the City as assets with an initial, individual cost of more than \$2,500 and an estimated useful life greater than one year. Computer equipment and computer software are capitalized when the initial, individual cost exceeds \$1,000 and \$5,000, respectively. Infrastructure assets and improvements that meet the capitalization threshold, generally \$10,000, are capitalized and reported in the government-wide financial statements.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, continued:

Major outlays for capital assets and improvements are capitalized as projects are constructed. Historical cost of self-constructed infrastructure includes direct labor, direct materials and overhead costs allocated based on direct labor hours charged to the project. Capital assets capitalized at a lower threshold continue to be reported on the basis of past practice. The cost of normal maintenance and repairs that do not add to the value or materially extend asset lives are not capitalized. Donated capital assets are recorded at acquisition value at the date of donation. When assets are retired or otherwise disposed of, the related cost and accumulated depreciation are eliminated and any resulting gain or loss is reflected as non-operating revenue or expense.

Intangible Right to Use Assets

Intangible right to use assets include leased buildings; leased machinery and equipment; and subscription software assets. Initially, intangible right to use assets are reported as the value of the lease or subscription liability, plus any payments made before or at the beginning of the term and any ancillary cost necessary to place the asset in services. Intangible right to use assets are amortized over the life of the contract term. Similar to capital assets, intangible right to use assets are reported in the applicable governmental or business-type activities columns in the government-wide financial statements and in the proprietary fund financial statements. The City capitalizes all intangible right to use assets.

Land and construction in progress are not depreciated. The other tangible and intangible property, plant, equipment, leased building and equipment in addition to the infrastructure of the City are depreciated/amortized using the straight-line method over the following estimated useful lives:

Assets	Years
Buildings and improvements	10-40
Right-to-use lease buildings	10-40
Improvements other than buildings	10-50
Equipment and computer software	3-20
Right-to-use lease equipment	3-20
Exhibits	7-10
Infrastructure	5-75
Landfill	Percentage of completion

The City capitalized interest costs on funds borrowed to finance the construction of capital assets in the proprietary funds.

The Landfill in the Solid Waste fund is recorded at cost and amortized using the straight-line method based on tonnage received in relation to total expected capacity.

The HERS capitalizes equipment, other than computer equipment, over \$2,500. Computer equipment having a cost of \$1,000 or more is capitalized. Capital assets are recorded at cost and depreciation is recorded using the straight-line method over the estimated useful lives of the assets. The estimated useful life of equipment is 3 - 20 years.

The capital assets of the discretely presented component units - School Board, Economic Development Authority, Downtown Hampton Development Partnership, Inc., and the Coliseum Central Business Improvement District, Inc. are stated at cost. Depreciation has been provided using the straight-line method over the estimated useful lives of the assets.

Deferred outflows/inflows of resources

In addition to assets, the Statement of Net Position will sometimes report a separate section for deferred outflows of resources. Deferred outflows of resources, which represent a consumption of net assets that applies to future periods and so will not be recognized as an outflow of resources (expense/expenditure) until then.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, continued:

One of the deferred outflows resources is the deferred charge on refunding reported in the government-wide Statement of Net Position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The other deferred outflows of resources are related to pensions and other postemployment benefits (OPEB), which consist of employer contributions subsequent to the measurement date, changes in proportion and differences between employer contributions and proportionate share of contributions, net difference between projected and actual earnings on pension plan investments and change in assumptions. These amounts are deferred and amortized in accordance with GAAP.

In addition to liabilities, the Statement of Net Position will sometimes report a separate section for deferred inflows of resources. Deferred inflows of resources, which represent an acquisition of net assets that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time. The City has two types of items, which arise only under a modified accrual basis of accounting, that qualify for reporting in this category. Accordingly, unavailable revenue and property taxes collected in advance are reported only in the governmental funds' Balance Sheet. The governmental funds report unavailable revenues from three sources: property taxes, charges for services, program income, stormwater fees, and opioid settlement funds. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. The governmental funds report revenues collected in advance from one source: property taxes. These amounts are deferred and recognized as an inflow of resources when the taxes are levied.

The deferred inflows of resources related to pensions and OPEB consist of differences between expected and actual experience, net difference between projected and actual earnings on plan investments, changes in proportion and differences between employer contributions and proportionate share of contributions and change in assumptions. These amounts are deferred and amortized in accordance with GAAP.

The City as the lessor recognizes and measures the deferred inflows of resources as the initial amount of the lease receivable, adjusted for lease payments received at or before the lease commencement date less any lease incentives paid to, or on behalf of the lessee at or before the commencement of the lease term. Subsequently, the deferred inflows of resources is recognized as revenue as revenue over the life of the arrangement, in accordance with GAAP.

Fund Balance

Fund balance is the difference between the assets and deferred outflows of resources and liabilities and deferred inflows of resources reported in a governmental fund. There are five separate components of fund balance, each of which identifies the extent to which the City is bound to honor constraints on the specific purpose for which amounts can be spent. The five categories are as follows:

Nonspendable Fund Balance - Includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact. Examples would be inventory, long term receivables, or a fund that is legally or contractually required to be maintained intact such as a permanent fund.

The lease portion of fund balance represents the year-end balance of the lease receivables in excess of the deferred inflow of resources for the lease receivables which is not a spendable resource.

Restricted Fund Balance - Includes amounts that can be spent only for specific purposes as stipulated by constraints imposed by either external creditors, grantors, laws or regulations of other governments or they are imposed by law through constitutional provisions or enabling legislation.

Committed Fund Balance - Includes amounts that can only be used for specific purposes pursuant to a formal action of the government's highest level of decision-making authority.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, continued:

Authority to Commit - Commitments for specific purposes require a formal action (resolution) of the City Council. A majority vote is required to approve or remove a commitment. Committed amounts cannot be used for any other purpose unless the City Council removes or changes the specified use by taking the same type of action (resolution).

Assigned Fund Balance - Includes amounts intended to be used by the City for a specific purpose but do not meet the criteria to be classified as restricted or committed. The intent should be expressed by the governing body itself or an official or committee that the governing body has delegated the authority to assign amounts to be used for specific purposes.

Authority to Assign - The City Council's fund balance policy has delegated to the City Manager and Director of Finance the authority to assign amounts to be used for specific purposes; however, before the assigned funds can be spent, such amounts, excluding appropriations related to encumbrances that are carried forward to the subsequent fiscal year, must be appropriated by City Council.

Unassigned Fund Balance - The residual classification for the General Fund. This category represents fund balance that has not been restricted, committed or assigned to specific purposes within the General Fund.

When an expenditure is incurred for purposes for which both restricted and unrestricted (committed, assigned, or unassigned) amounts are available, it shall be the policy of the City of Hampton to consider restricted amounts to have been spent first.

When an expenditure is incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used, it shall be the policy of the City that committed amounts would be reduced first, followed by assigned amounts and then unassigned amounts.

The general fund is the only fund that reports a positive unassigned fund balance amount. In other governmental funds it is not appropriate to report a positive unassigned fund balance amount. However, in governmental funds other than the general fund, if expenditures incurred for specific purposes exceed the amounts that are restricted, committed, or assigned to those purposes, it may be necessary to report a negative unassigned fund balance in that fund. The City will maintain a minimum unassigned fund balance in the General Fund equal to 10% of the total revenues for the General and School Operating Funds. To the extent the minimum unassigned fund balance falls below policy, the shortfall shall be replenished over a three-year period.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, continued:

A schedule of fund balances by specific purpose is provided below:

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, continued:

Net Position (deficit)-Enterprise Fund, Internal Service Funds and Component Units

The net position (deficit) at June 30, 2025 in the Enterprise and Component Unit Funds are as follows:

	Primary Government	Discretely Presented Component Units
Wastewater Management	\$ 65,567,007	\$ -
Museum	8,880,458	-
Hampton Roads Convention Center	25,239,613	-
Non-Major Enterprise:		
Hampton Coliseum	16,471,343	-
The Woodlands Golf Course	(809,647)	-
The Hamptons Golf Course	(4,828,598)	-
Solid Waste	7,270,602	-
Refuse-Steam Plant	3,256,075	-
Component Units:		
School Board	- (93,663,990)	(93,663,990)
Economic Development Authority	- 49,922,724	49,922,724
Coliseum Central Business Improvement District, Inc.	- 1,120,358	1,120,358
Downtown Hampton Development Partnership, Inc.	- 929,595	929,595

The deficits in The Hamptons Golf Course Fund and The Woodlands Golf Course Fund are primarily attributed to accumulated depreciation charges on capital assets and current year net operating losses. Net operating losses before depreciation are usually funded in the succeeding year by transfers from the General Fund.

The net position (deficit) in the Internal Service Funds are as follows:

Internal Service:

Equipment Replacement	\$ 32,728,196
Fleet Management	5,556,735
Risk Management	20,568,118
Information Technology	4,009,205

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the City's and School Board's retirement plans (Plans) and the addition to/deductions from the Plans' net fiduciary position have been determined on the same basis as they were reported by the VRS and Hampton Employees' Retirement System (HERS). For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, continued:

Group Life

The Group Life Insurance Program (GLI) is administered by the VRS. The GLI is a defined benefit plan that provides a basic group life insurance benefit for employees of the City and Component Unit School Board. For purposes of measuring the net GLI OPEB liability, deferred outflows of resources and deferred inflows of resources related to the GLI OPEB, and GLI OPEB expense, information about the fiduciary net position of the VRS GLI OPEB and the additions to/deductions from the VRS GLI OPEB's net fiduciary position have been determined on the same basis as they were reported by VRS. In addition, benefit payments are recognized when due and payable in accordance with the benefit terms.

Health Insurance Credit Program

The Health Insurance Credit Program (HIC) is administered by the VRS. The HIC is a defined benefit plan that provides a credit toward the cost of health insurance coverage for retired teachers. For purposes of measuring the net HIC OPEB liability, deferred outflows of resources and deferred inflows of resources related to the HIC OPEB, and the HIC OPEB expense, information about the fiduciary net position of the VRS HIC; and the additions to/deductions from the VRS HIC net fiduciary position have been determined on the same basis as they were reported by VRS. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms.

Compensated Absences

It is the City's policy to permit employees to accumulate a limited amount of earned but unused annual and sick leave benefits, which will be utilized in future periods or will be paid to employees upon separation from City service. In governmental fund types, the cost of annual and sick benefits is recognized when payments are made to employees. The current and long-term liability for accrued annual and sick leave benefits at June 30, 2025 has been reported in the government-wide statements, representing the City's commitment to fund such costs from future operations. Proprietary fund types accrue annual and sick leave benefits in the period they are earned. Such benefits are included in accounts payable and other liabilities in the government-wide statements.

Unearned Revenues

Revenues collected during the fiscal year that did not meet recognition criteria are treated as an unearned revenue liability. In total governmental funds reported an \$8.2 million unearned revenue liability, that largely results from American Rescue Plan Act (ARPA) funding received during fiscal years 2021 and 2022. The City received approximately \$48.66 million from the American Rescue Plan Act (ARPA) to defray governmental operating costs resulting from the COVID-19 pandemic. To date, the City has expended \$43,679,269 of the \$48,660,418 received from the American Rescue Plan Act. Total unearned revenue as a result of ARPA was \$4,981,149 as of June 30, 2025 and is reported in the Capital Projects Fund. The Grants Fund also reported a \$2.2 million unearned revenue that materially results from a State grant that will be used for to fund a construction project that is currently underway.

2. BASIS OF PRESENTATION - FUND ACCOUNTING:

The accounts of the City are organized on the basis of funds, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for by providing a separate set of self-balancing accounts, which comprise each fund's assets, liabilities, deferred inflows/outflows of resources, fund balance or net position, revenues and expenditures or expenses.

The following is a description of the funds included in the accompanying financial statements.

General Fund

The General Fund is the City's primary operating fund and accounts for all revenues and expenditures of the City, which are not accounted for in the other funds. Revenues are primarily derived from general property taxes, other local taxes, revenues from other governmental units and recovered costs. A significant part of the General Fund's revenue is transferred to other funds, principally to fund the operations of the City public schools and debt service requirements of the City. Expenditures include, among other things, those for general government, public safety, highways and streets, culture and recreation, health and human services.

Debt Service

The Debt Service Fund accounts for and reports financial resources that are restricted, committed or assigned to expenditure for principal and interest. Primary resources of the Debt Service Fund are derived from transfers from the General Fund and the proceeds from the issuance of refunding bonds.

Capital Projects Fund

The Capital Projects Fund accounts for all general City and School construction projects and reports financial resources that are restricted, committed or assigned to expenditure for capital outlays which are financed through general obligation debt and general operating funds, with the exception of projects related to Enterprise and Internal Service Funds.

Special Revenue Funds

Special revenue funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specific purposes other than debt service or capital projects.

The Federal Grants Fund accounts for revenues and expenditures of all federal, state and recovery act grants awarded to the City except the Community Development entitlement. The Federal Grants Fund also accounts for program income and matching requirements related to all awarded City grants. Federal grants received by the Component Unit - School Board are included in the discretely presented component unit.

The Community Development Fund accounts for revenues and expenditures related to entitlements received by the City under the Community Development Act of 1974, administered by the United States Department of Housing and Urban Development, to foster the development of the Healthy Neighborhoods Initiative. Other revenues include program income that is generated from repayments of loans, the sale of rehabilitated homes and the Revolving Loan Fund.

The Economic Development Fund was established to finance the costs of capital investments, improvements, expenditures and any other approved expenditure, which will assist economic development and improve the physical appearance of the City. Revenues are earned from land sales, special assessments, projects financed by the fund and rental receipts.

The Stormwater Management Fund accounts for revenues and expenditures related to maintaining the storm drainage system and the quality of our surface waters. Revenues are derived from a service charge levied on all developed property in the City.

2. BASIS OF PRESENTATION - FUND ACCOUNTING, continued:

The Pembroke Complex Fund accounts for the receipts and disbursements related to the operations of the Pembroke Community Service Center. The facility is owned by the Hampton Redevelopment and Housing Authority and maintained by the City from the rents charged to the various tenants of the building.

The Law Library Fund accounts for receipts and disbursements of funds specifically held for the purpose of purchasing law books. Revenues are derived from a court case fee, which is legally mandated to support the operations of the law library.

Enterprise Funds

Enterprise Funds, (Exhibit A-6, A-7 and A-8), are used to account for operations (a) that are financed and operated in a manner similar to private business enterprises where the intent of the governing body is that costs of operating and providing services to the general public are completely or partially financed from user fees; or (b) where the governing body has determined that the periodic determination of net results of operations is appropriate for management control and accountability.

The City's Enterprise Funds account for the operations of the Hampton Coliseum, The Woodlands Golf Course, The Hamptons (Golf Course), Solid Waste, the Virginia Air and Space Center (Museum), Convention Center, Wastewater Management, and the Refuse-Steam Plant. Revenues of the Hampton Coliseum, Woodlands Golf Course, The Hamptons, the Solid Waste Fund, the Refuse-Steam Plant Fund and the Wastewater Management Fund are derived primarily from user fees. The Convention Center Fund revenues are derived from user fees and meal and lodging taxes. The Museum's operating revenue is derived from donations and user fees, including federal funds from the National Aeronautics and Space Administration for educational/user fee subsidy.

Internal Service Funds

The Internal Service Funds account for the services provided to substantially all City departments or other governmental units on a cost-reimbursement basis. The City's internal service funds include Equipment Replacement, Fleet Services, Risk Management and Information Technology.

The Equipment Replacement Fund owns all on-road rolling stock of the City and leases the equipment to the various operating departments. Leasing income is used for replacement of the equipment. The Fleet Services Fund accounts for the operation of the City's central automotive maintenance service facility. The Risk Management Fund accounts for the costs of providing insurance coverage and certain self-insured liabilities of the City and the School Board. The Information Technology Fund accounts for the costs of providing the following services: personal computer support and telecommunications services.

Fiduciary Funds

Fiduciary Funds are used to account for assets held by the City in a trustee capacity or as an agent for individuals, private organizations and other governmental units. The Fiduciary Funds consist of the HERS Pension Trust Fund and Custodial Funds.

HERS pension trust fund (Exhibits A-9 and A-10) accounts for the revenues and expenditures related to the City-sponsored retirement plan, which is administered by a board of trustees appointed by City Council. The Custodial Funds account for amounts held by the City for others such as the Hampton Roads Criminal Justice Training Academy; the Hampton Roads Regional Jail Authority; the Hampton Sheriff's Office Inmate Funds; and the Hampton Roads Peninsula Drug Initiative.

3. IMPLEMENTATION OF NEW ACCOUNTING STANDARDS

Governmental Accounting Standards Board Statement No. 1101

For the fiscal year ended June 30, 2025, the City adopted GASB Statement 101, Compensated Absences. The primary objective of this statement is to create a more consistent model to address and update the recognition and measurement guidance of compensated absences. This standard applies to all earned leave that accumulates and carries forward and relates to services already rendered and for which the employee would receive some form of compensation. GASB 101 requires that compensated absences must be reported on an accrual basis and the expense should be matched with the period in which the employee earns the benefit, not when they are compensated.

4. BUDGETARY - GAAP REPORTING RECONCILIATION:

The City adopts an annual budget for the General Fund, but does not adopt an annual budget for any of the Special Revenue Funds except for the Stormwater Management Fund. Resources are provided for and appropriated individually throughout the year as they become available to the City. The Pearl Young Fund, a fund previously reported as a Special Revenue Fund, but now is reported as a part of the General Fund for GAAP purposes, does not have a legally adopted budget. Therefore, the Pearl Young Fund has not been included in Exhibit A-5 Statement of Revenues, Expenditures, and Changes in Fund Balance-Budget and Actual. Therefore, the General Fund budget basis is different from GAAP.

Effective July 1, 2021, the City implemented GASB Statement 87, Leases, which required the City as lessee to record an expenditure and other financing source in governmental funds in the period the lease is initially recognized. The City has not included those expenses and other financing sources in the General Fund's and the Stormwater Management Fund's legally adopted budget. Therefore, the budget on Exhibit A-5 and C-3 Statement of Revenues, Expenditures, and Changes in Fund Balance-Budget and Actual does not include capital outlay-leases expenditures and lease financing-other financing sources.

Reconciliation to the General Fund statements (GAAP):

Exhibit A-5 General Fund balances, June 30, 2025 (Budget basis)	\$ 168,669,450
Pearl Young Fund's fund balances	48,027
Capital Outlay- leases	(4,756,645)
Leasing financing	4,756,645
	<u><u>168,717,477</u></u>

Exhibit A-4 General Fund balances, June 30, 2025 (GAAP)

Reconciliation to the General Fund statements (GAAP):

Exhibit A-5 Total Actual Revenues, (Budget basis)	\$ 464,760,942
Pearl Young's revenues from use of money and property	2,191
	<u><u>464,763,133</u></u>

Leasing financing	4,756,645
	<u><u>\$ (86,994,240)</u></u>

5. DEPOSITS AND INVESTMENTS:

For purposes of reporting cash flows, cash and cash equivalents including demand deposits, certificates of deposit, money market funds and repurchase agreements.

Deposits

On June 30, 2025, the carrying value of the City's deposits was \$57,777,478 and the bank balance was \$39,281,555. All of the bank balances are covered by the Federal Deposit Insurance Corporation (FDIC) and secured in accordance with the Virginia Security for Public Deposits Act (the "Act") Section 2.2-4400 et. seq. of the Code of Virginia. Under the Act, banks and savings and loans holding public deposits in excess of the amount insured by the FDIC must pledge collateral to secure those public deposits in amounts set by regulations or action under the Treasury Board. Banks and savings and loans holding public deposits have two methods to secure Virginia public deposits: the dedicated method or the pooled method and depending upon that choice will pledge collateral that ranges in the amounts from 50% to 130% of their public deposit balances net of FDIC. The Commonwealth of Virginia Treasury Board is responsible for monitoring compliance with the collateralization and reporting requirements of the Act and notifying local officials of compliance by banks and savings and loans. All deposits are considered fully collateralized.

Investments

Statutes authorize the City to invest in obligations of the United States or agencies thereof, obligations of states and local governments, obligations of international development banks, "prime quality" commercial paper and certain corporate notes, repurchase agreements, certificates of deposit in United States banks, State Treasurer's Local Government Investment Pool (LGIP), and the State Non-Arbitrage Program (SNAP).

