Demonstration of Need*:

The Hampton Victim Witness Program has identified the need to provide trauma informed services to expand beyond that of daily courtroom accompaniment and assistance. It is imperative that we broaden our reach to include those who are secondary victims of crime. We want to ensure that they receive the necessary resources to avoid them becoming potential victims and or in some cases, offenders of crime. Based on the previous two years and the increase in Homicides in Hampton, we anticipate serving 35 victims(co-victims) and/or witnesses to violent crime in our community. On average that would be service delivery to 5 victims/co-victims per homicide. 50% of those eligible would be provided direct services. The types of services that would be provided would include homicide survivor support groups, court accompaniment assistance, Virginia Victims Fund, referrals to counseling, assistance with housing and other needs that may arise. The plans to improve and amplify service delivery will be fulfilled by partnering with agencies and programs that provide the needed services for this demographic to include the VOCA grant recently written to carry out the mission. The requested funding level for Personnel will allow us to maintain the level of expertise currently serving in the Hampton Victim Witness program.

While the current funding level will allow us to continue to find ways to creatively improve, expand and enhance service delivery for 2022 and 2023, it will continue to be a challenge. The staffing level for this grant, the City's increased crime rate, staff increases in the Commonwealth's Attorney's office and the increase in the number of victims needing to be served will have us working at a deficit. The Commonwealth's Attorney's Office prosecutes 6000+ cases a year to include, Homicide, Sexual Assault, Robbery, Malicious and Unlawful Wounding, Domestic Violence, DUI's and other Misdemeanor cases. The office utilizes a team structure and there are 23 attorneys and three active teams, with Victim Services Specialists assigned to each team. There are two adult teams and one Juvenile and Domestic Relations Court team. The Adult teams rotate weekly between General District Court and Circuit Court. There are 6 advocates on the Victim Witness grant and 2 advocates on the VOCA grant. There is clearly a disproportionate number of victim service providers, which could unfortunately, lead to gaps and lack of services to crime victims, in addition to burn out of service providers. The problem becomes more evident today in light of the COVID-19 pandemic. The need for continued funding becomes greater because the courts have not resumed a normal schedule and the current changes have made it difficult to maintain service delivery in the manner in which we are accustomed. Many cases and jury trials have been continued in to 2022. The number of current violent crimes in the city are steadily increasing, not to mention court having to be suspended for weeks because of internal and external COVID cases that plagued the judicial system. All of this delays processes, requires quick action to ensure that cases are continued, victims and witnesses are notified and multiple cases having to be stacked for trials. This creates a barrier and impacts all courts, services and the victims being served. We believe that we are operating at an appropriate cost effective level, however mindful that the quality of service continues.

Project Description*:

The Commonwealth's Attorney's Office was responsible for writing the original Victim Witness Grant developed in 1984 and it has been in existence for 36 years. The mission is to provide quality and compassionate assistance to victims and witnesses of crime in the City involved in the criminal justice system. The program complies with the Crime Victims' Bill of Rights and the Crime Victim and Witness Rights Act by supporting and aiding crime victims and witnesses. We treat victims and witnesses with dignity, respect, sensitivity and protect their privacy to the fullest extent of the law. We strive to address the emotional and financial hardships and help guide and direct individuals to available resources in our community. Our goal is to pursue justice on behalf of all victims and traditionally underserved populations to provide the best possible support as their case proceeds. Hampton Victim Services Unit is housed in the Commonwealth's Attorney's Office, which is located in the General District Court Building on the first floor.

We have eight offices with additional office space available to the department. In addition to our main office, there are satellite offices and separate waiting areas for victims/witnesses in our Juvenile and Domestic Relations and Circuit Court buildings. All services and offices are located in the city of Hampton, VA.

The Hampton Victim Service Unit recruits and train volunteers to participate in providing direct services delivery to crime victims and witnesses. Volunteers will offer emotional support, resources, referrals, and courtroom assistance. In addition to assisting with direct services, volunteers will assist with other program related activities such as National Crime Victims Rights' Week and other other victim related projects.

The current service area is the city of Hampton where our current population is 134,510. The service area includes, Hampton University and Thomas Nelson Community college which are both institutions of higher learning. One is a 4 year institution with domicile style living, while the other is a 2 year school, providing opportunities of trade school style work as well as preparing students for advancement to the 4 year college experience. Our target underserved population are youth ages 12-25, the elderly, ages 65 and older, the LGBTQ community and non English speaking/Latino victims and witnesses of crime. We continue to maintain, develop and expand initiatives in the four priority areas for VOCA funding: Services to Victims of Child Abuse, Services for Traditionally Underserved Populations, Services to Victims of Domestic Violence and Services to Victims of Sexual Assault. We spend an equitable amount of time providing direct services in these four priority areas at 25%. Occasionally, these percentages may change depending upon a spike or decline in one or more of these services areas.

Sustainment Plan*:

Since 1984, Hampton's city has continued to support the program with a substantial cash contribution each year. When there are cost of living increases in salaries and benefits not covered by the grant, it is covered through the City's General Fund. The Commonwealth's Attorney has continued to provide support and financial assistance as needed by absorbing some costs into his annual budget. The Coliseum Central Business Improvement District's Security Committee has also included the Victim Services Unit in the yearly budget to help promote and increase awareness during National Crime Victims' Rights Week for several years. With a clear understanding of grants and funding streams, we consistently stay proactive about potential funding opportunities. The program has received grant funding from the Department of Criminal Justice Services for many years. The original agreement between the city of Hampton and DCJS in 1984 was that the city would absorb a percentage of the grant each year until funded by the locality 100%. Through the years, the requirement for cash match amounts has been minimal. Fortunately, the State's allocations have been sufficient enough that the locality has not had to fulfill that original agreement in 36 years. Although the possibility could arise, we would intend to appeal to the city to fulfill the original agreement as related to the Victim Witness Grant. The department will continue to look for ways to sustain this grant through other funding opportunities so that no one is ever in jeopardy of losing employment. The Hampton Victim Witness Program has been a beacon of hope to so many crime victims through the years. It has been a model program for others to follow and for some to emulate. The program has received National, State, and Local recognition for its work in the community. Lastly, the program creates leaders who become Directors, Assistant Directors, Educators in Victim Advocacy, and other fields. Unfortunately, as the crime rate increases, so will the need for trained advocates to sustain and enhance services to provide and respond to the emotional, psychological, and physical needs of crime victims; to assist victims in stabilizing their lives, ensure that they understand and participate in the criminal justice system and attempt to restore a sense of security and safety as defined by the VOCA Rule.

Certification of De Minimis Indirect Cost Rate

Eligibility Criteria:

- The award recipient has never received a Federally-negotiated indirect cost rate for any federal awards.
- The award recipient has received less than \$35 million in direct federal funding for the fiscal year requested.
- The de minimis rate approved will be applied to the MTDC. This base includes all direct salaries and wages, applicable fringe benefits, materials and supplies, services, travel, and up to the first \$25,000 of each subaward (subgrants and subcontracts).
- The MTDC will exclude equipment, capital expenditures, and the portion of each subaward in excess of \$25,000. Other items will only be excluded when necessary to avoid a serious inequity in the distribution of indirect costs, and with the approval of the cognizant federal agency for indirect costs.
- The project costs will be consistently charged as either indirect or direct and will not be double charged or inconsistently charged as both.
- The proper use and application of the de minimis rate is the responsibility of the award recipient. The Office of Justice Programs and/or the Virginia Department of Criminal Justice Services may perform a financial monitoring review to ensure compliance with 2 CFR Part 200.

Are you requesting De Minimis Indirect Cost? :
