Limits of Vacation of Limited Access Right-of-Way Line

Background / History

- Hampton Roads Center Parkway (HRCP) was originally constructed as a limited access facility featuring breaks in the limited access occurring at Micala Avenue, Big Bethel Road, and Armistead Avenue.
- Since the original construction, the Commonwealth Transportation Board (CTB) has allowed breaks in the limited access for the AMC-24 development, Enterprise Parkway, and Coliseum Drive to the south.
- The City established a project with VDOT to extend Coliseum Drive north of HRCP and requests that the limited access line be removed for the extension of Coliseum Drive.
- A traffic analysis has been performed for this roadway, and the new extension will be designed so there is sufficient capacity to support the additional trips.
- All the necessary studies and documentation required for consideration of the removal of the limited access right-of-way line have been completed pursuant to VDOT requirements, including a global traffic analysis and environmental analysis.

Requirements

- **Per 24VAC30-401-20**
 - Written request to the VDOT District Administrator for a change in Limited Access (“LA”);
 - Resolution and formal request from the locality
 - Global Traffic Analysis
 - Environmental Analysis
 - VDOT review and determination
 - Commonwealth Transportation Board (CTB) action to formally decide whether to remove “LA” designation
- **Public hearing is being held per 24VAC30-380-10 to document comments from affected or interested citizens**

Action Required

- **Hold Public Hearing**
- **Adopt Resolution requesting the Commonwealth Transportation Board to grant approval for the removal of a portion of the limited access line along Hampton Roads Center Parkway at Coliseum Drive.**