Investments for the City are primarily reported at fair value. The State Treasurer's LGIP operates in accordance with appropriate state laws and regulations. There are no restrictions on participant withdrawals for LGIP. The reported value of the pool is the same as the fair value of the pool shares.

The LGIP and SNAP are money market funds. The LGIP is reported at amortized cost and SNAP is reported at net asset value.

HERS Investments

Investments are stated at fair value except for short-term investments. These are reported at cost, which approximates fair value. The fair value of mutual funds traded on a national securities exchange is determined by using the last reported sales price on the last business day of the fiscal year; listed securities for which no sale was reported on that date are valued at the mean between the last reported bid and asked prices. The Bank of New York Mellon serves as custodian of HERS investments.

Investment Policy

The City's investment policy requires that all investments and investment practices meet or exceed all statutes and guidelines governing the investment of public funds in Virginia, including the Code of Virginia and the guidelines established by the State Treasury Board. State statutes limit investment in commercial paper to no more than 35% of the total portfolio, with not more than 5% per issuer. The City's investment policy addresses credit risk, custodial credit risk, interest rate risk, and concentration of risk, in which instruments are to be diversified and maturities timed in accordance with anticipated needs in order to minimize any exposure to fair value losses. The City's policy does not address foreign currency risk.

HERS Investment Policy

The Board of Trustees of the System has the full power to invest and reinvest the trust funds in accordance with Section 28-47 of the City Code, as amended. It requires the Board of Trustees to invest the assets with the care, skill, prudence and diligence under the circumstances then prevailing that a prudent person acting in a

5. DEPOSITS AND INVESTMENTS, continued:

like capacity and familiar with such matters would use in the conduct of an enterprise of a like character with like aims. In addition, the investments are required to be diversified so as to minimize the risk of losses under the circumstances it is clearly prudent not to do so. All investments shall be clearly marked to indicate ownership by the System. The HERS investments are held by the Bank of New York Mellon.

Credit Risk

The City's investment policy requires all bonds or notes of the Commonwealth of Virginia, states, or political subdivisions of any state of the U.S., or asset-backed securities have at least AAA ratings by two rating agencies, one of which must be Moody's Investor Services (Moody's) or Standard & Poor's (S&P). Repurchase agreements must be collateralized by Treasury or Agency obligations of which the market value is at least 102% of the purchase price of the security. Certificates of deposit of domestic banks must have at least two of the following ratings; A-1 rating by S&P, P-1 by Moody's or F-1 by Fitch Ratings for maturities less than 1 year, and with maturities exceeding one year and not exceeding five years, that have received at least two of the following ratings: AA by S&P, Aa by Moody's or AA by Fitch Ratings, Inc. Commercial paper must be rated "Prime Quality" with at least a P-1 rating by Moody's, A-1 rating by S&P, and F-1 by Fitch Ratings, Inc. Corporate notes with maturities of no more than five years that have received at least two of the following ratings: at least Aa by Moody's Investors Service Inc, at least AA by S&P, or AA by Fitch Ratings, Inc. The City also invested funds during the year with the State Treasurer's Local Government Investment pool, a 2a7 like pool, and the SNAP, both rated AAAm by S&P Global Ratings.

HERS Credit Risk

HERS manages its credit risk by limiting investments in domestic bonds to those rated investment grade or better.

HERS Concentration of Credit Risk

HERS manages its exposure to concentrations of credit risk by limiting investments in domestic bonds for a single Non U.S. Government security to no more than 5% of the Plan's total investments. With the exception of passively managed investment vehicles seeking to match the returns of a broadly diversified market index, no single investment pool or mutual fund shall comprise more than 20% of the Plan's total investments.

U. S. Government Securities

The City invested in U. S. Government Securities which consisted of U.S Treasury Notes, Supra-National Agency Notes, Municipal Bonds, FHLB and FHLMC. U. S. Government Securities are subject to interest rate risk.

Custodial Credit Risk

All securities purchased for the City shall be held by the City or by the City's designated third party custodian. Securities are only purchased from brokerage firms/institutions that are under the Commonwealth of Virginia's supervision and located in the Commonwealth of Virginia.

HERS Custodial Credit Risk

HERS limits its exposure to custodial credit risk by maintaining its investments in custodial accounts. Securities that exist in book entry form are held in trust by the custodian in the name of the Plan.

Interest Rate Risk

As a means of limiting exposure to fair value losses arising from rising interest rates, the City manages the investment maturities of operating funds to coincide with the City's projected cash flow needs. Bond proceeds are invested in compliance with the specific requirements of the bond covenants.

5. DEPOSITS AND INVESTMENTS, continued:

The City limits U.S. Treasury securities, U.S. Agency securities, and corporate notes to maturities of less than five years; bankers' acceptances to maturities of less than 180 days; and commercial paper to maturities of less than 270 days.

HERS Interest Rate Risk

HERS does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. Interest rate risk is monitored by measuring the weighted average duration of the portfolio.

As of June 30, 2025, the City had the following investments and maturities:

PRIMARY GOVERNMENT:	Fair Value	Actual Credit Rating	Investment Maturities (in years)	
			Less than 1 year	1-5 years

GAAP requires the City to use valuation techniques which are appropriate under the circumstances and are either a market approach, a cost approach or an income approach. GAAP establishes a hierarchy of inputs used to measure fair value consisting of three levels. Level 1 inputs are quoted prices for identical assets or liabilities in active markets. Level 2 inputs are inputs, other than quoted prices included within Level 1 that are observable for an asset or liability, either directly or indirectly. Level 3 inputs are unobservable inputs for asset or liability.

Fair Value Hierarchy

The City categorizes its fair value measurements within the fair value hierarchy established by GAAP. City investments are classified in Level 2 of the fair market value hierarchy and are valued using matrix pricing techniques maintained by various pricing vendors. Matrix pricing is used to value securities based on the securities' relationship to the benchmark quoted prices. Fair value is defined as the quoted market value on the last trading day of the period. These prices are obtained from various pricing sources by our custodian bank. Investments in money market funds and pension plan investments are classified in Level 1 of the fair value hierarchy. Level 1 inputs are quoted prices in active markets for identical assets.

The remaining investments, measured in accordance with GAAP and at amortized cost, totaled \$449.4 million at June 30, 2025.

5. DEPOSITS AND INVESTMENTS, continued:

The following is a summary of the fair value hierarchy for investments of the City as of June 30, 2025:

	June 30, 2025	Fair Value Measurements Using		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

7. LEASES AND SUBSCRIPTION-BASED IT ARRANGEMENTS

A lease is defined as a contractual agreement that conveys control of the right to use another entity's nonfinancial asset, such as building, land or equipment, for a minimum contractual period of greater than one year. A subscription- based IT arrangement (SBITA) is an arrangement in which a government contracts with another party, to convey the right to use the SBITA vendor's IT software, either alone or in combination with tangible capital assets. The City has agreements in which it allows another entity to control the right to use City owned assets (lessor) and agreements in which the City has been granted the right to control another entity's assets (lessee or subscription).

In a lessor arrangement, the City recognizes a lease receivable, deferred inflows, and lease revenue in the government- wide and fund financial statements for the applicable governmental and business-type activities. Lessor receivables are initially measured at the present value of payments expected to be received during the lease term. Subsequently, the lease receivable is reduced by the principal portion of lease payments received.

In lessee and subscription arrangements, the City recognizes a lease or subscription liability and an intangible right of use (ROU) asset in the government-wide financial statements for the applicable governmental, business-type activities and component unit columns in the government-wide financial statements and in the proprietary funds financial statements. ROU assets are reported with other capital assets and the lease and subscription liabilities are reported as such on the statement of net position.

At the commencement of a lease or subscription, the City measures the liability at the present value of payments expected to be made during the term. Subsequently, the liability is reduced by the principal portion of payments made. The City's lease and subscription payments are discounted using the interest rate charged by the lessor or SBITA vendor as the discount rate. When the interest rate charged by the lessor or SBITA vendor is not provided, the City generally uses its estimated incremental borrowing rate as the interest rate. The City's incremental borrowing rate is the rate that the City would have to pay to borrow the funds necessary to obtain an asset of similar value to the right of use asset in a similar economic environment with similar terms, security and conditions.

The lease and subscription terms include the non-cancellable contract period. Payments included in the measurement of the lease and subscription liability are composed of fixed payments, extensions payments; and, purchase option price that the City is reasonably certain to exercise. In determining the term, management considers all facts and circumstances that create an economic incentive to exercise an extension option, or not exercise a termination option. Extension options (or periods after termination options) are only included in the term if the lease or subscription is reasonably certain to be extended (or not terminated). The City monitors changes in circumstances that would require a remeasurement and will remeasure the lease asset and corresponding lease or subscription liability if certain changes occur that are expected to significantly affect the amount of the liability.

City as a Lessor

The City as the lessor, has entered into lease agreements for land, building space, billboards, cell tower and a golf driving range. One of the land leases is leased from a lessee and then subleased to a third-party. The leases' terms range from 4 to 15 years with discount rates ranging from 0.67%-3.68%. The total amount of inflows of resources, including lease revenue, interest revenue, and other lease-related inflows, recognized during the fiscal year was \$163,056. As of June 30, 2025, the total lease receivable and deferred inflows of resources for the lease balances were \$531,130 and \$557,420, respectively. These totals include a building lease with a component unit, Downtown Hampton Development Partnership, Inc. which was renewed in December 2024 for 60 months at a discount rate of 3.48%.

City as a Lessee

The City as a lessee has entered in lease agreements primarily for office space, postage machines, copier machines, and traffic control equipment. The City generally includes renewal periods in the lease terms when it is reasonably certain the renewal option will be exercised. The City's lease arrangements do not contain any

7. LEASES AND SUBSCRIPTION-BASED IT ARRANGEMENTS, continued:

material residual value guarantees. Variable payments are not included in the measure of the lease liability.

The City is a lessee for building office space leases with initial terms range from 2 to 20 years. Three leases are payable annually, two of which increase 3% each year; the majority of the leases are payable monthly with annual increases of 3% with the exception of three agreements. The City's incremental borrowing rate ranges from 0.67%-4.06% for these agreements. Some office space leases include variable payments, such as the City's proportionate share of the building's property taxes, insurance and common area maintenance which are not included in the liability calculations.

The machine and equipment leasing agreement includes postage machines, copiers and traffic control equipment. The postage machines leases are paid on a quarterly basis with no annual increases. The initial lease terms range from 3 to 5 years. The interest rate ranges from 0.67 - 3.78%. The City has elected to separate lease and non-lease components, such as maintenance services provided by the lessor.

The lease terms for the copier agreements range from 3 and 4 years. These leases are paid on a monthly basis with no annual increases. The interest rate ranges from 0.41%-3.94%. For the copier leases, the City has elected to separate lease and non-lease components, such as the maintenance services. The lessor provides a maintenance service at a fixed cost and these costs are not included in the fixed lease payments. The City's lease arrangements do not contain any material residual value guarantees.

The City has two leasing agreements for golf carts with remaining terms of 35 months and a discount rate of 2.63% and 3.63%. Additionally, the City entered into a five year lease agreement for traffic control equipment. The discount rate ranges from 2.93%-3.36%. The lessor charges a fixed software maintenance cost per machine. These costs are not included in the fixed lease payments.

The City recognizes a lease payable for principal in the government-wide for the primary government, business-type funds and component units. As of June 30, 2025, the City's total of the lease liability for principal is \$17,194,754, of which \$14,417 is internal service fund related. For fiscal year 2025, the City recognized a total of \$2,257,259 in principal and \$492,114 in interest charges for the governmental funds. The principal and interest charges for the Internal Service Funds were \$9,594 and \$708, respectively. For the business-type funds, the principal and interest charges were \$172,685 and \$10,003, respectively.

The future principal and interest lease payments as of June 30 are as follows:

Fiscal Year	City Future Lease Payments			
	Governmental Activities		Business-type Activities	
	Principal	Interest	Principal	Interest
2026	\$ 2,370,903	\$ 498,923	\$ 171,129	\$ 4,767
2027	2,092,017	434,103	46,334	514
2028	1,896,104	377,627	1,677	86
2029	1,743,117	320,930	—	—
2030-2045	8,873,473	2,214,792	—	—
	<u>\$ 16,975,614</u>	<u>\$ 3,846,375</u>	<u>\$ 219,140</u>	<u>\$ 5,367</u>

City Subscriptions

The City has one SBITA agreement for software. The agreement began in fiscal year 2023 and will extend three years, with two options to renew. The City is reasonably certain that renewal options will be exercised; the contract is considered a 5-year term. The SBITA has been recorded at the present value of the future contract payments as of the date of their inception. Payments are made annually and include a 5 percent increase each year. The interest rate is 2.5%. The City had no other payments, such as termination penalties, not previously included in the measurement of the subscription liability. The City had no commitments under SBITA before the commencement of the subscription term or any losses associated with an impairment.

7. LEASES AND SUBSCRIPTION-BASED IT ARRANGEMENTS, continued:

For fiscal year 2025, the City recognized \$34,942 in subscription principal paid and \$2,809 in interest. As of June 30, 2025, the City's total subscription-based asset liability was \$77,246.

The future principal and interest SBITA payments as of June 30 are as follows:

Fiscal Year	City Future Subscription Payments	
	Internal Service Funds	
	Principal	Interest
2026	\$ 37,897	\$ 1,931
2027	39,117	984
2028	232	6
	<u>\$ 77,246</u>	<u>\$ 2,921</u>

Discretely Presented Component Units

Economic Development Authority as a Lessor

The Economic Development Authority (EDA) has entered into lease agreements for buildings, building space and land. The leases' terms range from 7 to 15 years and discount rates ranging from 1.57%-2.95%. The total amounts of deferred inflows of resources, including lease revenue and interest revenue recognized during the fiscal year were \$541,154. As of June 30, 2025, the total lease receivable and deferred inflows of resources for lease balances for EDA were \$3,577,666 and \$3,495,472, respectively. These totals include a building lease from the primary government at a discount rate of 1.57% and five remaining years.

School Board as a Lessor

As of June 30, 2025, as lessor the School Board leases buildings, building space, and land. These lease receipts are received monthly and annually with no variable receipts and range from \$4,800 to \$52,202. The School uses its incremental borrowing rate of 0.8930% to 3.350%. The remaining terms for all agreements range from 7.5 to 23.58 years with monthly and annual increases ranging from 3% to 3%.

For fiscal year 2025, the School Board recognized \$354,608 in lease revenue and \$65,987 in interest revenue from these existing leases. As of June 30, 2025, the School Board's total lease receivables balance is \$4,498,477. In addition, the School Board has deferred inflows of resources associated with these leases that will be recognized as revenue over the remaining lease terms of \$4,225,381.

School Board as a Lessee

The School Board entered into various lease agreements as the lessee primarily for copier rentals, postage machines, and vehicle location tracker agreements. The School Board generally includes renewal periods in the lease terms when it is reasonably certain the renewal option will be exercised. If the interest rate implicit in the School Board's leases is not readily determinable, the School Board utilizes its incremental borrowing rate to discount the lease payments. The School Board's lease arrangements do not contain any material residual value guarantees.

The School Board has fourteen active leases. The lease have payments that range from \$2,245 to \$242,464 and interest rate that range from 0.727% to 3.050%. The remaining lease terms ranges from 0.01 to 4.58 years. These copier leases are paid on a monthly basis with no annual increases. The School Board has elected not to separate lease and non-lease components. Maintenance services provided by the lessor at a fixed cost are included in the fixed lease payments.

The School Board has one existing contract for a vehicle location tracker with a remaining lease term of 0.5 years. This lease is paid on a monthly basis with no annual increase. The discount rate is 1.06%. The School

7. LEASES AND SUBSCRIPTION-BASED IT ARRANGEMENTS, continued:

Board has elected not to separate lease and non-lease components. Maintenance services provided by the lessor at a fixed cost are included in the fixed lease payments.

For fiscal year 2025, the School Board recognized \$439,063 in lease principal paid and \$12,379 in interest from all leases. As of June 30, 2025, the School Board's total lease liability was \$429,688.

The future principal and interest lease payments as of June 30 are as follows:

Fiscal Year	School Board Future Leases Payments	
	Principal	Interest
2026	\$ 194,181	\$ 8,465
2027	116,686	4,112
2028	47,379	2,203
2029	37,170	1,014
2030	34,272	172
	<u>\$ 429,688</u>	<u>\$ 15,966</u>

School Board Subscriptions

The School Board has entered into SBITAs for finance, reporting, and learning software for a period of 1 to 5 years and an incremental borrowing rate of 2.194% to 2.685%. The Subscription based leases have been recorded at the present value of the future contract payments as of the date of their inception or, for SBITAs existing prior to the implementation year at the remaining terms of the agreement, using the facts and circumstances available.

For fiscal year 2025, the School Board recognized \$1,919,560 in lease principal paid and \$5,833 in interest from all subscription-based assets. As of June 30, 2025, the School Board's total SBITA liability is \$157,332.

The future principal and interest SBITA payments as of June 30 are as follows:

Fiscal Year	School Board Subscriptions	
	Principal	Interest
2026	\$ 82,509	\$ 4,223
2027	74,823	2,010
	<u>\$ 157,332</u>	<u>\$ 6,233</u>

Coliseum Central Business Improvement District, Inc. as Lessee

The District has leases for both office space and equipment. The remaining lease terms are 1 to 2 years, some of which include an option to extend the lease for up to four years. The average remaining discount rates range is 1.3-1.9%. For fiscal year 2025, the District recognized \$80,869 in lease principal paid and \$5,725 in interest from the leases. As of June 30, 2025, the total lease liability is \$154,997.

The future principal and interest lease payments as of June 30 are as follows:

Fiscal Year	Coliseum Central Future Lease Payments	
	Principal	Interest
2026	\$ 81,310	\$ 2,195
2027	73,687	1,988
	<u>\$ 154,997</u>	<u>\$ 4,183</u>

7. LEASES AND SUBSCRIPTION-BASED IT ARRANGEMENTS, continued:

Downtown Hampton Development Partnership, Inc. as Lessee

In December 2024, the organization has entered into a new lease agreement with the City for office space under a 60 month term which expires November 2029. Payments are made monthly with a discount rate of 4.23%. For fiscal year 2025, the District recognized \$11,327 in lease principal paid and \$1,210 in interest from leases. As of June 30, 2025, the total lease liability was \$50,548.

The future principal and interest lease payments as of June 30 are as follows:

Fiscal Year	Downtown Hampton Development Partnership Future Leases Payments	
	Principal	Interest
2026	\$ 10,620	\$ 1,970
2027	11,297	1,503
2028	11,785	1,015
2029	11,567	1,443
2030	5,279	54
	<u>\$ 50,548</u>	<u>\$ 5,985</u>

8. INTERFUND BALANCES:

Activities between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either “due to/from other funds” or “advances to/from other funds” in the fund statements or as “internal balances” in the Statement of Net Position. All residual balances outstanding between governmental activities and business-type activities are reported in the government-wide financial statements as “internal balances.”

The due from reflected in the General Fund in the amount of \$21,254,695 is primarily to cover negative cash balances for several funds. The \$12,133,316 balance due to the Capital Projects Fund will cover the cost of ongoing road maintenance and other capital projects. All remaining balances resulted from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur and (2) payments between the funds are made.

