ATTENTION TO SURROUNDING PROPERTY OWNERS,

I am sending you this proposal to make you aware and hope to have your support in re-locating our storage lot for the Hampton Police.

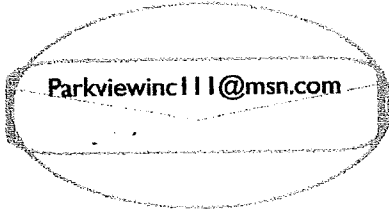

Our lot is presently located on the other side of the runway and has been there since 1977. The city has been trying to clear all activity within the L.A.F.B. flight zone. They have most of the property and now they want us to re-locate our lot to outside of the zone. This storage lot only

I currently have the lots 54, 56, & 58 Tidewater Drive and we must get a use permit to re-locate it for a storage lot. We have had a lot of trouble in the past with someone constantly dumping trash, wood & etc on our property as I know others have too.

I have included a proposal which was given to the city and they will in turn give us a list of conditions which we must follow. We would like to fence across the front to stop dumping and give us additional security. If approved our storage lot will a separate fence located on the center (56) lot. We will set up security camera's as well as some lights. We will grade Tidewater Drive which extremely needs improvement.

The Hampton Police storage will only be used for police calls which average one to two calls a week. Some are not towed to a storage lot and may be towed to where the customer requires. There are accidents which require vehicle storage and which the Insurance company may pick it up.
