Misc. Comments - Food for Thought

- I worry about the flooding and rainwater drainage issues.
- We need two or three more good community centers.
- I'm disappointed that they got rid of Bay Days.
- I dislike SOL testing and the "make or break" mentality of it.
- There's not a lot of beautification in Hampton; it's rundown.
- There are too many empty shops in the shopping centers. We need more small businesses.

Misc. Comments - Food for Thought

- We have "old city" infrastructure.
- The streets are breaking apart and there are no funds to fix them.
- The property taxes are too high for me, now.
- Traffic is ridiculous. I'm always stuck in traffic after work.
- There's a lot of petty theft and robbery; not enough police presence.
- It seems like gun violence has increased.

Misc. Comments - Food for Thought

- Ditches need to be cleaned out; they cause flooding in the neighborhoods.
- Please help kids get jobs. Mentor them.
- Some neighborhoods are really charming; they all should be.
- Add street lighting to make us feel safer.
- With a little redevelopment, Hampton could be more competitive.
- People want to live where good jobs abound.

In Conclusion:

- This is how the “average Hampton resident” feels. Please remember that these are not the people who call you or reach out regularly.
- Hampton provides a good “Quality of Life” to residents. Your ratings were very impressive. There were so many high scores, and you’ve maintained that excellence over many years.
- Taxpayers made great suggestions for improvement. Most of those things are items you work on every day... or issues that will take some time. Residents like to know that leaders share their concerns.
- Just by doing this survey, you are telling residents’ that their input is valued. Many people thanked us profusely for including their views.