PRIMARY GOVERNMENT:	Due From	Due To
General Fund	\$ 21,254,695	\$ 21,694,248
Federal Grants	14,975	25
Capital Projects	21,692,500	12,133,316
Non-Major Governmental Funds	—	302,000

PROPRIETARY FUNDS:		
Museum	—	749,000
Non-Major Enterprise Funds	—	8,083,906
Internal Service Funds	325	—
Total Primary Government	<u>\$ 42,962,495</u>	<u>\$ 42,962,495</u>

8. INTERFUND BALANCES, continued:

Receivable and payable balances between the Primary Government and component units are as follows:

	Due From Primary Government	Due To Component Unit	Due From Component Unit	Due To Primary Government
Primary Government - General Fund	\$ -	\$ 40,000	\$ 15,430	\$ -
Primary Government - Non-major Enterprise Funds	-	-	17,217	-
Primary Government - Internal Service Funds	-	-	165,250	-
Component Unit - School Board	40,000	-	-	197,897
Component Unit - Economic Development Authority Fund	-	-	-	-
Total	<u>\$ 40,000</u>	<u>\$ 40,000</u>	<u>\$ 197,897</u>	<u>\$ 197,897</u>

Individual fund interfund transfers for the Primary Government were made for operating as well as capital purposes. The more significant transfers were made from the General Fund for the purposes of funding debt service, various capital projects and operating support to the Enterprise Funds. Interfund transfers for the year ended June 30, 2025 are as follows:

PRIMARY GOVERNMENT:	Transfer In	Transfer Out
General Fund	\$ 234,663	\$ 91,985,548
Special Revenue:		
Federal Grants	3,381,647	23,815
Economic Development	49,613	-
Debt Service	30,910,780	-
Capital Projects	49,678,466	760,864
Non-Major Governmental Funds	2,165	4,068,303
Proprietary Funds:		
Wastewater Management		113,292
Convention Center	9,574,685	-
Non-Major Enterprise Funds	2,879,508	-
Internal Service Funds	240,294	-
Total Primary Government	<u>\$ 96,951,822</u>	<u>\$ 96,951,822</u>

Related party transactions between the Primary Government and component units are as follows:

	Payments From Primary Government	Payments To Component Unit	Payments From Component Unit	Payments To Primary Government
Primary Government - General Fund	\$ -	\$ 97,563,704	\$ 2,882,000	\$ -
Primary Government - Economic Development Fund	-	665,715	-	-
Primary Government - Capital Projects Fund	-	2,981,538	-	-
Component Unit - School Board	95,000,573	-	-	2,867,000

9. CAPITAL ASSETS, continued:**Construction in Progress**

Several capital projects were in various stages of completion on June 30, 2025. In accordance with the City's accounting policies and practices, these projects will remain in construction in progress until completion, at which time they will be transferred into the various capital asset accounts in the government-wide statements, Enterprise Fund and Discretely Presented Component Units. At June 30, 2025, construction in progress by project was comprised as follows:

	Project Authorization	Expended to June 30, 2025
GOVERNMENTAL ACTIVITIES		
Infrastructure	\$ 55,691,159	\$ 24,725,759
Construction of various capital assets	33,575,248	24,177,116
	89,266,407	48,902,875

Long-term liabilities applicable to the City's governmental activities are not due and payable in the current period and accordingly are not reported as fund liabilities in the governmental funds. Interest on long-term debt is not accrued in governmental funds, but is recognized as an expenditure when due.

BALANCES AT JUNE 30, 2025

Long-term liabilities (detail above)	\$ 582,469,697
Less debt - Internal Service Fund	(29,054,591)
Combined adjustment	<u>\$ 553,415,106</u>

Section 148 of the Internal Revenue Code of 1986 requires public entities to refund interest earned in excess of interest paid over the first five years outstanding on tax exempt borrowings. The regulations are applicable to borrowings incurred subsequent to August 1986. The City has calculated the rebate due as of June 30, 2025 and reflected the liability, if any, in the governmental activities column of the Statement of Net Position.

The funds used to liquidate the net OPEB obligations and net pension liabilities include the General Fund, the Risk Management Fund, the Fleet Services Fund and the Information Technology Fund.

Enterprise Funds

On November 20, 2019, the City issued \$66,150,000 in Convention Center Refunding Direct Placement Revenue Bonds, Series 2019C with interest ranging from 1.952% to 3.097%. The proceeds of the bonds were used to refund \$33,750,000 of the City's Convention Center Direct Placement Revenues Bonds, Series 2012A and \$28,065,000 of the City's Convention Center Revenue Bonds, Series 2011A.

On June 13, 2012, the City issued \$33,750,000 in Convention Center Refunding Direct Placement Revenue Bonds, Series 2012A with interest ranging from 4.826% to 5.125%. The proceeds of the bonds were used to refund a portion of the City's Convention Center Direct Placement Revenue Bonds, Series 2002.

10. GENERAL OBLIGATION AND OTHER LONG-TERM DEBT, continued:

On June 2, 2011 the City issued \$52,460,000 in Convention Center Refunding Direct Placement Revenue Bonds, Series 2011 with interest ranging from 2.922% to 5.125%. The proceeds of the bonds were used to refund a portion of the City's Convention Center Direct Placement Revenue Bonds, Series 2002.

Convention Center Direct Placement Revenue Bonds (Bonds) in the amount of \$106,305,000 were issued November 1, 2002 with interest ranging from 3.50% to 5.25%. The proceeds of the Bonds were used to finance the cost of the construction of a convention center, to retire a \$7,585,000 Revenue Bond Anticipation Note issued in connection with the project and to pay interest on the Series 2002 Bonds. The bonds are payable solely from and collateralized by, revenues derived by the City from ownership and operation of the project.

According to the indenture, if an event of default occurs and is continuing, the Trustee may, and if requested by the holders of 25% in aggregate principal amounts of direct placement revenue bonds then outstanding shall, by notice to the City, declare the entire unpaid principal and interest on the bonds due and payable.

In prior years, the City defeased certain revenue bonds by placing the proceeds of the new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and liabilities for the defeased bonds are not included in the City's financial statements. On June 30, 2025, \$46,990,000 defeased bonds were outstanding.

Direct placement revenue bond debt service requirements to maturity are as follows:

Fiscal Year Ending June 30	Principal	Interest
2026	\$ 4,530,000	\$ 1,379,990
2027	4,640,000	1,268,862
2028	4,755,000	1,150,757
2029	4,880,000	1,024,608
2030	5,065,000	890,643
2031-2035	27,635,000	2,142,534
	<u>\$ 51,505,000</u>	<u>\$ 7,857,394</u>

In April 2005, the City issued \$53,210,000 in General Obligation Public Improvement Bonds, Series 2005A with interest ranging from 3.00% to 5.00%. The Refuse-Steam Plant used \$2,000,000 of the bond proceeds to finance the mandated replacement of the air pollution retrofit.

On April 1, 2002, the City issued \$30,155,000 in General Obligation Public Improvement Bonds, Series 2002 with interest ranging from 4.25% to 5.00%. The Refuse-Steam Plant used \$5,000,000 of the bond proceeds to finance an air pollution control system.

All of these general obligation bonds are expected to be repaid from the resources of the Refuse-Steam Plant Fund; therefore, the bonds are accounted for in this fund.

Debt service on the foregoing debt is payable during future fiscal years ending June 30 as follows:

General Obligation Bonds		
Year	Principal	Interest
2026	\$ 152,508	\$ 7,053
	<u>\$ 152,508</u>	<u>\$ 7,053</u>

10. GENERAL OBLIGATION AND OTHER LONG-TERM DEBT, continued:

Discretely Presented Component Unit-EDA:

On May 29, 2020, the EDA entered into a note payable with Old Point National Bank to purchase the Phoebus Library building. The interest rate on the note is 2%. Under the terms of the agreement, the EDA will receive rent from the City to cover the debt service payments for the note.

Debt service on the foregoing debt during future years is as follows:

Notes Payable			
Year	Principal	Interest	
2026	\$ 83,264	\$ 8,791	
2027	84,952	7,103	
2028	86,675	5,380	
2029	88,422	3,632	
2030	90,225	1,830	
	<u>\$ 433,538</u>	<u>\$ 26,736</u>	

Internal Service Funds:

The City is self-insured for workmens' compensation benefits and general liability insurance claims. At June 30, 2025, the liability for existing claims amounted to \$13,461,939. Workers' compensation benefit claims are payable weekly or monthly through 2035.

Equipment Replacement Fund

On August 30, 2019, the City entered into an equipment purchase agreement notes payable for \$1,378,000 with Key Government Finance, Inc. to purchase two fire trucks. The notes payable is payable quarterly with an interest rate of 2.015% and matures October 15, 2026. As of June 30, 2025, the outstanding balance on the notes payable is \$307,000.

On March 30, 2022, the City entered into an equipment purchase agreement notes payable for \$2,858,000 with Banc of America Public Capital Corp. to purchase three new fire trucks. The notes payable is payable semi-annually on March 1 and September 1 with an interest rate of 1.9839% and matures March 1, 2032. At June 30, 2025, the outstanding balance on the notes payable is \$2,056,000.

On March 30, 2023, the City entered into an equipment purchase agreement notes payable for \$2,859,921 with Banc of America Public Capital Corp. to purchase two new fire trucks. The notes payable is payable semi-annually on March 1 and September 1 with an interest rate of 3.4927% and matures March 1, 2033. At June 30, 2025 the outstanding balance on the notes payable is \$2,357,759.

On June 27, 2024, the City entered into an equipment lease purchase agreement for \$5,731,340 with Banc of America Public Capital Corp. to purchase three new fire trucks. The lease is payable semi-annually on December 1 and June 1 with an interest rate of 4.1574% and matures June 1, 2034. At June 30, 2025 the outstanding balance on the lease is \$5,242,927.

On January 30, 2025, the City entered into an equipment lease purchase agreement for \$3,842,093 with Banc of America Public Capital Corp. to purchase three new fire trucks. The lease is payable semi-annually on January 15 and July 15 with an interest rate of 4.0976% and matures January 15, 2035. At June 30, 2025 the outstanding balance on the lease is \$3,842,093.

10. GENERAL OBLIGATION AND OTHER LONG-TERM DEBT, continued:

Debt service on the foregoing debt payable during fiscal years ending June 30 is as follows:

Risk Management Fund		Equipment Replacement Fund

2030	16,910,000	6,106,588
2031-2035	85,115,000	20,747,108
2036-2040	67,610,000	9,046,511
2041-2043	27,425,000	1,156,843
	<u>\$ 275,682,492</u>	<u>\$ 69,322,486</u>

On March 31, 2022, the City used \$25,000,000 in cash on hand to defease portions of the outstanding General Obligation Public Improvement Bonds, Series 2015A and the General Obligation Public Improvement Refunding Bonds, Series 2015B. Obligations of the United States Government and cash in the amount of \$24,922,271 (net of issuance costs of \$77,729) were deposited with Regions Bank, Richmond, Virginia (Escrow Agent), under an escrow deposit agreement dated as of March 31, 2022. The government obligations will mature and bear interest at times and in amounts sufficient to pay debt service requirements on the defeased bonds until their redemption date.

On February 15, 2022, the City issued \$115,615,000 General Obligation Public Improvement Bonds, Series 2022A with interest rates ranging from 2.0% to 5.0% and \$25,875,000 General Obligation Public Improvement Refunding Bonds, Series 2022B (Taxable) with interest rates ranging from 1.2% to 2.4%. The proceeds of the Series 2022A Bonds are being used to fund various capital projects in the City and to pay costs of issuing the Series 2022A bonds. The proceeds of the Series 2022B Bonds are being used to advance refund portions of the City's Series 2015A General Obligation Public Improvement Bonds. Interest on the Bonds is due and payable semi-annually on each March 1 and September 1.

10. GENERAL OBLIGATION AND OTHER LONG-TERM DEBT, continued:

The net proceeds from the 2022B refunding bonds, and a \$350,000 of City local funds, of \$26,130,331 (net of underwriter's discount and issuance costs of \$98,073) were deposited with Regions Bank, Richmond, Virginia (Trustee), under a refunding trust agreement dated as of February 15, 2022. The Trustee used such proceeds to purchase direct, non-callable obligations of U.S. Treasury including state and local government series (collectively, government obligations). The government obligations will mature and bear interest at times and in amounts sufficient to pay debt service requirements on the refunded bonds until their redemption date.

On December 2, 2020, the City issued \$10,725,000 General Obligation Public Improvement Bonds, Series 2020A (Tax- Exempt Environmental Impact Bonds) with interest rates ranging from 0.200% to 2.160% and \$16,895,000 General Obligation Public Improvement and Refunding Bonds, Series 2020B (Taxable) with interest rates ranging from 0.327% to 1.896%. The proceeds of the Series 2020A Bonds are being used to fund various stormwater management projects in the City and to pay costs of issuing the Series 2020A bonds. The proceeds of the Series 2020B Bonds are being used to advance refund portions of the City's Series 2013 General Obligation Public Improvement Bonds. Interest on the Bonds is due and payable semi-annually on each March 1 and September 1.

On October 8, 2019, the City issued \$54,000,000 General Obligation Public Improvement Bonds, Series 2019A with interest rates ranging from 1.29% to 2.85% and \$21,355,000 General Obligation Public Improvement and Refunding Bonds, Series 2019B (Taxable) with interest rates ranging from 1.95% to 2.95%. The proceeds of the Series 2019A Bonds are being used to fund various public improvement projects in the City and to pay costs of issuing the Series 2019A Bonds. The proceeds of the Series 2019B Bonds were used to advance refund portions of the City's Series 2012A General Obligation Public Improvement Refunding Bonds and the remaining balance will be used for a strategic land acquisition. Interest on the Bonds is due and payable semi-annually on each March 1 and September 1.

On April 29, 2019, the City issued \$22,991,000 in General Obligation Public Improvement Refunding Bond, Series 2019 to Bank of America, N.A pursuant to a Bond Purchase and Loan Agreement to evidence a loan from the bank to the City. The bond matures on January 15, 2022, bears interest at the rate of 2.36%, payable semi-annually on January 15 and July 15. The interest rate is subject to adjustment upon the occurrence of an Event of Default and upon the occurrence of a Determination of Taxability on the terms set forth in the Bond and in the Agreement. Principal installments are payable on January 15, 2020, January 15, 2021 and at maturity on January 15, 2022. The bond is pre-payable at the election of the City at any time, subject to a make-whole pre-payment requirement. Payment of principal and interest on the bond is a general obligation of the City secured by its full faith and credit. The bond is issued to refund for debt service savings the outstanding principal amount, \$22,625,000, of the City's General Obligation Public Improvement and Refunding Bonds, Series 2010A (Tax-exempt), maturing January 15, 2022. The Series 2010A (Tax-exempt) Bonds were redeemed on April 30, 2019.

On June 27, 2018, the City issued \$46,070,000 in General Obligation Public Improvement Bonds, Series 2018A with interest rates ranging from 3.25% to 5.0% and \$9,185,000 in General Obligation Public Improvement Refunding Bonds, Series 2018B (Taxable) with interest rates ranging from 3.45% to 4.0%. The Series 2018B Bonds were issued to redeem on their date of issuance the City's \$9,250,000 General Obligation Bond Anticipation Note, Series 2017 issued on October 31, 2017. Interest on the Bonds is due and payable semi-annually each March 1 and September 1.

On October 31, 2017, the City issued its \$9,250,000 General Obligation Bond Anticipation Note, Series 2017 (the "BAN") to Branch Banking and Trust Company to evidence a loan from the bank to the City. The BAN matured on October 1, 2018, bears interest at the rate of 2.07%, payable semi-annually on April 1 and October 1, and is subject to optional prepayment in whole at the election of the City at any time on and after January 1, 2018 in an amount equal to the principal amount thereof plus accrued and unpaid interest to the prepayment date. The BAN is issued in anticipation of the issuance of long-term bonds by the City, the proceeds of which will be used to refund and redeem the BAN and fund other public improvement projects. The BAN is a general obligation of the City secured by its full faith and credit and taxing power.

10. GENERAL OBLIGATION AND OTHER LONG-TERM DEBT, continued:

On April 23, 2015, the City issued \$46,770,000 in General Obligation Public Improvement Bonds, Series 2015A with interest rates ranging from 3.5% to 5.0% and \$56,250,000 in General Obligation Public Improvement Refunding Bonds, Series 2015B with an interest rate of 5.0%. The proceeds of the 2015B Bonds were used to refund portions of the City's Series 2007 General Obligation Bonds in the amount of \$63,320,000 and the remaining balance will be used to finance the cost of general capital improvement projects of the City. Interest on the Bonds is due and payable semi-annually on each March 1 and September 1.

On April 24, 2013, the City issued \$38,865,000 in General Obligation Public Improvement Bonds, Series 2013 with interest ranging from 2% to 5%. The proceeds of the bonds will be used to finance the cost of general capital improvements of the City, including construction of a new courthouse.

On June 20, 2012, the City issued \$26,390,000 in General Obligation Public Improvement Refunding Bonds, Series 2012A (Tax- Exempt) and \$18,380,000 General Obligation Public Improvement Refunding Bonds, Series 2012B (Taxable) with interest rates ranging from .51% to 5%. The proceeds of the bonds were used to refund portions of the City's Series 2002, 2002A, 2004 and 2005A General Obligation Bonds.

On July 8, 2010, the City issued \$2,545,000 in General Obligation Virginia Public School Authority Qualified School Construction Bonds, Series 2010C with interest payable at the rate of 5.31% per annum. The proceeds of the bonds were used to pay for the cost of lighting upgrades in the City schools.

On March 3, 2010, the City issued \$65,595,000 in General Obligation Public Improvement and Refunding Bonds, Series 2010A with interest ranging from 2% to 5% and \$7,190,000 in General Obligation Public Improvement Direct Pay Build America and Recovery Zone Economic Development Bonds, Series 2010B with interest ranging from 4.34% to 5.63%. The proceeds of the bonds were used to refund portions of the City's Series 1998, 2002, 2002A, 2005A, and 2007 General Obligation Bonds and the remaining balance will be used to finance the cost of general capital improvement projects of the City.

On October 25, 2007, the City issued \$145,815,000 in General Obligation Public Improvement and Refunding Bonds, Series 2008 with interest ranging from 4% to 5%. The proceeds of the bonds were used to refund bond anticipation notes issued by the City in April 2007 in the amount of \$29,540,000 and the remaining balance will be used to finance the cost of general capital improvement projects of the City.

On April 6, 2005, the City issued \$53,210,000 in General Obligation Public Improvement Bonds, Series 2005A with interest ranging from 3% to 5% and \$10,000,000 in Taxable General Obligation Public Improvement Bonds, Series 2005B with an interest rate of 5.04%. The proceeds of the Bonds will be used to finance capital improvements in the City.

On August 20, 2004, the City issued \$29,630,000 in General Obligation Public Improvement Refunding Bonds, Series 2004 with interest ranging from 2% to 5%.

The City's outstanding general obligation bonds and direct placement general obligation bonds contain a provision that in the event of default, amounts outstanding become immediately due if the City is unable to make payment.

In prior years, the City defeased certain general obligation bonds by placing the proceeds of the new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and liabilities for the defeased bonds are not included in the City's financial statements. On June 30, 2025, \$37,955,0000 defeased bonds were outstanding.

On June 4, 2025, the City of Hampton, Virginia issued its General Obligation Literary Fund Temporary Note to evidence a loan from the Commonwealth of Virginia's Literary Fund in the maximum principal amount of \$20,000,000 from the Commonwealth of Virginia Board of Education for the benefit of the City's School Board to construct a science wing addition for the School Board's Bethel High School. The Literary Fund Loan bears interest at the rate of 2% per annum. Interest only is payable over the construction draw-down period. After

the draw-down period, currently estimated through September 2026, the Note will be converted to a long-term bond payable in twenty (20) approximately equal annual installments of principal and interest. Assuming the entire \$20,000,000 is drawn, the installment payments will be approximately \$1,225,000 annually.

On June 30, 2025, the City's indebtedness includes \$375,616 in loans from the Commonwealth of Virginia's Literary Loan Fund. The Literary Fund Loan is deemed general obligation debt of the City.

Debt Limit:

The Commonwealth of Virginia imposes a legal limit of 10% of assessed valuation on the amount of general obligation borrowings which may be issued by the City. As of June 30, 2025, the City's aggregate general obligation indebtedness was \$276,210,616, which is \$1,293,212,222 less than the State limit.

Overlapping Debt:

There are no overlapping or underlying tax jurisdictions.

11. DEFINED BENEFIT PENSION PLANS:

The City and Hampton School Board's nonprofessional employees contribute to two pension plans for all eligible full-time salaried employees, the Hampton Employees' Retirement System (HERS) and the Virginia Retirement System Plan (VRS).

The City and School Board's nonprofessional employees are covered by the multiple-employer, agent defined benefit plan under the VRS Political Subdivision Retirement Plan. All full-time, salaried permanent (professional) employees of the School Board are covered by the VRS Teacher Retirement Plan which is a cost-sharing, multiple-employer defined benefit plan upon employment.

The HERS plan covers all full-time salaried employees who were first hired prior to July 1, 1984.

