CDBG Proposed Amendments

The Queen’s River Road Project was evaluated, and it was determined that the project could be complete without the additional proposed road. The design for the road has been completed, and the cost estimate to complete the road was higher than anticipated. This proposed amendment transfers the balance for the Queen’s River Road Project to a Neighborhood Commercial Preservation Activity. This activity provides commercial loans and grants in low-to-moderate income areas with priority given to Hampton Housing Venture neighborhoods for eligible special economic development projects.
