RE: Rezoning No. 16-00007

Dear Mr. Whipple:

This letter is in response to the above referenced proposed rezoning of an approximately eight acre parcel of land in the Hampton Roads Center – North Business Park, from HRC-2, to Multiple Dwelling District, MD-4.

We are a major employer in Hampton with \$30M in annual revenues and 100 employees, plus 50 students and faculty. Our two major buildings are adjacent to this property, and we would likely be more affected by this project than any other local entity. Craig Davis Properties, Inc. has shared their development plans with me, and based upon their conceptual design, I fully support the rezoning of this property for this very important project. I believe this project is critical to the economic development of the Hampton Roads Center North, and will allow us to attract additional companies and jobs to Hampton.

Therefore, since I am unable to attend the Planning Commission Public Hearing scheduled for April 7th, please convey my support of this project to the Planning Commission and City Council.

If you have additional questions, please do not hesitate to contact me.

Sincerely,

A handwritten signature in black ink that reads "Doug Stanley".