The following is a summary of the total activity for the City and School Board defined pension plans during the year ended June 30, 2025:

	Net Pension Liability	Net Deferred Outflows	Net Deferred Inflows	Pension Expense
COMBINED ENTITY TOTAL:				
VRS	\$ 126,666,708	\$ 38,750,232	\$ (17,397,332)	\$ 17,756,887
HERS	805,292	-	(3,609,563)	4,983,642
Total	<u>127,472,000</u>	<u>38,750,232</u>	<u>(21,006,895)</u>	<u>22,740,529</u>
Less: Pension Trust Fund				
HERS	170,189	52,065	(23,375)	72,206
Total City:	<u>\$ 127,301,811</u>	<u>\$ 38,698,167</u>	<u>\$ (20,983,520)</u>	<u>\$ 22,668,323</u>
 SCHOOL BOARD:				
VRS - Nonprofessional employees	\$ 1,097,395	\$ 1,495,960	\$ (855,484)	\$ 766,167
VRS - Teachers	126,130,363	49,133,507	(20,474,943)	13,030,888
HERS - Teachers/Nonprofessional employees	1,093,598	-	(4,901,841)	6,767,859
Total	<u>\$ 128,321,356</u>	<u>\$ 50,629,467</u>	<u>\$ (26,232,268)</u>	<u>\$ 20,564,914</u>

Hampton Employees' Retirement System (HERS)

Plan Description - HERS:

HERS is a single employer public employee defined benefit pension plan established and administered by the City to augment the retirement benefits provided to full-time permanent City and School Board employees under VRS.

HERS was established as a separate trust fund in 1966 and became non-contributory on January 1, 1975. The authority to establish and amend benefit provisions of HERS is governed by statute as set out in Chapter 28 of the City Code. All full-time permanent employees of the City and School Board, who are members of VRS and have credit with HERS for service rendered prior to July 1, 1984, are members. HERS was closed to new entrants effective July 1, 1984.

HERS provides retirement benefits as well as death-in-service and disability benefits. All benefits vest after five years of credited service. Employees who retire on or after age 60 with five or more years of credited service or upon attaining age 55 with 25 or more years of credited service (age 50 for public safety officers) are entitled to an annual benefit, payable monthly for life, in an amount equal to 2% of their final average compensation for each of the first 20 years of credited service, plus 2-1/4% for each year of service thereafter,

11. DEFINED BENEFIT PENSION PLANS, continued:

offset by an assumed VRS benefit equal to 1-1/2% of their average final compensation for credited service with VRS resulting for City of Hampton service.

Final average compensation is the employee's average salary, excluding overtime, over the three highest consecutive years of credited service as a member. Employees with five years of credited service may retire on or after 55 (age 50 for public safety officers) and receive a reduced retirement benefit. Additionally, a plan amendment passed in 1999 allows for early retirement at age 50 for school and general members having at least 10 years of credited service.

Effective July 1, 2001, a plan amendment provided for a one-time cost of living adjustment of 3% to the gross monthly retirement benefits for retired members and beneficiaries who were receiving retirement benefits on that date and hired prior to July 1, 1999. COLAs are not automatic under the plan.

HERS is considered a part of the City's reporting entity and is included in the City's financial reports as a pension trust fund. HERS issues a publicly available financial report that includes financial statements and required supplementary information for HERS. The financial report may be obtained by writing to the City of Hampton, Finance Department, 22 Lincoln Street, Hampton, Virginia, 23669 or by calling (757) 727-6230.

Employees Covered by Benefit Terms - HERS Retirement Plan

As of June 30, 2024, the following employees were covered by the benefit terms of the pension plan :

	Number	
	City	School Board Nonprofessional Employees
Inactive members or their beneficiaries currently receiving benefits	855	1,234
Vested inactive members	61	104
Active members	10	1
Total	926	1,339

Contributions - HERS:

The contribution requirements of plan members, the City and School Board are established and may be amended by the City Council. Plan members do not contribute. The City and Component Unit - School Board are required to contribute an actuarially determined amount. Contributions from the City totaled \$380,554 and the School Board totaled \$516,798 for the year ending June 30, 2025.

Net Pension Liability - HERS:

The City's and School Board's net pension liability and the total pension liability used to calculate the net pension liability was measured as of June 30, 2025.

Actuarial Assumptions - HERS Retirement Plan

The total pension liability in the June 30, 2023 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.50%
Salary increases	5.00% per annum for all members of the plan
Investment rate of return	5.05%, net of investment expenses, annually
Administrative Expenses	Assumed to be the same as for the prior plan year, increased by the inflation rate of 2.5%.

11. DEFINED BENEFIT PENSION PLANS, continued:

Mortality rates were based on the RP-2014 Annuitant and Non-Annuitant Mortality adjusted to 2006 using MP-2014, with generational projections using scale MP-2017. The actuarial assumptions used for the June 30, 2019 valuation were based on the results of an experience study for the period July 1, 2009 through June 30, 2017.

The long-term expected rate of return on pension plan investments using a building-block method in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation and adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Domestic Equity- Large Cap	44%	9.20%
Domestic Equity-Mid/Small Cap	9%	9.55%
International Equity	10%	8.30%
Fixed Income	37%	3.90%
Total	<u>100%</u>	

The discount rate used to measure the total pension liability was 5.05 percent. A formal cash flow projection was not performed; however, the assumption was made that the City and School Board will continue the historical and legally required practice of contributing to the plan based on an actuarially determined contribution, reflecting a payment equal to the normal cost plus a provision for administrative expenses, plus an amount necessary to amortize the June 30, 2013 unfunded actuarial liability as a level dollar amount over a closed 10 year period, plus layers of future actuarial gains and losses over separate fixed 10 year periods from each subsequent valuation date. Based on these assumptions, the pension plans' projected fiduciary net position will be greater than or equal to the benefit payments projected for each future period. Therefore, the long-term expected rate of return on pension plan investments (5.05%) was applied to all periods of projected benefit payments to determine the total pension liability.

	\$ (3,609,563)	\$ (4,901,841)

Pension Plan Fiduciary Net Position - HERS

Detailed information about the pension plan's fiduciary net position is available in the separately issued HERS financial report.

Virginia Retirement System (VRS)

Plan Description - VRS:

The City and School Board contribute to the VRS, an agent and cost-sharing multiple-employer defined benefit pension plan administered by the VRS.

All full-time, salaried permanent (professional) employees of public school divisions are automatically covered by the VRS Teacher Retirement Plan, a cost-sharing multiple-employer defined benefit plan, upon employment. All full-time, salaried permanent employees of the City and nonprofessional employees of the School Board are automatically covered by the VRS Retirement Plan, an agent multiple-employer defined benefit plan, upon employment. These plans are administered by the Virginia Retirement System (the System) along with plans for other employer groups in the Commonwealth of Virginia. Members earn one month of service credit for each month they are employed and for which they and their employer pay contributions to VRS. Members are eligible to purchase prior service, based on specific criteria as defined in the *Code of Virginia*, as amended. Eligible prior service that may be purchased includes prior public service, active military service, certain periods of leave, and previously refunded service.

The System administers three different benefit structures for covered employees - Plan 1, Plan 2, and Hybrid. Each of these benefits structures has a different eligibility criteria. The specific information for each plan and the eligibility for covered groups within each plan are set out in the table below:

11. DEFINED BENEFIT PENSION PLANS, continued:

PLAN 1	PLAN 2	HYBRID RETIREMENT PLAN
About Plan 1	About Plan 2	About the Hybrid Retirement Plan
Plan 1 is a defined benefit plan. The retirement benefit is based on a member's age, service credit and average final compensation at retirement using a formula.	Same as Plan 1.	<p>The Hybrid Retirement Plan combines the features of a defined benefit plan and a defined contribution.</p> <ul style="list-style-type: none"> The defined benefit is based on a member's age, service credit and average final compensation at retirement using a formula. The benefit from the defined contribution component of the plan depends on the member and employer contributions made to the plan and the investment performance of those contributions. In addition to the monthly benefit payment payable from the defined benefit plan at retirement, member may start receiving distributions from the balance in the defined contribution account, reflecting the contributions, investment gains or losses, and any required fees.
Eligible Members	Eligible Members	Eligible Members
Employees are in Plan 1 if their membership date is before July 1, 2010, and they were vested as of January 1, 2013, and they have not taken a refund.	Employees are in Plan 2 if their membership date is on or after July 1, 2010, or their membership date is before July 1, 2010, and they were not vested as of January 1, 2013.	Employees are in the Hybrid Retirement Plan if their membership date is on or after January 1, 2014.
Hybrid Opt-In Election	Hybrid Opt-In Election Eligible	Non-Eligible Members
VRS non-hazardous duty covered Plan 1 members were allowed to make an irrevocable decision to opt into the Hybrid Retirement Plan during a special election window held January 1 through April 30, 2014.	Eligible Plan 2 members were allowed to make an irrevocable decision to opt into the Hybrid Retirement Plan during a special election window held January 1 through April 30, 2014.	<p>This includes:</p> <ul style="list-style-type: none"> School division non-professional employees Political subdivision employees* Members in Plan 1 or Plan 2 who elect to opt into the plan during the election window held January 1- April 30, 2014; the plan's effective date for opt-in members was July 1, 2014.
The Hybrid Retirement Plan effective date for eligible Plan 1 members who opted in was July 1, 2014.	The Hybrid Retirement Plan's effective date for eligible Plan 2 members who opted in was July 1, 2014.	Those employees eligible for an optional retirement plan (ORP) must elect the ORP plan or the Hybrid Retirement Plan. If these members have prior service under Plan 1 or Plan 2, they are not eligible to elect the Hybrid Retirement Plan and must select Plan 1 or Plan 2 (as applicable) or ORP.

11. DEFINED BENEFIT PENSION PLANS, continued:

PLAN 1	PLAN 2	HYBRID RETIREMENT PLAN
If eligible deferred members returned to work during the election window, they were also eligible to opt into the Hybrid Retirement Plan.	If eligible deferred members returned to work during the election window, they were also eligible to opt into the Hybrid Retirement Plan.	
Members who were eligible for an optional retirement plan (ORP) and had prior service under Plan 1 were not eligible to elect the Hybrid Retirement Plan and remain as Plan 1 or ORP.	Members who were eligible for an optional retirement plan (ORP) and have prior service under Plan 2 were not eligible to elect the Hybrid Retirement Plan and remain as Plan 2 or ORP.	
Retirement Contributions	Retirement Contributions	Retirement Contributions
Employees contribute 5% of their compensation each month to their member contribution account through a pre-tax salary reduction. Member contributions are tax-deferred until they are withdrawn as part of a retirement benefit or as a refund. The employer makes a separate actuarially determined contribution to VRS for all covered employees. VRS invests both member and employer contributions to provide funding for the future benefit payment.	Same as Plan 1	A member's retirement benefit is funded through mandatory and voluntary contributions made by the member and the employer to both the defined benefit and the defined contribution components of the plan. Mandatory contributions are based on a percentage of the employee's creditable compensation and are required from both the member and the employer. Additionally, members may choose to make voluntary contributions to the defined contribution component of the plan, and the employer is required to match those voluntary contributions according to specified percentages.
Service Credit	Service Credit	Service Credit
Service credit includes active service. Members earn service credit for each month they are employed in a covered position. It also may include credit for prior service the member has purchased or additional service credit the member was granted. A member's total service credit is one of the factors used to determine their eligibility for retirement and to calculate their retirement benefit. It also may count toward eligibility for the health insurance credit in retirement, if the employer offers the health insurance credit.	Same as Plan 1	<p>Defined Benefit Component:</p> <p>Under the defined benefit component of the plan, service credit includes active service. Members earn service credit for each month they are employed in a covered position. It also may include credit for prior service the member has purchased or additional service credit the member was granted. A member's total service credit is one of the factors used to determine their eligibility for retirement and to calculate their retirement benefit. It also may count toward eligibility for the health insurance credit in retirement, if the employer offers the health insurance credit.</p> <p>Defined Contributions Component:</p> <p>Under the defined contribution component, service credit is used to determine vesting for the employer contribution portion of the plan.</p>

11. DEFINED BENEFIT PENSION PLANS, continued:

PLAN 1	PLAN 2	HYBRID RETIREMENT PLAN
Vesting	Vesting	Vesting
Vesting is the minimum length of service a member needs to qualify for a future retirement benefit. Members become vested when they have at least five years (60 months) of service credit. Vesting means members are eligible to qualify for retirement if they meet the age and service requirements for their plan. Members also must be vested to receive a full refund of their member contribution account balance if they leave employment and request a refund.	Same as Plan 1.	<p>Defined Benefit Component:</p> <p>Defined benefit vesting is the minimum length of service a member needs to qualify for a future retirement benefit. Members are vested under the defined benefit component of the Hybrid Retirement Plan when they reach five years (60 months) of service credit. Plan 1 or Plan 2 members with at least five years (60 months) of service credit who opted into the Hybrid Retirement Plan remain vested in the defined benefit component.</p>
Members are always 100% vested in the contributions that they make.		<p>Defined Contributions Component:</p> <p>Defined contribution vesting refers to the minimum length of service a member needs to be eligible to withdraw the employer contributions from the defined contribution component of the plan.</p> <p>Members are always 100% vested in the contributions that they make.</p> <p>Upon retirement or leaving covered employment, a member is eligible to withdraw a percentage of employer contributions to the defined contribution component of the plan, based on service.</p> <ul style="list-style-type: none"> After two years, a member is 50% vested and may withdraw 50% of employer contributions. After three years, a member is 75% vested and may withdraw 75% of employer contributions. After four or more years, a member is 100% vested and may withdraw 100% of employer contributions. <p>Distribution is not required, except as governed by law until age 73 for political subdivisions.</p>
Calculating the Benefit	Calculating the Benefit	Calculating the Benefit
The Basic Benefit is determined using the average final compensation, service credit and plan multiplier. An early retirement reduction factor is applied to the amount if the member is retiring with a reduced benefit. In cases where the member has elected an optional form of retirement payment, an option factor specific to the option chosen is then applied	See definition under Plan 1.	<p>Defined Benefit Component</p> <p>See definition under Plan 1</p> <p>Defined Contribution Component:</p> <p>The benefit is based on contributions made by the member and any matching contributions made by the employer, plus net investment earnings on those contributions.</p>

11. DEFINED BENEFIT PENSION PLANS, continued:

PLAN 1	PLAN 2	HYBRID RETIREMENT PLAN
Average Final Compensation	Average Final Compensation	Average Final Compensation
A member's average final compensation is the average of the 36 consecutive months of highest compensation as a covered employee.	A member's average final compensation is the average of their 60 consecutive months of highest compensation as a covered employee.	Same as Plan 2. It is used in the retirement formula for the defined benefit component of the plan.
Service Retirement Multiplier	Service Retirement Multiplier	Service Retirement Multiplier
VRS: The retirement multiplier is a factor used in the formula to determine a final retirement benefit. The retirement multiplier for nonhazardous duty members is 1.70%.	VRS: Same as Plan 1 for service earned, purchased or granted prior to January 1, 2013. For non-hazardous duty members the retirement multiplier is 1.65% for service credit earned, purchased or granted on or after January 1, 2013	<u>Defined Benefit Component</u> VRS: The retirement multiplier for the defined benefit component is 1.00%. For members that opted into the Hybrid Retirement Plan from Plan 1 or Plan 2, the applicable multipliers for those plans will be used to calculate the retirement benefit for service credited in those plans.
Sheriffs and regional jail superintendents: The retirement multiplier for sheriffs and regional jail superintendents is 1.85%.	Sheriffs and regional jail superintendents: Same as Plan 1.	Sheriffs and regional jail superintendents: Not applicable.
Political subdivision hazardous duty employees: The retirement multiplier of eligible political subdivision hazardous duty employees other than sheriffs and regional jail superintendents is 1.70% or 1.85% as elected by the employer.	Political subdivision hazardous duty employees: Same as Plan 1.	Political subdivision hazardous duty employees: Not applicable. <u>Defined Contribution Component:</u> Not applicable.

Disability Coverage	Disability Coverage	Disability Coverage
Members who are eligible to be considered for disability retirement and retire on disability, the retirement multiplier is 1.70% on all service, regardless of when it was earned, purchased or granted.	Members who are eligible to be considered for disability retirement and retire on disability, the retirement multiplier is 1.65% on all service, regardless of when it was earned, purchased or granted.	Employees of political subdivisions and school divisions (including Plan 1 and Plan 2 opt-ins) participate in the Virginia Local Disability Program (VLDP) unless their local governing body provides an employer-paid comparable program for its members.
		Hybrid members (including Plan 1 and Plan 2 opt-ins) covered under VLDP are subject to a one-year waiting period before becoming eligible for non-work related disability benefits.
Purchase of Prior Service	Purchase of Prior Service	Purchase of Prior Service
Members may be eligible to purchase service from previous public employment, active duty military service, an eligible period of leave or VRS refunded service as service credit in their plan. Prior service credit counts toward vesting, eligibility for retirement and the health insurance credit. Only active members are eligible to purchase prior service. Members also may be eligible to purchase periods of leave without pay.	Same as Plan 1.	<p>Defined Benefit Component: Same as Plan 1, with the following exception:</p> <ul style="list-style-type: none"> Hybrid Retirement Plan members are ineligible for ported service. <p>Defined Contribution Component: Not applicable</p>

Employees Covered by Benefit Terms - VRS Retirement Plan

As of the June 30, 2023 actuarial valuation, the following employees were covered by the benefit terms of the pension plan:

	Number	
	City	School Board Nonprofessional Employees
Inactive members or their beneficiaries currently receiving benefits	1,966	276
INACTIVE MEMBERS:		
Vested inactive members	440	52
Non-vested inactive members	977	121
Active elsewhere in VRS	772	65
Total inactive members	2,189	238
Active Members	1,762	166
Total covered employees	5,917	680

11. DEFINED BENEFIT PENSION PLANS, continued:

Contributions - VRS:

The contribution requirement for active employees is governed by Title 51.1-145 of the *Code of Virginia*, as amended, but may be impacted as a result of funding options provided to political subdivisions and school divisions by the Virginia General Assembly. Employees are required to contribute 5% of their compensation toward their retirement.

For the Teacher Retirement Plan, each school division's contractually required contribution rate for the year ended June 30, 2025 was 14.21% of covered employee compensation. This was the General Assembly approved rate which was based on an actuarially determined rate from an actuarial valuation as of June 30, 2023. The actuarially determined rate, when combined with employee contributions, was expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the Teacher Retirement Plan from the School Board were \$21,615,591 and \$23,784,540 for the years ended June 30, 2025 and June 30, 2024, respectively.

For the VRS Retirement Plan, the City's and School Board's nonprofessional employees contractually required contribution rates for the year ended June 30, 2025 were 20.8% and 8.46% of covered employee compensation, respectively. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2023. This rate, when combined with employee contributions, was expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the pension plan from the City were \$24,357,790 and \$21,716,455 for the years ended June 30, 2025 and June 30, 2024, respectively. Contributions to the pension plan from the School Board were \$1,060,091 and \$348,718 for the years ended June 30, 2025 and June 30, 2024, respectively.

The defined contributions component of the Hybrid plan includes member and employer mandatory and voluntary contributions. The Hybrid plan member must contribute a mandatory rate of 1% of their covered payroll. The employer must also contribute a mandatory rate of 1% of this covered payroll, which totaled \$391,795 for the year ended June 30, 2025. Hybrid plan members may also elect to contribute an additional voluntary rate of up to 4% of their covered payroll; which would require the employer a mandatory additional contribution rate of up to 2.5%. This additional employer mandatory contribution totaled \$979,488 for the year ended June 30, 2025. The total Hybrid plan participant covered payroll totaled \$39,179,533 for the year ended June 30, 2025.

Net Pension Liability - VRS Retirement Plan

The net pension liability (NPL) is calculated separately for each employer and represents that particular employer's total pension liability determined in accordance with GASB Statement No. 68, less that employer's fiduciary net position. For the City and School Board's nonprofessional employees, the net pension liability was measured as of June 30, 2024. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation performed as of June 30, 2023, rolled forward to the measurement date of June 30, 2024.

