Chip McDonough
City of Hampton VA

Chip,

As you are aware through our recent discussions, Ameri-Kart has discontinued the Rotational Molded cart line, included the Versa-Kart that you have purchased in the past. However, all component replacement parts (lids, wheels axles etc.) will still be avail.

With this change, we have also made Kart-Man our exclusive dealer for the Ameri-Kart parts as they can handle small parts orders for our customer base much more effectively and efficiently. They will also inventory many of these items to better serve the customers. In addition, Kart-Man also carries the Schaefer and Cascade brands 65 & 96 gal. universal and automated carts. This will make it a "one stop shop" for many customers.

I will still remain your point of contact and pricing will not change at this point.

All PO's can be made out to Kart-Man, but you can just e-mail your requests and orders to me like always and I will handle it from there.

I have also attached the W-9 for Kart-Man if you need.

If you have any questions, please do not hesitate to contact me Chip.

Thanks again,

Sincerely,

Doug Eck

Director of Sales
