Resolution to Accept the 2018-2019 Victim Witness Program Grant from the Virginia Department of Criminal Justice Services and Appropriate Those Funds for Use by the Hampton Victim Witness Assistance Program

PURPOSE/BACKGROUND:

The Hampton Victim Witness Assistance Program (the "Program") prides itself on its ability to provide quality direct services to crime victims in the City of Hampton, Virginia (the "City"). The Program provides those services through of a group of dedicated service providers who have demonstrated a commitment ensuring that the rights of crime victims are not overlooked in the criminal justice process. Collectively, the Program staff has over 50 years of experience working in the field of victim services.

The Program continues to provide comprehensive information and direct services to crime victims and witnesses in accordance with the Virginia Crime Victims and Witnesses Rights Act and other applicable victims' rights laws. During July 1, 2018 to June 30, 2019 (FY 2019), it is estimated that 1800 victims and 30 witnesses will receive direct services through the Program.

Discussion:

The Program is on the front line of victim/witness interactions when a violent act occurs in the City. Typically the Program facilitates the first to contact victims/witnesses of crimes to offer services after a Hampton Police Department investigation. The Program addresses the emotional and financial hardships that normally accompany violent crimes, and also helps guide and direct those individuals to available resources in the community, including, but not limited to, financial assistance for injuries sustained, counseling, and other services as needed.

The City has supported the Program since its inception in 1984 with a substantial cash contribution

each year. The original agreement between the City and the Virginia Department of Criminal Justice Services ("VDCJS") was for the City to commit to financially support the Program by a percentage each year until it was a fully funded Program of the City. Since the VDCJS and federal dollars have been available to fund the Program for the past 30+ years, the local contribution has not been a mandatory requirement. However, pursuant to Program Guidelines, grant funds must be used to supplement existing state and local funds, and must not supplant those funds appropriated for the same purpose. The City's willingness to support the Program financially shows the commitment it has for the needs of the community.

The Program consistently adheres to policy initiatives of the City by participating in the City's Job Performance Evaluation process; being actively involved in the community and utilizing volunteers to maximize direct services while minimizing the costs associated with staffing. The goal is to ensure that staff are provided with the leadership, guidance and training necessary to achieve successful performance measures while modeling the City's mission, values and principles when providing services to the victims and witness served.

The July 1, 2018- June 30, 2019 award is a continuation grant, and is in the first year of a three-year grant cycle. The Grant award includes \$302,200.50 in federal flow-through funds and \$100,733.50 in state funds. In addition the City is providing \$137,880, to be funded through a specific appropriation of the general "Grant Matching Funds" account approved as part of the FY 19 Council Approved Budget.

Impact:

Total \$540,814; Comprised of: VDCJS federal flow-through funds in the amount of \$302,200.50; VDCJS state funds in the amount of \$100,733.50; and local funds in the amount of \$137,880.