Pension Liabilities, Pension Expense, and Deferred Outflows (Inflows) Related to Pensions - VRS Retirement Plan

School Board - Teachers

At June 30, 2025, the School Board - Teachers reported a liability of \$126,130,363 for its proportionate share of the Net Pension Liability. The Net Pension Liability was measured as of June 30, 2024 and the total pension liability used to calculate the Net Pension Liability was determined by an actuarial valuation performed as of June 30, 2023, and rolled forward to the measurement date of June 30, 2024. The School Board's proportion of the Net Pension Liability was based on the School Board's actuarially determined employer contributions to the pension plan for the year ended June 30, 2024, relative to the total of the actuarially determined employer

contributions for all participating employers. At June 30, 2024, the School Board's proportion was 1.34% as compared to 1.31% at June 30, 2023.

For the year ended June 30, 2025, the School Board - Teachers recognized a pension expense of \$13,030,888. Since there was a change in proportionate share between measurement dates, a portion of the pension expense was related to deferred amounts from changes in proportion and from differences between employer contributions and the proportionate share of employer contributions. Beginning with the June 30, 2022 measurement date, the difference between expected and actual contributions is included with the pension expense calculation.

At June 30, 2025 the School Board-Teachers reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 21,881,840	\$ (2,597,112)
Change in assumptions	2,289,435	-
Net difference between projected and actual earnings on pension plan investments	-	(17,361,921)
Changes in proportionate share	3,346,641	(515,910)
Employer contributions subsequent to the measurement date	<u>21,615,591</u>	-
	<u>\$ 49,133,507</u>	<u>\$ (20,474,943)</u>

\$21,615,591 reported as deferred outflows of resources related to pensions resulting from the School Board - Teacher's contributions subsequent to the measurement date will be recognized as a reduction of the Net Pension Liability in the fiscal year ended June 30, 2026. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30	
2026	\$ (6,595,936)
2027	11,739,747
2028	3,065,445
2029	<u>(1,166,283)</u>
	<u>\$ 7,042,973</u>

City

For the year ended June 30, 2025, the City recognized pension expense of \$17,756,887. At June 30, 2025, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 14,392,442	\$ (593,754)
Net difference between projected and actual earnings on pension plan investments	-	(16,803,578)
Employer contributions subsequent to the measurement date	24,357,790	-
Total	<u>\$ 38,750,232</u>	<u>\$ (17,397,332)</u>

11. DEFINED BENEFIT PENSION PLANS, continued:

\$24,357,790 reported as deferred outflows of resources related to pensions resulting from the City's contributions subsequent to the measurement date will be recognized as a reduction of the Net Pension Liability in the year ended June 30, 2026. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Fiscal Year Ending June 30	
2026	\$ (6,374,693)
2027	10,135,203
2028	(3,221,720)
2029	(3,543,680)
	<u>\$ (3,004,890)</u>

School Board Nonprofessional Employees

For the year ended June 30, 2025, the School Board recognized pension expense of \$766,167. At June 30, 2025, the School Board reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 435,869	\$ -
Net difference between projected and actual earnings on pension plan investments	-	(855,484)
Employer contributions subsequent to the measurement date	1,060,091	-
Total	<u>\$ 1,495,960</u>	<u>\$ (855,484)</u>

\$1,060,091 reported as deferred outflows of resources related to pensions resulting from the School Board's contributions subsequent to the measurement date will be recognized as a reduction of the Net Pension Liability in the year ended June 30, 2026. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Fiscal Year Ending June 30	
2026	\$ (346,844)
2027	256,815
2028	(155,538)
2029	(174,048)
	<u>\$ (419,615)</u>

Actuarial Assumptions - VRS Teacher Retirement Plan

The total pension liability for the VRS Teacher Retirement Plan was based on an actuarial valuation as of June 30, 2023, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2024.

Inflation	2.5 percent
Salary increases, including inflation	3.5 percent - 5.95 percent
Investment rate of return	6.75 percent, net pension plan investment expenses, including inflation

11. DEFINED BENEFIT PENSION PLANS, continued:

Mortality rates:

Pre-Retirement:

Pub-2010 Amount Weighted Teachers Employee Rates projected generationally, 110% of rates for males.

Post-Retirement:

Pub-2010 Amount Weighted Teachers Healthy Retiree Rates projected generationally, males set forward 1 year; 105% of rates for females.

Post-Disablement:

Pub-2010 Amount Weighted Teachers Disabled Rates projected generationally, 110% of rates for males and females.

Beneficiaries and Survivors:

Pub-2010 Amount Weighted Teachers Contingent Annuitant Rates projected generationally.

Mortality Improvement:

Rates projected generationally with Modified MP-2020 Improvement Scale that is 75% of the MP-2020 rates.

The actuarial assumptions used in the June 30, 2023 valuation were based on the results of an actuarial experience study for the period from July 1, 2016 through June 30, 2020. Changes to the actuarial assumptions as a result of the experience study and VRS Board action are as follows: Changes to the actuarial assumptions as a result of the experience study and VRS Board action are as follows:

Mortality Rates (Pre-retirement, post- retirement healthy, and disabled)	Update to PUB2010 public sector mortality tables. For future mortality improvements, replace load with a modified Mortality Improvement Scale MP-2020.
Retirement Rates	Adjusted rates to better fit experience for Plan 1; set separate rates based on experience for Plan 2/Hybrid; changed final retirement age from 75 to 80 for all.
Withdrawal Rates	Adjusted rates to better fit experience at each year age and service through 9 years of service
Disability Rates	No change
Salary Scale	No change
Discount Rate	No change

Actuarial Assumptions - VRS Retirement Plan General Employees

The total pension liability for General Employees in the Political Subdivision's Retirement Plan was based on an actuarial valuation as of June 30, 2023, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2024.

Inflation	2.5 percent
Salary increases, including inflation	3.5 percent - 5.35 percent
Investment rate of return	6.75 percent, net pension plan investment expenses, including inflation

11. DEFINED BENEFIT PENSION PLANS, continued:

Mortality rates:

Largest 10 - Non-Hazardous Duty: 20% of deaths are assumed to be service related.

Pre-Retirement:

Pub-2010 Amount Weighted Safety Employee Rates projected generationally; 95% of rates for males; 105% of rates for females set forward 2 years

Post-Retirement:

Pub-2010 Amount Weighted Safety Healthy Retiree Rates projected generationally; 110% of rates for males; 105% of rates for females set forward 3 years

Post-Disablement:

Pub-2010 Amount Weighted General Disabled Rates projected generationally; 95% of rates for males set back 3 years; 90% of rates for females set back 3 years

Beneficiaries and Survivors:

Pub-2010 Amount Weighted Safety Contingent Annuitant Rates projected generationally; 110% of rates for males and females set forward 2 years

Mortality Improvement:

Rates projected generationally with Modified MP-2020 Improvement Scale that is 75% of the MP-2020 rates

The actuarial assumptions used in the June 30, 2023 valuation were based on the results of an actuarial experience study for the period from July 1, 2016 through June 30, 2020. Changes to the actuarial assumptions as a result of the experience study and VRS Board action are as follows:

Largest 10 - Non-Hazardous Duty:

Mortality Rates (Pre-retirement, post- retirement healthy, disabled	Update to PUB2010 public sector mortality tables. For future mortality improvements, replace load with a modified Mortality Improvement Scale MP-2020.
Retirement Rates	Adjusted rates to better fit experience for Plan 1; set separate rates based on experience for Plan 2/Hybrid; changed final retirement age.
Withdrawal Rates	Adjusted rates to better fit experience at each year age and service through 9 years of service.
Disability Rates	No change
Salary Scale	No change
Line of Duty Disability	No change
Discount Rate	No change

Actuarial Assumptions - VRS Retirement Plan Public Safety Employees with Hazardous Duty Benefits

The total pension liability for Public Safety employees with Hazardous Duty Benefits in the Political Subdivision Retirement Plan was based on an actuarial valuation as of June 30, 2023, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2024:

11. DEFINED BENEFIT PENSION PLANS, continued:

Inflation	2.5 percent
Salary increases, including Inflation	3.5 percent - 4.75 percent
Investment rate of return	6.75 percent, net pension plan investment expenses, including inflation*

Mortality rates:

Largest 10 - Hazardous Duty: 70% of deaths are assumed to be service related

Pre-Retirement:

Pub-2010 Amount Weighted Safety Employee Rates projected generationally with a Modified MP-2020 Improvement Scale; 95% of rates for males; 105% of rates for females set forward 2 years.

Post-Retirement:

Pub-2010 Amount Weighted Safety Healthy Retiree Rates projected generationally with a Modified MP-2020 Improvement Scale; 110% of rates for males; 105% of rates for females set forward 3 years.

Post-Disablement:

Pub-2010 Amount Weighted General Disabled Rates projected generationally with a Modified MP-2020 Improvement Scale; 95% of rates for males set back 3 years; 90% of rates for females set back 3 years.

Mortality Improvement:

Rates projected generationally with Modified MP-2020 Improvement Scale that is 75% of the MP-2020 rates.

The actuarial assumptions used in the June 30, 2023 valuation were based upon a four-year Experience review for the period ending July 1, 2016 through June 30, 2020. Changes to the actuarial assumptions as a result of the experience study and VRS Board action are as follows:

Largest 10 - Hazardous Duty:

Mortality Rates (Pre-retirement, post- retirement healthy, disabled	Update to PUB2010 public sector mortality tables. Increased disability life expectancy. For future mortality improvements, replace load with a modified Mortality Improvement Scale MP-2020.
Retirement Rates	Adjusted rates to better fit experience and changed final retirement age for 65 to 70.
Withdrawal Rates	Decrease rates
Disability Rates	No change
Salary Scale	No change
Line of Duty Disability	No change
Discount Rate	No change

11. DEFINED BENEFIT PENSION PLANS, continued:

Long-Term Expected Rate of Return

The long-term expected rate of return on pension System investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension System investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class (Strategy)	Target Allocation	Arithmetic Long-Term Expected Rate of Return	Weighted Average Long-Term Expected Rate of Return*
Public Equity	32.00 %	6.70 %	2.14 %
Fixed Income	16.00	5.40	0.86
Credit Strategies	16.00	8.10	1.30
Real Assets	15.00	7.20	1.08
Private Equity	15.00	8.70	1.31
PIP - Private Investment Partnership	1.00	8.00	0.08
Diversifying Strategies	6.00	5.80	0.35
Cash	2.00	3.00	0.06
Leverage	(3.00)	3.50	(0.11)
Total	<u>100.00 %</u>	<u>Inflation</u>	<u>7.07</u>
Expected arithmetic nominal return*			<u>7.07 %</u>

*The above allocation provides a one-year expected return of 7.07% (includes 2.5% inflation assumption). However, one-year returns do not take into account the volatility present in each of the asset classes. In setting the long-term expected return for the System, stochastic projections are employed to model future returns under various economic conditions. These results provide a range of returns over various time periods that ultimately provide a median return of 7.10%, including expected inflation of 2.50%. On June 15, 2023, the VRS Board elected a long-term rate of 6.75% which is roughly at the 45th percentile of expected long-term results of the VRS fund asset allocation at that time, providing a median return of 7.14%, including expected inflation of 2.50%.

Discount Rate

The discount rate used to measure the total pension liability was 6.75%. The projection of cash flows used to determine the discount rate assumed that System member contributions will be made per the VRS Statutes and the employer contributions will be made in accordance with the VRS funding policy at rates equal to the difference between actuarially determined contribution rates adopted by the VRS Board of Trustees and the member rate. For the year ended June 30, 2024, the employer contribution rate is of the actuarially determined employer contribution rate from the June 30, 2023 actuarial valuations. From July 1, 2024, on, participating employers are assumed to continue to contribute 100% of the actuarially determined contribution rates. Based on those assumptions, the pension plans' fiduciary net pension was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total pension liability.

Through the fiscal year ending June 30, 2024, the rate contributed by the school division for the VRS Teacher Retirement Plan will be subject to the portion of the VRS Board-certified rates that are funded by the Virginia General Assembly which was 112% of the actuarially determined contribution rate. From July 1, 2024, school divisions are assumed to continue to contribute 100% of the actuarially determined contribution rate.

Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term

expected rate of return was applied to all periods of projected benefit payments to determine the total pension liability.

Pension Plan Fiduciary Net Position

Detailed information about the VRS Teacher Retirement and VRS Retirement Plans' Fiduciary Net Position is available in the separately issued VRS 2024 Annual Comprehensive Financial Report. A copy of the 2024 VRS Comprehensive Annual Financial Report may be downloaded from the VRS website at <https://www.varetire.org/publications/?category=annual>, for 2024 or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500.

Payables to the Pension Plan

On June 30, 2025, the City and School Board reported a payable of \$2,626,271 and \$2,874,874 respectively, for the outstanding amount of contributions to the pension plan required for the year ended June 30, 2025.

12. DEFERRED COMPENSATION PLAN:

The City provides an approved deferred compensation plan, under Section 457 of the Internal Revenue Code, which is administered by the Mission Square Retirement Corporation. All City employees are eligible to participate. The Internal Revenue Code requires that the plan assets and income attributed to those assets be held in trust for the exclusive benefit of the participants and/or beneficiaries. All amounts of employees' compensation deferred under the plan are deposited with the plan trustee, Mission Square Retirement Corporation, for management and investment. The plan trustee holds all assets of the plan, maintains accounting of each plan participant's accumulated assets and makes distribution to participants in accordance with the plan document.

The deferred compensation amount is not available for withdrawal by employees until termination, retirement, death or unforeseeable emergency. However, eligible active plan participants may borrow funds from their plan account balance. The City provides an approved governmental profit-sharing plan & trust, under Section 401(a) of the Internal Revenue Code, which is administered by the Mission Square Retirement Corporation. The City Manager and/or Interim City Manager are eligible to participate. The Internal Revenue Code requires that the plan assets and income attributed to those assets be held in a trust for the exclusive benefit of the participants and/or beneficiaries. All amounts of employees' compensation deferred under the plan are deposited with the plan trustee, Mission Square Retirement Corporation, for management and investment. The plan trustee holds all assets of the plan, maintains accounting of each plan participant's accumulated assets and makes distribution to participants in accordance with the plan document.

13. OTHER POSTEMPLOYMENT HEALTH CARE BENEFIT PLANS:

The City and School Board sponsors a single-employer, self-insured defined benefit health care benefit (HCB) plan that provides medical benefits to eligible retirees and their dependents. In addition, the Virginia Retirement System (VRS) provides other postemployment benefits (OPEB) plans for the City, School Board and Teachers. These defined benefit plans are multiple-employer, cost-sharing plans that provide coverage to state employees, teachers and employees of participating political subdivisions for public employer groups in the Commonwealth of Virginia. The VRS OPEB plans include Health Insurance Credit Program (HIC), Line of Duty Act Program (LODA) and Group Life Insurance Program (GLI).

The following is a summary of the total activity for the City and School Board Group OPEB plans during the year ended June 30, 2025:

	Net OPEB Liability	Net Deferred Outflows	Net Deferred Inflows	OPEB Expense/ (Reduction)
ENTITY TOTAL:				
HCB - (Note 13)	\$ 75,717,366	\$ 21,809,895	\$ (14,741,557)	\$ 64,264

Other Postemployment Benefits - Health Care Benefits (HCB)

Plan Description

City

The City sponsors a single-employer, self-insured defined benefit health care plan that provides medical benefits to retirees and their dependents to age 65. At age 65, retirees can participate in the City's fully-insured supplemental medical plan where the City's plan is secondary to Medicare. Retiree health coverage is provided under the City's Personnel and Policy Procedures to all full-time, salaried permanent employees and public safety officers who retire with the required years of service with the City and continuous years of coverage under the plan. No assets are accumulated in a trust that meets GAAP's criteria. There is no standalone financial report for the plan.

School

The School Board sponsors a single-employer, defined benefit healthcare plan that provides medical and dental benefits to retirees and their dependents. Once retirees become eligible for Medicare at age 65, the retiree

13. OTHER POSTEMPLOYMENT HEALTH CARE BENEFIT PLANS, continued:

and their dependents are terminated from the plan. No assets are accumulated in a trust that meet GAAP's criteria. There is no standalone financial report for the plan.

Benefits Provided:

City

The City requires retirees to pay the premiums charged to active employees plus a surcharge based on the retiree claims experience. Since retirees premiums are not based on a separate actuarially rated plan, there's an implicit rate subsidy, which is considered other postemployment benefits (OPEB). Retirees and spouses under the City's self-insured plan have the same benefits as active employees. Coverage terminates in the pre-65 plan when the retiree or spouse becomes 65.

School

The School Board allows employees, who have been enrolled in the School Board health and/or dental insurance plan for a minimum of five consecutive years prior to retirement, to use their accrued sick leave towards a health or dental subsidy as follows:

- 100 days = \$100 per month up to a total maximum subsidy of \$5,000
- 150 days = \$150 per month up to a total maximum subsidy of \$7,500
- 200 days = \$200 per month up to a total maximum subsidy of \$10,000
- 250 days = \$250 per month up to a total maximum subsidy of \$12,500
- 300 days = \$300 per month up to a total maximum subsidy of \$15,000

Since retiree premiums are not based on a separate actuarially rated plan, there's an implicit rate subsidy, which is also considered other postemployment benefits (OPEB). Retirees and their dependents under the School Board's plan have the same benefits as active employees.

Contributions

City

The City's contribution ranges from 0% to 100% of the premium based on the retiree's years of continuous health coverage and the healthcare care option selected by the retirees. The employer contributions are financed on a pay-as-you-go basis. Contributions from the City were \$3,574,533 and \$2,297,249 for the years ended June 30, 2025 and June 30, 2024, respectively.

School

The School Board contributions are financed on a pay-as-you-go basis. Contributions from the School Board were \$120,234 and \$96,130 for the years ended June 30, 2025 and June 30, 2024, respectively.

The following summarizes the memberships of the Plan as of June 30, 2024, the valuation date:

	Number	
	City	School Board Nonprofessional Employees
Inactive members or their beneficiaries currently receiving benefit payments	778	24
Active members	1,764	2,305
Total memberships	<u>2,542</u>	<u>2,329</u>

13. OTHER POSTEMPLOYMENT HEALTH CARE BENEFIT PLANS, continued:**Funding Policy**

The City Council and Hampton School Board have the authority to establish and amend the funding policy of their respective plans. The employer's contribution ranges from 0% to 100% of the premiums based on the retiree's years of continuous health care coverage and the health care option selected by the retirees. The employer contributions are financed on a pay-as-you-go basis. During fiscal year 2025, the City contributed \$3,574,533. The School Board contributed \$120,234.

Total Health Care OPEB Liability

The City and Hampton Employees Retirement System's total retiree health care OPEB liability of \$75,717,366. The School Board's total retiree health care OPEB liability was \$5,514,923. Both were measured as of June 30, 2023 and rolled forward to June 30, 2024.

Actuarial Assumptions:

The total OPEB liability in the June 30, 2023 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Inflation	2.50%
Real wage growth	1.00%
Wage Inflation	3.50%
Salary increases, including wage inflation	
Regular (General) Employees	3.50% - 5.35%
LEO	3.50% - 4.75%
Municipal Bond Index (Discount Rate)	
Prior Measurement Date	3.65%
Current Measurement Date	3.93%
Health Care Cost Trends	
Pre-Medicare	5.99% for 2025 increasing to an ultimate rate of 3.53% by 2045
Medicare	10.46% for 2025 increasing to an ultimate rate of 3.53% by 2045

Mortality rates were based on the PUB 2010 public sector mortality tables.

The demographic actuarial assumptions for mortality, retirement, disability incidence, and withdrawal used in the June 30, 2023 valuation were based on the results of an actuarial experience study for the period July 1, 2016 through June 30, 2020, adopted by the Virginia Retirement System.

The remaining actuarial assumptions (e.g. health care cost trends, rate of plan participation, rates of plan election, inflation, etc.) used in the June 30, 2023 valuation were based on the most recent VRS study.

Discount Rate

There was a change in the total OPEB liability arising from the change in the discount rate from 3.65% on the prior measurement date to 3.93% on the measurement date of June 30, 2024. The discount rate used was based on the Bond Buyer General Obligation 20-year Municipal Bond Index at June 27, 2024.

