---

Dear City Council,

I have been a Hampton resident for almost 27 years, living on Nickerson Blvd for over two decades. I understand that there has been a request for a permit by Jeffery Moore for live entertainment in his establishment "Déjà Vu". This request deeply concerns me, as well as many others.

The shopping center in which this business is located may be a commercial lot, however, this is also a **very residential neighborhood**. We

live deep in the community, and I do not feel this is a place for a night club atmosphere. Unfortunately, crime in our area has increased over the

years. With business operating hours into the early morning, my concerns are that there will be more isolated incidents. This establishment

was previously located in Newport News and I believe was closed or relocated due to an incident involving violence. Ask yourself if this would

be something you would support if it was your neighborhood. Please reconsider in allowing this to move forward in granting a permit for live entertainment.

Thank you for your time.

Sincerely,

Renee Firsdon
