PURPOSE/BACKGROUND:

The Urban Area Security Initiative (“UASI”) Grant assists state, local, tribal, and territorial efforts to build, sustain, and deliver the capabilities necessary to prevent, prepare for, protect against, and respond to acts of terrorism. The City of Hampton (the “City”) has been awarded, as fiduciary, a 2023 UASI Grant awarded through the Virginia Department of Emergency Management for Terrorism/Active Shooter and Bleeding Control Training for the Hampton Roads region.

Discussion:

This grant is awarded to the City of Hampton as the fiduciary agent for joint preparedness and training programs with the Hampton Roads localities. Funding will go to support public terrorism/active shooter and bleeding control training throughout the Hampton Roads region. Currently there are no other funding sources for this support of the Office of Emergency Management other than additional City funds.

Impact:

The City has been awarded \$132,000.00 in funding from the 2023 Urban Area Security Initiative (“UASI”) Grant with no local match required. This grant allows the Office of Emergency Management and the other Hampton Roads jurisdictions to continue to provide training and support for emergency preparedness and training programs to better prepare and build resiliency in the City and the region for future threats.