13. OTHER POSTEMPLOYMENT HEALTH CARE BENEFIT PLANS, continued:

Changes in the Total Retiree Medical OPEB Liability - City & School Board - Teachers/Nonprofessional

	City	School Board
	Increase/ (Decrease)	
Balances at June 30, 2023	\$ 74,165,850	\$ 5,301,776
CHANGES FOR THE YEAR:		
Service cost	1,655,935	360,384
Interest	2,726,676	205,596
Differences between expected and actual experience	(727,838)	(196,157)
Changes in assumptions	153,630	(97,369)
Benefit payments	(2,256,887)	(59,307)
Net changes	1,551,516	213,147
Balances at June 30, 2024	<u>\$ 75,717,366</u>	<u>\$ 5,514,923</u>

Sensitivity of the Total Retiree Medical OPEB liability to Changes in the Health Care Cost Trend Rate

The following presents the total OPEB liability of the City and School Board, calculated using the baseline healthcare cost trend rates, healthcare cost trend rates that are one percentage point lower, and healthcare cost trend rates that are one percentage point higher:

	Trend Minus 1%	Baseline Trends	Trend Plus 1%
Total OPEB Liability - City	\$ 66,454,741	\$ 75,717,366	\$ 86,925,312
Total OPEB Liability - School Board	\$ 4,996,432	\$ 5,514,923	\$ 6,112,430

Sensitivity of the Total Retiree Medical OPEB liability to Changes in the Discount Rates

The following presents the total OPEB liability of the City and School Board, calculated using the discount rate of 3.93%, as well as what the City's and the School Board's total OPEB liability would be if it were calculated using a discount rate that is one percentage point lower (2.93%) or one percentage higher (4.93%) than the current discount rate:

	1% Decrease	Current Discount Rate	1% Increase
Total OPEB Liability - City	\$ 84,938,397	\$ 75,717,366	\$ 67,943,375
Total OPEB Liability - School Board	\$ 5,868,146	\$ 5,514,923	\$ 5,178,056

OPEB Expense and Deferred Outflows (Inflows) of Resources Related to Retiree Medical OPEB

For the year ended June 30, 2025, the City recognized OPEB expense in the amount of \$64,264. At June 30, 2025, the City reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

CITY	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 13,216,335	\$ (2,517,308)
Changes in assumptions or other inputs	5,019,027	(12,224,249)
Employer contributions subsequent to the measurement date	3,574,533	-
Total	<u>\$ 21,809,895</u>	<u>\$ (14,741,557)</u>

13. OTHER POSTEMPLOYMENT HEALTH CARE BENEFIT PLANS, continued:

\$3,574,533 reported as deferred outflows of resources related to the retiree medical resulting from the City's contributions subsequent to the measurement date will be recognized as a reduction of the net retiree medical OPEB liability in the fiscal year ending June 30, 2026.

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized as OPEB expense as follows:

Year ended:	
2026	\$ (4,000,330)
2027	2,936,065
2028	1,760,097
2029	648,754
2030	2,231,250
Thereafter	(82,028)
	<u>\$ 3,493,808</u>

For the year ended June 30, 2025, the School Board recognized OPEB expense in the amount of \$631,796. At June 30, 2025, the School Board reported deferred outflows of resources and deferred inflows of resources related to health care from the following sources:

School Board- Teachers & Nonprofessional	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 1,695,674	\$ (416,745)
Changes in assumptions or other inputs	147,258	(860,751)
Employer contributions subsequent to the measurement date	120,234	-
Total	<u>\$ 1,963,166</u>	<u>\$ (1,277,496)</u>

\$120,234 reported as deferred outflows related to the retiree medical resulting from the School Board's contributions subsequent to the measurement date will be recognized as a reduction of the net retiree medical OPEB liability in the fiscal year ending June 30, 2026. Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Measurement year ended June 30:	
2026	\$ 115,920
2027	83,291
2028	70,623
2029	344,523
2030	(48,921)
	<u>\$ 565,436</u>

Other Postemployment Benefits-Health Insurance Credits

Health Insurance Credits

The Virginia Retirement System (VRS) Teacher Employee Health Insurance Credit (HIC) Program is a multiple-employer, cost-sharing plan. The Political Subdivision Health Insurance Credit (HIC) Program is a multiple-employer, agent-defined benefit plan. Both Health Insurance Credit Programs were established pursuant to § 51.1-1400 et seq. of the Code of Virginia, as amended, and which provides the authority under which benefit terms are established or may be amended. The plans provide a credit towards the cost of health insurance coverage for retired political subdivision employees of participating employers and retired teachers.

13. OTHER POSTEMPLOYMENT HEALTH CARE BENEFIT PLANS, continued:

For purposes of measuring the net School Board's professional and nonprofessional Health Insurance Credit Program OPEB liability, deferred outflows of resources and deferred inflows of resources related to the Employee Health Insurance Credit Program OPEB, and the Employee Health Insurance Credit Program OPEB expense, information about the fiduciary net position of the Virginia Retirement System (VRS) Employee Health Insurance Credit Program; and the additions to/deductions from the VRS Employee Health Insurance Credit Program's net fiduciary position have been determined on the same basis as they were reported by VRS. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Plan Description - HIC

All full-time, salaried permanent (professional) employees of public school divisions and nonprofessional as a participating political subdivision are automatically covered upon employment. This plan is administered by the Virginia Retirement System (the System), along with pension and other OPEB plans, for public employer groups in the Commonwealth of Virginia. Members earn one month of service credit toward the benefit for each month they are employed and for which their employer pays contributions to VRS. The HIC is a tax-free reimbursement in an amount set by the General Assembly for each year of service credit against qualified health insurance premiums retirees pay for single coverage, excluding any portion covering the spouse or dependents. The credit cannot exceed the amount of the premiums and ends upon the retiree's death.

The specific information about the Teacher and Political Subdivision Health Insurance Credit Program OPEB, including eligibility, coverage and benefits is set out in the table below:

Health Insurance Credit Program (HIC) Plan Provisions

Eligible Employees

The Teacher Employee Retiree HIC Program was established July 1, 1993, for retired Teachers employees covered under VRS who retire with at least 15 years of service credit.

The Political Subdivision Retiree HIC Program was established July 1, 1993, for retired political subdivision employees of employers who elect the benefit and who retire with at least 15 years of service credit.

Eligible employees are enrolled automatically upon employment. They include:

- Full-time permanent (professional) salaried employees of public school divisions covered under VRS.
- Full-time permanent salaried employees of the participating political subdivision who are covered under the VRS pension plan.

Benefit Amounts

The Teacher Employee Retiree HIC Program provides the following benefits for eligible employees:

- At Retirement: For Teacher and other professional school employees who retire, the monthly benefit is \$4.00 per year of service per month with no cap on the benefit amount.
- Disability Retirement: For Teacher and other professional school employees who retire on disability or go on long-term disability under the Virginia Local Disability Program (VLDP), the monthly benefit is either:

13. OTHER POSTEMPLOYMENT HEALTH CARE BENEFIT PLANS, continued:

- \$4.00 per month, multiplied by twice the amount of service credit, or
- \$4.00 per month, multiplied by the amount of service earned had the employee been active until age 60, whichever is lower.

The political subdivision's Retiree Health Insurance Credit Program provides the following benefits for eligible employees:

- At Retirement: For employees who retire, the monthly benefit is \$1.50 per year of service per month with a maximum benefit of \$45.00 per month.
- Disability Retirement: For employees who retire on disability or go on long-term disability under the Virginia Local Disability Program (VLDP), the monthly benefit is \$45.00 per month.

Health Insurance Credit Program Notes:

The monthly Health Insurance Credit benefit cannot exceed the individual premium amount.

Employees who retire after being on long-term disability under VLDP must have at least 15 years of service credit to qualify for the HIC as a retiree.

For political subdivision retirees no HIC for premiums paid and qualified under LODA; however, the employee may receive the credit for premiums paid for other qualified health plans.

Contributions

The contribution requirement for active employees is governed by §51.1-1401(E) of the Code of Virginia, as amended, but may be impacted as a result of funding options provided to school divisions by the Virginia General Assembly. Each school division's contractually required employer contribution rate for the year ended June 30, 2025 was 1.21% of covered employee compensation for employees in the VRS Teacher Employee HIC Program. This rate was the final approved General Assembly rate which was based on an actuarially determined rate from an actuarial valuation as of June 30, 2023. For the School Board-Nonprofessional contractually required employer contribution rate was 1.22% of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2023. The actuarially determined rate was expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions from the School Board to the VRS Teachers HIC Program were \$1,840,596 and \$1,731,606 for the years ended June 30, 2025 and June 30, 2024, respectively. Contributions from the School Board to the Political Subdivision HIC Program were \$152,874 and \$78,494 for the years ended June 30, 2025 and June 30, 2024, respectively.

In June 2023, the Commonwealth made a special contribution of approximately \$4 million to the VRS Teacher Health Insurance Credit Program. This special payment was authorized by Chapter 2 of the Acts of Assembly of 2022, Special Session I, as amended by Chapter 769, 2023 Acts of Assembly Reconvened Session, and is classified as a non-employer contribution. The School Board's proportionate share is reflected in net OPEB liability.

HIC Program OPEB Liabilities, HIC Program OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Health Insurance Credit Program

At June 30, 2025, the School Board reported a liability of \$15,436,337 for its proportionate share of the VRS Teacher and \$118,446 its Nonprofessional Employee net HIC Program OPEB liability, respectively. The Net HIC Program OPEB liability was measured as of June 30, 2024.

13. OTHER POSTEMPLOYMENT HEALTH CARE BENEFIT PLANS, continued:

The HIC OPEB liability was determined by an actuarial valuation performed as of June 30, 2023, using actuarial assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2024. Both Teachers and nonprofessional HIC OPEB liabilities were determined by an actuarial valuation performed as of June 30, 2023, using updated actuarial assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2024. The School Board's proportion of the net VRS Teacher Employee HIC Program OPEB Liability was based on the School Board's actuarially determined employer contributions to the VRS Teacher HIC Program OPEB plan for the year ended June 30, 2024, relative to the total of the actuarially determined employer contributions for all participating employers. At June 30, 2024, the School Board's proportion of the VRS Teacher was 1.33573% as compared to 1.30610% at June 30, 2023.

Membership:

As of the June 30, 2024, actuarial valuation, the following School Board Nonprofessional employees were covered by the benefit terms of the HIC OPEB plan:

	Number
Active employees	221
Inactive employees	47
Total	268

For the year ended June 30, 2025, the School Board recognized Teacher's HIC OPEB expense of \$1,081,329. Since there was a change in proportionate share between measurement dates, a portion of the VRS Teacher Employee Health Insurance Credit Program Net OPEB expense was related to deferred amounts from changes in proportionate share and differences between actual and expected contributions.

At June 30, 2025, the School Board-Teachers and Nonprofessional employees reported deferred outflows of resources and deferred inflows of resources related to the HIC Program OPEB from the following sources:

Teachers	Deferred Outflows of Resources	Deferred Inflow of Resources
Differences between expected and actual experience	\$ -	\$ (731,337)
Net difference between projected and actual earnings on Teacher HIC OPEB program investments	-	(54,908)
Changes of assumptions	265,924	-
Changes in proportionate share	489,355	(298,073)
Employer contribution subsequent to the measurement date	1,840,596	-
Total	\$ 2,595,875	\$ (1,084,318)

For the year ended June 30, 2025, the School Board-Nonprofessional employees recognized a reduction expense HIC OPEB of (\$80,722).

Nonprofessional Employees	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ -	\$ (151,065)
Net difference between projected and actual earnings on Political Subdivisions HIC OPEB program investments	-	(2,165)
Changes of assumptions	3,112	-
Changes in proportionate share	-	-
Employer contribution subsequent to the measurement date	152,874	-
Total	\$ 155,986	\$ (153,230)

\$1,840,596 and \$152,874 reported as deferred outflows of resources related to the Teacher and Nonprofessional Employee HIC OPEB, respectively, resulting from the School Board's contributions subsequent

to the measurement date will be recognized as a reduction of the Net Employee HIC OPEB liability in the fiscal year ending June 30, 2026. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to the HIC OPEB will be recognized in the HIC OPEB expense in future reporting periods as follows:

Fiscal Year Ending June 30	Teachers	Nonprofessional Employees
2026	\$ (185,076)	\$ (101,356)
2027	(52,602)	(44,156)
2028	(42,508)	(3,770)
2029	(52,253)	(836)
2030	(14,540)	—
Thereafter	17,940	—
	<u>\$ (329,039)</u>	<u>\$ (150,118)</u>

Actuarial Assumptions

The total HIC OPEB liability for the VRS Teacher Employee and School Board Nonprofessional HIC Program was based on an actuarial valuation as of June 30, 2023, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2024.

Inflation	2.50 percent
Salary increases, including inflation - Teacher employees	3.50 percent - 5.95 percent
Locality - General employees	3.50 percent - 5.35 percent
Locality - Hazardous duty employees	3.50 percent - 4.75 percent
Investment rate of return	6.75 percent, net of plan investment expenses, including inflation

Rate of Mortality for Teachers (HIC):

Pre-Retirement:

Pub-2010 Amount Weighted Teachers Employee Rates projected generationally; 110% of rates for males.

Post-Retirement:

Pub-2010 Amount Weighted Teachers Healthy Retiree Rates projected generationally; males set forward 1 year; 105% of rates for females.

Post-Disablement:

Pub-2010 Amount Weighted Teachers Disabled Rates projected generationally; 110% of rates for males and females.

Beneficiaries and Survivors:

Pub-2010 Amount Weighted Teachers Contingent Annuitant Rates projected generationally.

Mortality Improvement Scale

Rates projected generationally with Modified MP-2020 Improvement Scale that is 75% of the MP-2020 rates.

13. OTHER POSTEMPLOYMENT HEALTH CARE BENEFIT PLANS, continued:**Rate of Mortality for Largest 10 Locality Employers for HIC:****Pre-Retirement:**

Pub-2010 Amount Weighted Safety Employee Rates projected generationally; 95% of rates for males; 105% of rates for females set forward 2 years.

Post-Retirement:

Pub-2010 Amount Weighted Safety Healthy Retiree Rates projected generationally; 110% of rates for males ; 105% of rates for females set forward 3 years.

Post-Disablement:

Pub-2010 Amount Weighted General Disabled Rates projected generationally; 95% of rates for males set back 3 years; 90% of rates for females set back 3 years.

Beneficiaries and Survivors:

Pub-2010 Amount Weighted Safety Contingent Annuitant Rates projected generationally; 110% of rates for males and females set forward 2 years.

Mortality Improvement Scale

Rates projected generationally with Modified MP-2020 Improvement Scale that is 75% of the MP-2020 rates.

The actuarial assumptions used in the June 30, 2023 valuation were based on the results of an actuarial experience study for the four year period from July 1, 2016 through June 30, 2020, except the change in the discount rate, which was based on VRS Board action effective as of July 1, 2021. Changes to the actuarial assumptions as a result of the experience study and VRS Board action are as follows:

Mortality Rates (Pre-retirement, post- retirement healthy, and disabled	Update to PUB2010 public sector mortality tables. For future mortality improvements, replace load with a modified Mortality Improvement Scale MP-2020.
Retirement Rates - Teachers & Largest 10 Locality Employers	Adjusted rates to better fit experience for Plan 1; set separate rates based on experience for Plan 2/Hybrid changed final retirement age from 75 to 80 for all.
Withdrawal Rates service - Teachers & Largest 10 Locality Employers	Adjusted rates to better fit experience at each year age and service decrement through 9 years of service
Retirement Rates - Teachers & Largest 10 Locality Employers	No change
Salary Scale - Teachers & Largest 10 Locality Employers	No change
Discount Rate - Teachers & Largest 10 Locality Employers	No change

Long-Term Expected Rate of Return

The long-term expected rate of return on VRS System investments was determined using a log-normal distribution analysis in which best estimate ranges of expected future real rates of return (expected returns, net of VRS System's investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

13. OTHER POSTEMPLOYMENT HEALTH CARE BENEFIT PLANS, continued:

Asset Class (Strategy)	Target Allocation	Arithmetic Long-Term Expected Rate of Return	Weighted Average Long-Term Expected Rate of Return
Public Equity	32.00 %	6.70 %	2.14 %
Fixed income	16.00	5.40	0.86
Credit Strategies	16.00	8.10	1.30
Real Assets	15.00	7.20	1.08
Private Equity	15.00	8.70	1.31
PIP - Private Investment Partnership	1.00	8.00	0.08
Diversifying Strategies	6.00	5.80	0.35
Cash	2.00	3.00	0.06
Leverage	(3.00)%	3.50	(0.11)
Total	100.00 %		7.07
<hr/>			
Inflation			
*Expected arithmetic nominal return			
<hr/>			
7.07 %			

*The above allocation provides a one-year return of 7.07% (includes 2.5% inflation assumption). However, one-year returns do not take into account the volatility present in each of the asset classes. In setting the long-term expected return for the system, stochastic projections are employed to model future returns under various economic conditions. The results provide a range of returns over various time periods that ultimately provide a median return of 7.10%, including expected inflation of 2.50%.

**On June 15, 2023, the VRS Board elected a long-term rate of 6.75% which is roughly at the 45th percentile of expected long-term results of the VRS fund asset allocation at that time, providing a median return of 7.14%, including expected inflation at 2.50%.

Discount Rate

The discount rate used to measure the total HIC OPEB was 6.75% for both Teacher Employees and School Board-Nonprofessional members. The projection of cash flows used to determine the discount rate assumed that employer contributions will be made in accordance with the VRS funding policy and at rates equal to the actuarially determined contribution rates adopted by the VRS Board of Trustees and the member rate. Through the fiscal year ending June 30, 2024, the rate contributed by each school division for the HIC Program will be subject to the portion of the VRS Board-certified rates that are funded by the Virginia General Assembly, which was 100% of the actuarially determined contribution rate. From July 1, 2023 on, all agencies and employers are assumed to contribute 100% of the actuarially determined contribution rates. Based on those assumptions, the HIC OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active, inactive and eligible employees. Therefore, the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total HIC OPEB liability.

Changes in Net HIC OPEB Liability - Teachers

The net OPEB liability (NOL) for Teacher Employee Health Insurance Credit Program represents the program's total OPEB liability determined in accordance with GAAP, less the associated fiduciary net position. As of the measurement date of June 30, 2024, NOL amounts for the VRS Teacher Employee Health Increase Credit Program are as follows (amounts expressed in thousands):

	Teacher HIC OPEB Plan
Total Teacher Employee HIC OPEB Liability	\$ 1,478
Plan Fiduciary Net Position	322
Teacher Employee Net HIC OPEB Liability	<u>\$ 1,156</u>

Plan Fiduciary Net Position as a Percentage of the Total Teacher Employee HIC OPEB Liability 21.82 %

The total Teacher Employee HIC OPEB is calculated by the VRS's actuary, and the plan's fiduciary net position is reported in the VRS's financial statements. The net Teachers Employee HIC OPEB liability is disclosed in accordance with the requirements of GAAP in the VRS's notes to the financial statements and required supplementary information.

Sensitivity of the School Board's Proportionate Share of the Teacher Employee and Nonprofessional HIC Net OPEB Liability to Changes in the Discount Rate

The following presents the School Board's proportionate share of the Health Insurance Credit Program net HIC OPEB liability using the discount rate of 6.75%, as well as what the School Board's proportionate share of the net HIC OPEB liability would be if it were calculated using a discount rate that is one percentage point lower (5.75%) or one percentage point higher (7.75%) than the current rate:

	1% Decrease (5.75%)	Current Discount Rate (6.75%)	1% Increase (7.75%)
School Board's proportionate share of the VRS Teacher Employee HIC OPEB Plan net HIC OPEB liability	\$ 17,554,966	\$ 15,436,337	\$ 13,640,605
School Board's proportionate share of the VRS Nonprofessional HIC OPEB Plan net HIC OPEB liability	\$ 151,331	\$ 118,446	\$ 90,398

13. OTHER POSTEMPLOYMENT HEALTH CARE BENEFIT PLANS, continued:

Payable to Employee Health Insurance Credit Program OPEB Plan

The HIC OPEB Plan for School Board - Teachers and Nonprofessional plans had a payable of \$176,292 and \$13,526, respectively as of June 30, 2025.

