Locking DVD Cases
Media Shelving
Office Partition System

DVDs: CURRENT SYSTEM

Collection size

Main Library: 9,178

Northampton Branch Library: 3,086

Phoebus Branch Library: 2,665

Willow Oaks Branch Library: 3,698

Locking cases

New DVDs at the branches are housed in locking cases; older DVDs still stored in sleeves

Main Library uses exterior cases

External storage

All four libraries store uncased discs in sleeves behind the checkout desk

**Wire wall shelving
at the Main Library**

**Large cases
(discontinued)**

**Disc storage units at
Circulation Desk**

**Single discs in
sleeves**

DRAWBACKS OF CURRENT SYSTEM

01

PATRON CONVENIENCE

Checking out a stack of DVDs means waiting for several minutes

STORAGE

Cases and discs are stored separately; box sets have to wait for available cases

02

03

SHELF SPACE

Large hard shell cases take up much more room and are heavier than simple locking cases

STAFF TIME & COST

Staff is taken away from other duties by removing and replacing discs at checkout and return

04