Health Insurance Credit Program Plan Data

Detailed information about the VRS Teacher Employee and VRS Political Subdivision HIC Program's fiduciary net position is available in the separately issued VRS 2024 Annual Comprehensive Financial Report. A copy of the 2024 VRS Annual Comprehensive Financial Report may be downloaded from the VRS website at [www.varetire.org/pdf/puhttps://employers.varetire.org/media/shared/pdf/publications/2024-annual-report.pdf](https://employers.varetire.org/media/shared/pdf/publications/2024-annual-report.pdf), or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA 23218-2500.

14. OTHER POSTEMPLOYMENT LINE OF DUTY BENEFITS:

Line of Duty (LODA)

Plan Description - LODA

The City administers a single-employer defined benefit Line of Duty Act plan. The Commonwealth of Virginia's Line of Duty Act (LODA) requires state and local governments to provide death benefits and continued health, dental and vision insurance coverage to eligible hazardous duty employees and volunteers (law enforcement and firefighters) and their dependents if they die or become disabled as a result of the performance of their duties as a public safety officer. The insurance coverages continue until death, recovery, or return to full active duty for hazardous duty employees. For spouses or other dependents, the insurance coverages continue until death, marriage or coverage by an alternative insurance. All LODA eligibility determinations are conducted and investigated by the State Comptroller in accordance with the Code of Virginia. Separate, stand-alone statements are not issued for this plan.

Benefits

Death

The Line of Duty Act Plan provides for a one-time payment made to the beneficiaries of a covered individual. Amounts vary as follows:

- \$100,000 when a death occurs as the direct or proximate result of performing duty as of January 1, 2006, or after.
- \$25,000 when the cause of death is attributed to one of the applicable presumptions and occurred earlier than five years after the retirement date.
- An additional \$20,000 benefit is payable when certain members of the National Guard and U.S. military reserves are killed in action in any armed conflict on or after October 7, 2001.

Health Insurance

The Line of Duty Act program provides health insurance benefits.

- Prior to July 1, 2017, these benefits were managed through the various employer plans and maintained the benefits that existed prior to the employee's death or disability. These premiums were reimbursed to the employer by the LODA program.
- Beginning July 1, 2017, the health insurance benefits are managed through the Virginia Department of Human Resource Management (DHRM). The health benefits are modeled after the State Employee Health Benefits Program plans and provide consistent, premium-free continued health plan coverage for LODA-eligible disabled individuals, survivors and family members.

14. OTHER POSTEMPLOYMENT LINE OF DUTY BENEFITS, continued:

Contributions

The Line of Duty Act requires the City to fund all costs of the program. Contributions to the Line of Duty Act Program were \$710,316 and \$733,749 for the years ended June 30, 2025 and June 30, 2024, respectively.

Membership:

The following table summarizes the members of the Plan as of June 30, 2024, the Valuation Date:

	Number
Retirees	32
Active employees	718
Total	750

Line of Duty Act Program (LODA) OPEB Liabilities, LODA OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to the LODA

On June 30, 2025, the City reported a liability of \$20,357,414 for its Net LODA OPEB Liability. The Net LODA OPEB Liability was measured as of June 30, 2024. The total LODA OPEB liability was determined by an actuarial valuation as of June 30, 2023 and rolled forward to the measurement date of June 30, 2024.

For the year ended June 30, 2025, the City recognized LODA OPEB expense of \$1,794,078.

At June 30, 2025, the agency reported deferred outflows of resources and deferred inflows of resources related to the LODA OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 1,942,901	\$ (1,022,645)
Changes in assumptions	4,302,333	(4,925,598)
Employers contributions subsequent to the measurement date	710,316	-
Total	\$ 6,955,550	\$ (5,948,243)

\$710,316 reported as deferred outflows of resources related to LODA OPEB resulting from the City's contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ended June 30, 2026. Amounts reported as deferred outflows of resources and deferred inflows of resources related to the LODA OPEB will be recognized in LODA OPEB expense in future reporting periods as follows:

Fiscal Year Ending June 30	\$	
2026	72,641	
2027	72,641	
2028	72,641	
2029	104,948	
2030	267,626	
Thereafter	(293,506)	
	<u>\$ 296,991</u>	

Actuarial Assumptions

The total LODA OPEB liability was based on an actuarial valuation as of June 30, 2023, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2024.

14. OTHER POSTEMPLOYMENT LINE OF DUTY BENEFITS, continued:

Inflation	2.50 %
Real wage growth	1.00 %

Pub-2010 Amount Weighted Safety Employee Rates projected generationally; 95% of rates for males; 105% of rates for females set forward 2 years. Of the service-related deaths, 50% are assumed to be paid as a direct or proximate result of the performance of duty, with the remainder paid under the presumptive clause.

Retired Members:

Pub-2010 Amount Weighted Safety Healthy Retiree Rates projected generationally; 110% of rates for males; 105% of rates for females set forward 3 years.

Disabled Mortality:

Pub-2010 Amount Weighted General Disabled Rates projected generationally; 95% of rates for males set back 3 years; 90% of rates for females set back 3 years.

Beneficiaries and Survivor Mortality:

Pub-2010 Amount Weighted Safety Contingent Annuitant Rates projected generationally; 110% of rates for males and females set forward 2 years.

Mortality Improvement:

Rates projected generationally with a Modified MP-2020 Improvement Scale that is 75% of the MP-2020 rates.

Discount Rate

The discount rate used to measure the total LODA OPEB liability was 3.93%. This rate was based on the Bond Buyer General Obligation 20-year Municipal Bond Index at June 27, 2024.

14. OTHER POSTEMPLOYMENT LINE OF DUTY BENEFITS, continued:**Change in Net LODA OPEB Liability**

	Increase (Decrease) Total OPEB Liability
Balances at June 30, 2023	<u>\$ 19,861,310</u>
CHANGES FOR THE YEAR:	
Service Cost at the end of the year	948,150
Interest	746,342
Changes of benefits	23,195
Difference between expected and actual experience	(50,965)
Changes of assumptions	(440,619)
Benefit payments	(729,999)
Net changes	496,104
Balances at June 30, 2024	<u>\$ 20,357,414</u>

Sensitivity of the Net LODA OPEB Liability to Changes in the Discount Rate

The following presents the covered employer's proportionate share of the net LODA OPEB liability using the discount rate of 3.93%, as well as what the covered employer's proportionate share of the net LODA OPEB liability would be if it were calculated using a discount rate that is one percentage point lower (2.93%) or one percentage point higher (4.93%) than the current rate:

	1% Decrease (2.93%)	Discount Rate (3.93%)	1% Increase (4.93%)
Net OPEB liability	\$ 23,012,569	\$ 20,357,414	\$ 18,171,106

Sensitivity of the Net LODA OPEB Liability to Changes in the Health Care Trend Rate

Because the Line of Duty Act Program contains provisions for the payment of health insurance premiums, the liabilities are also impacted by the health care trend rates. Lower healthcare trends produce lower liabilities and, higher healthcare trends produce higher liabilities. The table below shows the sensitivity of the liabilities by presenting the net LODA OPEB liability if it were calculated using a health care trend rate that is one percentage point lower or one percentage point higher than the current rate:

	1% Decrease	Current Trend Rate	1% Increase
Net OPEB liability	\$ 17,521,328	\$ 20,357,414	\$ 23,864,321

15. VIRGINIA RETIREMENT SYSTEM-GROUP LIFE INSURANCE - OPEB:

Group Life Insurance

The Virginia Retirement System (VRS) Group Life Insurance Program is a multiple employer, cost-sharing plan. It provides coverage to state employees, teachers, and employees of participating political subdivisions. The Group Life Insurance Program was established pursuant to § 51.1-500 et seq. of the Code of Virginia, as amended, and which provides the authority under which benefit terms are established or may be amended. The Group Life Insurance Program is a defined benefit plan that provides a basic group life insurance benefit for employees of participating employers. For purposes of measuring the net Group Life Insurance Program OPEB Liability, deferred outflows of resources and deferred inflows of resources related to the Group Life Insurance Program OPEB, and Group Life Insurance Program OPEB expense, information about the fiduciary net position of the VRS Group Life Insurance program OPEB and the additions to/deductions from the VRS Group Life Insurance Program OPEB's fiduciary net position have been determined on the same basis as they were reported by VRS. In addition, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Plan Description: - GLI

All full-time, salaried permanent employees of the City, School Board and Teachers are automatically covered by the VRS Group Life Insurance (GLI) Program upon employment. The plan is administered by Virginia Retirement System (the System), along with pensions and other OPEB plans, for public employer groups in the Commonwealth of Virginia.

In addition to the Basic Group Life Insurance benefit, members are also eligible to elect additional coverage for themselves as well as a spouse or dependent children through the Optional Group Life Insurance Program. For members who elect the optional group life insurance coverage, the insurer bills employers directly for the premiums. Employers deduct these premiums from members' paychecks and pay the premiums to the insurer. Since this is a separate and fully insured program, it is not included as part of the Group Life Insurance Program OPEB.

The specific information for GLI OPEB, including eligibility, coverage and benefits is set out in the table below:

GROUP LIFE INSURANCE PROGRAM PLAN PROVISIONS

Eligible Employees

The Group Life Insurance Program was established July 1, 1960, for state employees, teachers and employees of political subdivisions that elect the program. Basic group life insurance coverage is automatic upon employment. Coverage ends for employees who leave their position before retirement eligibility or who take a refund of their member contributions and accrued interest.

Benefit Amounts

The benefits payable under the Group Life Insurance Program have several components.

- **Natural Death Benefit** - The natural death benefit is equal to the employee's covered compensation rounded to the next highest thousand and then doubled.
- **Accidental Death Benefit** - The accidental death benefit is double the natural death benefit.
- **Other Benefit Provisions** - In addition to the basic natural and accidental death benefits, the program provides additional benefits provided under specific circumstances. These include:

15. VIRGINIA RETIREMENT SYSTEM-GROUP LIFE INSURANCE - OPEB, continued:

- Accidental dismemberment benefit
- Safety belt benefit
- Repatriation benefit
- Felonious assault benefit
- Accelerated death benefit option

Reduction in Benefit Amounts

The benefit amounts provided to members covered under the Group Life Insurance Program are subject to a reduction factor. The benefit amount reduces by 25% on January 1 following one calendar year of separation. The benefit amount reduces by an additional 25% on each subsequent January 1 until it reaches 25% of its original value.

Minimum Benefit Amount and Cost-of-Living Adjustment (COLA)

For covered members with at least 30 years of creditable service, there is a minimum benefit payable under the Group Life Insurance Program. The minimum benefit was set at \$8,000 by statute in 2015. This will be increased annually based on the VRS Plan 2 cost-of-living adjustment calculation. The minimum benefit adjusted for COLA was \$9,532 as of June 30, 2025.

Contributions

The contribution requirements for the Group Life Insurance Program are governed by §51.1-506 and §51.1-508 of the Code of Virginia, as amended, but may be impacted as a result of funding provided to state agencies and school divisions by the Virginia General Assembly. The total rate for the Group Life Insurance Program was 1.34% of covered employee compensation. This was allocated into an employee and an employer component using a 60/40 split. The employee component was 0.80% (1.34% X 60%) and the employer component was 0.54% (1.34% X 40%). Employers may elect to pay all or part of the employee contribution, however the employer must pay all of the employer contribution. Each employer's contractually required employer contribution rate for the year ended June 30, 2024 was 0.54% of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2021. The actuarially determined rate, when combined with employee contributions, was expected to finance the costs of benefits payable during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the GLI from the City were \$523,143 and \$581,664 for the years ended June 30, 2025 and June 30, 2024, respectively. Contributions to the GLI from the School Board for professional employees were \$717,906 and \$777,229 for the years ended June 30, 2025 and June 30, 2024, respectively. Contributions to the GLI from the School Board for nonprofessional employees were \$59,783 and \$35,032 for the years ended June 30, 2025 and June 30, 2024 respectively.

In June 2023, the Commonwealth made a special contribution of approximately \$10.1 million to the Group Life Insurance plan. This special payment was authorized by a Chapter 2 of the Acts of Assembly of 2022, Special Session I, as amended by Chapter 769, 2023 Acts of Assembly Reconvened Session, and is classified as a special employer contribution. Our proportionate share is reflected in the GLI OPEB liability.

15. VIRGINIA RETIREMENT SYSTEM-GROUP LIFE INSURANCE - OPEB, continued:

GLI OPEB Liabilities, GLI OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to the Group Life Insurance Program

On June 30, 2025, the City and School Board's professional and nonprofessional reported a liability for its proportionate share of the Net GLI OPEB Liability of \$4,684,976, \$6,255,413 and \$281,994 respectively. The Net GLI OPEB Liability was measured as of June 30, 2024 and the total GLI OPEB Liability used to calculate the Net GLI OPEB Liability was determined by an actuarial valuation performed as of June 30, 2023 and rolled forward to the measurement date of June 30, 2024. The covered employer's proportion of the Net GLI OPEB Liability was based on the covered employer's actuarially determined employer contributions to the Group Life Insurance Program for the year ended June 30, 2024, relative to the total of the actuarially determined employer contributions for all participating employers.

The City and School Board employer's proportion for June 30, 2024 and June 30, 2023 is summarized below:

	Employer's Proportion June 30, 2024	Employer's Proportion June 30, 2023
City of Hampton	0.41983 %	0.42694 %
School Board Professional Employees	0.56056 %	0.55541 %
School Board Nonprofessional Employees	0.02527 %	0.02281 %

For the year ended June 30, 2025, the City recognized a reduction in GLI OPEB expense(revenue) of \$(37,306) and the School Board recognized GLI OPEB expense for professional employees of \$90,557 and nonprofessional employees of \$13,291. Since there was a change in proportionate share between measurement dates, a portion of the GLI OPEB expense was related to deferred amounts from changes in proportion.

At June 30, 2025, the City reported deferred outflows of resources and deferred inflows of resources related to the GLI OPEB from the following sources:

CITY	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 738,928	\$ (114,438)
Changes of assumptions	26,704	(232,178)
Net difference between projected and actual investments earnings on GLI OPEB program investments	-	(394,894)
Changes in proportionate share	3,829	(242,916)
Employer contributions subsequent to the measurement date	523,143	-
Total	\$ 1,292,604	\$ (984,426)

\$523,143 reported as deferred outflows of resources related to the GLI OPEB resulting from the employer's contributions subsequent to the measurement date will be recognized as a reduction of the Net GLI OPEB Liability in fiscal year ending June 30, 2026. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to the GLI OPEB will be recognized in the GLI OPEB expense in future report periods as follows:

Fiscal Year Ending June 30	\$	(298,904)
2026	34,376	
2027	(35,879)	
2028	25,550	
2029	59,892	
Total	\$ (214,965)	

15. VIRGINIA RETIREMENT SYSTEM-GROUP LIFE INSURANCE - OPEB, continued:

School Board - Professional and Nonprofessional Employees

PROFESSIONAL	Deferred Outflows of Resources	Deferred Inflows of Resources

Pub-2010 Amount Weighted Safety Healthy Retiree Rates projected generationaly; 110% of rates for males; 105% of rates for females set forward 3 years.

Post-Disablement:

Pub-2010 Amount Weighted General Disabled Rates projected generationaly; 95% of rates for males set back 3 years; 90% of rates for females set back 3 years.

Beneficiaries and Survivors:

Pub-2010 Amount Weighted Safety Contingent Annuitant Rates projected generationaly; 110% of rates for males and females set forward 2 years.

Mortality Improvement Scale:

Rates projected generationaly with Modified MP-2020 Improvement Scale that is 75% of the MP-2020 rates.

The actuarial assumptions used in the June 30, 2022 valuation were based on the results of an actuarial experience study for the period from July 1, 2016 through June 30, 2020, except the change in discount rate, which was based on VRS Board action effective as of July 1, 2021. Changes to the actuarial assumptions as a result of the experience study and VRS Board action are as follows:

15. VIRGINIA RETIREMENT SYSTEM-GROUP LIFE INSURANCE - OPEB, continued:

Mortality Rates (Pre-retirement, post- retirement healthy, and disabled)	Updated to PUB2010 public sector mortality tables. Increased disability life expectancy. For future mortality improvements, replace load with a modified Mortality Improvement Scale MP-2020
Retirement Rates	Adjusted rates to better fit experience and changed final retirement age from 65 to 70
Withdrawal Rates	Decreased rates
Disability Rates	No change
Salary Scale	No change
Line of Duty Disability	No change
Discount Rate	No change

Net GLI OPEB Liability

The net OPEB liability (NOL) for the Group Life Insurance Program represents the program's total OPEB liability determined in accordance with GAAP, less the associated fiduciary net position. As of the measurement date of June 30, 2024, NOL amounts for the GLI is as follows (amounts expressed in thousands):

	Group Life Insurance OPEB Program
Total GLI OPEB Liability	\$ 4,196,055
Plan Fiduciary Net Position	3,080,133
Net GLI OPEB Liability	<u><u>\$ 1,115,922</u></u>
Plan Fiduciary Net Position as a Percentage of Total GLI OPEB Liability	73.41 %

The total GLI OPEB liability is calculated by VRS's actuary, and each plan's fiduciary net position is reported in the System's financial statements. The net GLI OPEB liability is disclosed in accordance with the requirements of GAAP in the System's notes to the financial statements and required supplementary information.

Long-Term Expected Rate of Return

The long-term expected rate of return on the System's investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of System's investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

15. VIRGINIA RETIREMENT SYSTEM-GROUP LIFE INSURANCE - OPEB, continued:

Asset Class (Strategy)	Long-Term Target Asset Allocation	Arithmetic Long-Term Expected Rate of Return	Weighted Average Long-Term Expected Rate of Return*
Public Equity	32.00%	6.70%	2.14%
Fixed income	16.00%	5.40%	0.86%
Credit Strategies	16.00%	8.10%	1.30%
Real Assets	15.00%	7.20%	1.08%
Private Equity	15.00%	8.70%	1.31%
PIP - Private Investment Partnership	1.00%	8.00%	0.08%
Diversifying Strategies	6.00%	5.80%	0.35%
Cash	2.00%	3.00%	0.06%
Leverage	(3.00)%	3.50%	(0.11)%
Total	<u>100.00%</u>		<u>7.07%</u>
	Inflation		
	*Expected arithmetic nominal return		<u>7.07%</u>

*The above allocation provides a one-year return of 7.07% (includes 2.5% inflation assumption). However, one-year returns do not take into account the volatility present in each of the asset classes. In setting the long-term expected return for the System, stochastic projections are employed to model future returns under various economic conditions. The results provide a range of returns over various time periods that ultimately provide a median rate of 7.10%, including expected inflation of 2.50%.

**On June 15, 2023, the VRS Board elected a long-term rate of return of 6.75%, which was roughly at the 45th percentile of expected long-term results of the VRS fund asset allocation at the time, providing a median return of 7.14%, including expected inflation of 2.50%.

Discount Rate

The discount rate used to measure the total GLI OPEB liability was 6.75%. The projection of cash flows used to determine the discount rate assumed that employer contributions will be made in accordance with the VRS funding policy and at rates equal to the actuarially determined contribution rates adopted by the VRS Board of Trustees. Through the fiscal year ending June 30, 2024, the rate contributed by the entity for the GLI OPEB will be subject to the portion of the VRS Board-certified rates that are funded by the Virginia General Assembly which was 113% of the actuarially determined contribution rate. From July 1, 2024 on, employers are assumed to continue to contribute 100% of the actuarially determined contribution rates. Based on those assumptions, the GLI OPEB's fiduciary net position was projected to be available to make all projected future benefit payments of eligible employees. Therefore, the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total GLI OPEB liability.

Sensitivity of the Employer's Proportionate Share of the Net GLI OPEB Liability to Changes in the Discount Rate

The following tables presents the City and School Board's proportionate share of the net GLI OPEB liability using the discount rate of 6.75%, as well as what the employer's proportionate share of the net GLI OPEB liability would be if it were calculated using a discount rate that is one percentage point lower (5.75%) or one percentage point higher (7.75%) than the current rate:

	1.00% Decrease (5.75%)	Discount Rate (6.75%)	1.00% Increase (7.75%)
City's GLI OPEB Liability	\$ 7,285,746	\$ 4,684,976	\$ 2,583,895
School Board's Professional GLI OPEB Liability	9,727,979	6,255,413	3,450,036
School Board's Non-Professional GLI OPEB Liability	\$ 438,537	\$ 281,994	\$ 155,527

15. VIRGINIA RETIREMENT SYSTEM-GROUP LIFE INSURANCE - OPEB, continued:

Group Life Insurance Program Fiduciary Net Position

Detailed information about the Group Life Insurance Program's Fiduciary Net Position is available in the separately issued VRS 2024 Annual Comprehensive Financial Report, which may be downloaded from the VRS website at [www.varetire.org/pdf/puhhttps://employers.varetire.org/media/shared/pdf/publications/2024-annual-report.pdf](https://employers.varetire.org/media/shared/pdf/publications/2024-annual-report.pdf) or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500.

Payables to the VRS Group Life Insurance OPEB Program

The City's and School's VRS Group Life Insurance OPEB plan payable as of June 30, 2025 totaled \$288,342 and \$185,718, respectively.

16. COMMITMENT AND CONTINGENCIES:

Grants:

The City receives grant funds, principally from the United States government, for construction and various other programs. Expenditures from certain of these funds are subject to audit by the grantor, and the City is contingently liable to refund amounts received in excess of allowable expenditures. In the opinion of the management of the City, no material refunds will be required as a result of expenditures disallowed by grantors.

Self-Insurance:

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The City established a Risk Management Fund (internal service fund) to account for and finance its uninsured risks of loss except for medical claims, which are accounted for in the General Fund.

The City and the Hampton City Schools are self-insured for a portion of their risk up to the following self-insured levels per occurrence:

	City	School Board
	\$	\$
Workers' Compensation	1,000,000	1,000,000
Workers' Compensation Presumption	2,000,000	-
General Liability	1,000,000	1,000,000
Property Coverage	100,000	100,000
Health Insurance	150,000 per member	150,000

The City purchases commercial insurance for claims in excess of coverage provided by the funds and for all other risks of loss. Settled claims have exceeded this commercial coverage in one of the past three years.

All funds of the City participate in the program and make payments to the Risk Management Fund and General Fund based on historical cost information. The unrestricted net position of \$20,548,611 at June 30, 2025 is designated as a reserve for claims in the Risk Management Fund. The City accrues claims and judgments as incurred by a review of all claims on a case-by-case basis. Claims incurred, but not reported, were considered in the determination of the claims liability.

16. COMMITMENT AND CONTINGENCIES, continued:

Changes in the Funds' claims liability amount in fiscal years 2025, 2024 and 2023 were:

Risk Management Fund	Claims Liability July 1	Incurred Claims	Claims Payment	Claims Liability June 30
Fiscal Year 2025	\$ 13,699,207	\$ 1,973,551	\$ 2,210,819	\$ 13,461,939
Fiscal Year 2024	13,315,883	4,622,708	4,239,384	13,699,207
Fiscal Year 2023	9,911,787	5,883,107	2,479,011	13,315,883
General Fund	Claims Liability July 1	Incurred Claims	Claims Payment	Claims Liability June 30
Fiscal Year 2025	\$ 1,273,000	\$ 14,990,491	\$ 14,250,491	\$ 2,013,000
Fiscal Year 2024	1,601,000	12,925,938	13,253,938	1,273,000
Fiscal Year 2023	1,234,000	13,680,432	13,313,432	1,601,000

Litigation

Various claims and lawsuits are pending against the City. In the opinion of City management, the resolutions of these cases would not involve a substantial liability to the City.

Encumbrances

Encumbrances outstanding at year-end represent the estimated amount of expenditures required to complete contracts, purchase orders and other commitments in process of completion at year-end. Outstanding encumbrances as of June 30, 2025 were as follows:

General Fund	\$ 9,925,012
Capital Projects Funds	35,119,101
Other Governmental Funds	17,488,412
Total Encumbrances	<u><u>\$ 62,532,525</u></u>

17. JOINT VENTURE:

The Hampton Roads Regional Jail Authority (the Authority), a political subdivision of the Commonwealth of Virginia, was created through an agreement by the Cities of Hampton, Newport News, Norfolk, and Portsmouth with the City of Chesapeake joining in the Authority on July 1, 2014, (the member jurisdictions). The Authority had the responsibility to finance the acquisition, construction and operation of a regional jail facility for the benefit of the member jurisdictions. Each member jurisdiction was responsible for paying the Authority a per diem charge, as established in the Authority's annual budget, for the care, maintenance and subsistence of prisoners from the member jurisdictions. On April 1, 2024, the Authority ceased jail operations and will continue to wind down over the next year. To the extent the Authority's liabilities and obligations exceed its property and assets at the time of its final dissolution, each member city shall be responsible for a share of such liabilities and obligations equally among the five-member jurisdictions.

18. RESTATEMENT OF BEGINNING NET POSITION:

Effective July 1, 2024, the City implemented the new GASB Statement 101, Compensated Absences, which requires the City to calculate compensated absences liability on the amount of unused and unpaid leave balances that employees could use in the future. The City's net position has been restated as of July 1, 2024, due to a change in accounting principle. A summary of the changes are shown below.

	July 1, 2024 As Previously Reported	Change in Accounting Principle: GASB 101 Implementation	July 1, 2024 As Restated
Government-wide			
Governmental Activities	746,277,992	(9,579,974)	736,698,018
Business-Type Activities	136,523,198	(542,221)	135,980,977
Total Primary Government	882,801,190	(10,122,195)	872,678,995
Proprietary Funds			
Major Funds:			
Wastewater Management	59,752,135	(137,505)	59,614,630
Nonmajor Funds	24,525,648	(404,716)	24,120,932
Total Proprietary Funds	84,277,783	(542,221)	83,735,562
Internal Service Funds	59,446,033	(72,905)	59,373,128

19. SUBSEQUENT EVENT:

On October 9, 2025, the City issued \$75,085,000 General Obligation Public Improvement Bonds, Series 2025 with interest rates ranging from 4.125% to 5.0%. The proceeds of the Series 2025 Bonds are being used to fund various capital and stormwater management projects in the City and to pay costs of issuing the Series 2025 bonds. Interest on the Bonds is due and payable semi-annually on each April 1 and October 1.

Notes to Schedule:

- 1) Changes of benefit terms: There have been no actuarially material changes to the System benefit provisions since the prior actuarial valuation. The 2014 valuation includes Hybrid Retirement Plan members for the first time. A hybrid plan with changes to the defined benefit plan structure and a new defined contribution component was adopted in 2012. The hybrid plan applies to most new employees hired on January 1, 2014 and not covered by enhanced hazardous duty benefits. Because this is still a fairly new benefit and the number of participants was relatively small, the impact on the liabilities as of the measurement date of June 30, 2018 is not material. The liabilities presented do not reflect the hybrid plan since it covers new members joining the Plan after the valuation date of June 30, 2013 and the impact on the liabilities as of the measurement date of June 30, 2016 are minimal.
- 2) The actuarial assumptions in the June 30, 2022, valuation were based on the results of an actuarial experience study for the period from June 30, 2016 through June 30, 2020, except the change in the discount rate which was based on VRS Board action effective as of July 1, 2019. Effective, July 1, 2019, the VRS Board of Trustees adopted a 6.75% investment rate of return since the prior measurement date.
- 3) GAAP requires 10-year trend information.
- 4) Per GAAP, net pension liabilities are reported using the measurement date, which is one year prior to the reporting date.

*The amounts presented has a measurement date of the previous fiscal year end.

Notes:

- 1) This schedule is intended to show information for 10 years.
- 2) Changes of benefit terms: There have been no actuarially material changes to the System benefit provisions since the prior actuarial valuation. The 2014 valuation includes Hybrid Retirement Plan members for the first time. The hybrid plan applies to most new employees hired on January 1, 2014 and not covered by enhanced hazardous duty benefits. Because this is still a fairly new benefit and the number of participants was relatively small, the impact on the liabilities as of the measurement date of June 30, 2020 is not material.
- 3) Per GAAP, net pension liabilities are reported using the measurement date, which is one year prior to the reporting date.

Notes to Schedule

Valuation Date :

1) Actuarially determined contribution rates are calculated as of June 30, two years prior to the end of the fiscal year in which the contributions are reported.

2) Changes of benefit terms-There have been no actuarially material changes to the System benefit provisions since the prior actuarial valuation. The 2015 valuation includes Hybrid Retirement Plan members for the first time. The hybrid plan applies to most new employees hired on January 1, 2014 and not covered by enhanced hazardous duty benefits. Because this is still a fairly new benefit and the number of participants was relatively small, the impact on the liabilities as of the measurement date of June 30, 2021 is not material.

CITY OF HAMPTON, VIRGINIA
NOTES TO VRS REQUIRED SUPPLEMENTAL INFORMATION
PRIMARY GOVERNMENT AND SCHOOL BOARD COMPONENT UNIT
VIRGINIA RETIREMENT SYSTEM PENSION PLAN

Changes of benefit terms - There have been no actuarially material changes to the System benefit provisions since the prior actuarial valuation.

Changes of assumptions - The actuarial assumptions used in the June 30, 2023 valuation were based on the results of an actuarial experience study for the period of July 1, 2016, through June 30, 2020. Changes to the actuarial assumptions as a result of the experience study and VRS Board action are as follows:

LARGEST TEN LOCALITY EMPLOYERS - NON-HAZARDOUS DUTY:

Mortality Rates (Pre-retirement, post- retirement healthy, and disabled)	Updated to PUB2010 public sector mortality tables. For future mortality improvements, replace load with a modified Mortality Improvement Scale MP-2020
Retirement Rates	Adjusted rates to better fit experience for Plan 1; set separate rates based on experience for Plan 2/Hybrid; changed final retirement age from 75 to 80 for all
Withdrawal Rates	Adjusted rates to better fit experience at each age and service decrement through 9 years of service
Disability Rates	No change
Salary Scale	No change
Line of Duty Disability	No change
Discount Rate	No change

LARGEST TEN LOCALITY EMPLOYERS - HAZARDOUS DUTY EMPLOYEES

Mortality Rates (Pre-retirement, post- retirement healthy, and disabled)	Updated to PUB2010 public sector mortality tables. Increased disability life expectancy. For future mortality improvements, replace load with a modified Mortality Improvement Scale MP-2020
Retirement Rates	Adjusted rates to better fit experience and changed final retirement age from 65 to 70
Withdrawal Rates	Decreased rates
Disability Rates	No change
Salary Scale	No change
Line of Duty Disability	No change
Discount Rate	No change

TEACHERS

Mortality Rates (Pre-retirement, post- retirement healthy, and disabled)	Updated to PUB2010 public sector mortality tables. For future mortality improvements, replace load with a modified Mortality Improvement Scale MP-2020
Retirement Rates	Adjusted rates to better fit experience for Plan 1; set separate rates based on experience for Plan 2/Hybrid; changed final retirement age from 75 to 80 for all
Withdrawal Rates service	Adjusted rates to better fit experience at each age and service decrement through 9 years of service

Changes of benefits terms: There have been no actuarially material changes to the System benefit provisions since the prior actuarial valuation.

Changes of assumptions: The actuarial assumptions used in the June 30, 2023 valuation were based on the results of an actuarial experience study for the period July 1, 2016. Changes to the actuarial assumptions as a result of the experience study and VRS Board action are as follows:

Mortality Rates (Pre-retirement, post- retirement healthy, and disabled)	Updated to PUB2010 public sector mortality tables. For future mortality improvements, replace load with a modified Mortality Improvement Scale MP-2020
Retirement Rates	Adjusted rates to better fit experience for Plan 1; set separate rates based on experience for Plan 2/Hybrid; changed final retirement age from 75 to 80 for all
Withdrawal Rates service	Adjusted rates to better fit experience at each age and service decrement through 9 years of service
Disability Rates	No change

OTHER POSTEMPLOYMENT BENEFITS-LINE OF DUTY

Changes in benefit terms - There have been no actuarially material changes to the System benefit provisions since the prior actuarial valuation.

Changes of assumptions - The actuarial assumptions used in the June 30, 2023 valuation were based on the results of an actuarial experience study for the period from July 1, 2016, through June 30, 2020. Changes to the actuarial assumptions as a result of the experience study are as follows:

**LARGEST TEN LOCALITY EMPLOYERS WITH PUBLIC SAFETY
EMPLOYEES**

Mortality Rates (Pre-retirement, post- retirement healthy, and disabled)

Updated to PUB2010 public sector mortality tables. Increased disability life expectancy. For future mortality improvements, replace load with a modified Mortality Improvement Scale MP-2020

Retirement Rates

Adjusted rates to better fit experience and changed final retirement age from 65 to 70

Withdrawal Rates service

Deceased rates

Disability Rates

No change

Salary Scale

No change

Line of Duty Disability

No change

PRIMARY GOVERNMENT AND SCHOOL BOARD COMPONENT UNIT
OTHER POST EMPLOYMENT BENEFITS - GROUP LIFE INSURANCE PROGRAM

Changes of benefit terms - There have been no actuarially material changes to the System benefit provisions since the prior actuarial valuation.

Changes of assumptions - The actuarial assumptions used in the June 30, 2023 valuation were based on the results of an actuarial experience study for the period of July 1, 2016. Changes to the actuarial assumptions as a result of the experience study and VRS Board action are as follows:

LARGEST TEN LOCALITY EMPLOYERS - GENERAL EMPLOYEES

Mortality Rates (Pre-retirement, post- retirement healthy, and disabled)	Updated to PUB2010 public sector mortality tables. For future mortality improvements, replace load with a modified Mortality Improvement Scale MP-2020
Retirement Rates	Adjusted rates to better fit experience for Plan 1; set separate rates based on experience for Plan 2/Hybrid; changed final retirement age from 75 to 80 for all
Withdrawal Rates service	Adjusted rates to better fit experience at each age and service decrement through 9 years of service
Disability Rates	No change
Salary Scale	No change
Line of Duty Disability	No change
Discount Rate	No change

LARGEST TEN LOCALITY EMPLOYERS - HAZARDOUS DUTY EMPLOYEES

Mortality Rates (Pre-retirement, post- retirement healthy, and disabled)	Updated to PUB2010 public sector mortality tables. Increased disability life expectancy. For future mortality improvements, replace load with a modified Mortality Improvement Scale MP-2020
Retirement Rates	Adjusted rates to better fit experience and changed final retirement age from 65 to 70
Withdrawal Rates service	Decreased rates
Disability Rates	No change
Salary Scale	No change
Discount Rate	No change

TEACHERS

Mortality Rates (Pre-retirement, post- retirement healthy, and disabled)	Updated to PUB2010 public sector mortality tables. For future mortality improvements, replace load with a modified Mortality Improvement Scale MP-2020
Retirement Rates	Adjusted rates to better fit experience for Plan 1; set separate rates based on experience for Plan 2/Hybrid; changed final retirement age from 75 to 80 for all
Withdrawal Rates service	Adjusted rates to better fit experience at each age and service decrement through 9 years of service

RECONCILIATION OF THE SCHOOL BOARD'S COMBINING STATEMENT OF REVENUES, EXPENDITURES AND
CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES (EXHIBIT A-12)

Net change in fund balances - total school funds (8,693,132)

Amounts reported for governmental activities in the Statement of Activities are different because:

Governmental funds report capital outlays as expenditures while governmental activities report depreciation and amortization expense allocate those expenditures over the life of the assets.

Capital, right-to-use assets and SBITA assets	4,361,454
Depreciation expense	(2,651,371)
Amortization expense on right-to-use assets	(909,732)

Other liabilities not paid from current period revenues are not reported in the funds for accrued lease interest expense (4,486)

Proceeds from leases provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the Statement of Net Position. Repayment of debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position.

Proceeds from lease/subscription issued	(2,243,282)
Principal paid for lease and subscription payable	2,358,623

Gain (Loss) on disposal of assets (27,362)

Decrease in other postemployment benefits liability reported in the Statement of Activities does not provide current financial resources and, therefore, is not reported in the governmental funds. 651,973

Increase in compensated absences reported in the Statement of Activities does not provide current financial resources and, therefore, is not reported in the governmental funds. (1,534,020)

Decrease in net pension liability reported in Statement of Activities does not provide current financial resources and, therefore, is not reported in the governmental funds. 2,401,053

Increase in deferred outflows of resources related to pensions and OPEB reported in the Statement of Activities does not provide current financial resources and, therefore, is not reported in the governmental funds. 7,243,909

Increase in deferred inflows of resources related to pensions and OPEB reported in the Statement of Activities does not provide current financial resources and, therefore, is not reported in the governmental funds. (7,665,259)

Change in net position of governmental activities \$ (6,711,632)

Cash and cash equivalents, July 1	<u><u>5,134,533</u></u>
Cash and cash equivalents, June 30	<u><u>5,947,175</u></u>

Operating income (loss) (4,061,973)

Adjustments to reconcile operating income (loss) to net cash provided by operating activities:

Depreciation and amortization expense	370,784
Decrease (increase) in:	
Accounts receivable	(2,200)
Lease receivable	482,469
Lease interest receivable	(1,603)
Due from Primary Government	1,000,000
Cost of land	(7,218,126)
Increase (decrease) in:	
Accounts payable	455,359
Notes payable	(81,581)
Deferred inflows related to leases	(493,709)
Nonoperating revenues reported as operating revenues	92,055
Accounts receivable reported as operating activities	-
Deferred inflows related to leases reported as nonoperating activities	(480,866)
Lease receivable reported as nonoperating activities	493,709
Notes payables reported as nonoperating activities	81,581
Cost of land reported as nonoperating activities	7,218,126
Total adjustments	<u><u>1,915,998</u></u>

Net cash used in operating activities \$ (2,145,975)

HAMPTON VA

Statistical SECTION

HAMPTON VA

The following section of the City's comprehensive annual financial report provides detailed statistical information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the City's overall financial health.

CONTENTS

<u>Financial Trends</u>	I-IV
These tables contain trend information to help the reader understand how the City's financial performance and well-being have changed over time.	
<u>Revenue Capacity</u>	V-VIII
These tables contain information to help the reader assess the City's most significant local revenue source, the property tax.	
<u>Debt Capacity</u>	IX-XI
These tables present information to help the reader assess the affordability of the City's current levels of outstanding debt and its ability to issue additional debt in the future	
<u>Demographic and Economic Information</u>	XII-XIII
These tables offer demographic and economic indicators to help the reader understand the environment within which the City's financial activities take place	
<u>Operating Information</u>	XIV-XVI
These tables contain service and infrastructure data to help the reader understand how the information in the City's financial report relates to the services it provides and the activities it performs.	

Sources: Unless otherwise noted, the information in these tables is derived from the comprehensive annual financial reports for the relevant year

2025	15,567,330	39,736	87,162	15,694,228		N/A	N/A	1.15

Notes:

¹ Public service assessed values are furnished by the State Corporation Commission of Virginia with no indication of assessment rate or actual value. The state mandated conversion of personal property to real estate for taxing purposes whereby personal property values are converted at 5% a year over a 20-year period. Assessments are for real estate (land) and personal property at the real estate rate.

²The state requires all real estate to be assessed at 100% of its appraised value. There is no state statute or city charter limitation on the tax rate. The 2023 State Department of Taxation comparison of sales to appraisal indicates a true rate of 100%; assuming the sales to appraisal ratio would be 100% for fiscal year 2024 & 2025.

¹ Public Service assessed values are furnished by the State Corporation Commission of Virginia with no indication of assessment rate or actual value. The State mandated conversion of personal property to real estate for taxing purposes whereby personal property values are converted at 5% a year over a 20-year period. State Corporation Commission has changed reporting the assessments for real estate (land) and personal property at the real estate rate.

CITY OF HAMPTON, VIRGINIA

2025	1.15	4.50

Source: City Department of Finance.

¹ Personal property is assessed on a calendar year basis. The taxes levied are due in two installments on June 5 and December 5. Changes in the tax rate are implemented on the same basis. When a rate change is enacted by City Council, the first half of the fiscal year's tax levy is at the old rate and the second half is at the new rate. The personal property tax rate was increased from \$4.25 per \$100 to \$4.50 per \$100 levied effective January 1, 2015. The real estate tax rate was decreased from \$1.18 per \$100 of assessed value to \$1.16 per \$100 of assessed value effective July 1, 2023.
