Resolution to Amend the Fiscal Year 2022 Council Approved Budget to Accept and Appropriate the FY 2022 Fire Programs (Aid to Localities) Fund Allocation from the Commonwealth of Virginia, Department of Fire Programs

PURPOSE/BACKGROUND:

The Fire Programs Fund is derived from one percent of fire-related insurance coverage. Approximately 75 percent of the total fund goes directly to counties, cities and incorporated towns within the Commonwealth of Virginia (the "Commonwealth") as Aid to Localities ("ATL") funds. Allocations, which are population based, must be used solely for the purpose of training volunteer or career firefighting personnel; funding fire prevention and public safety education programs; constructing, improving and expanding regional or local fire service training facilities; purchasing emergency medical care and equipment for fire personnel; payment of personnel costs related to fire and medical training for fire personnel; or, purchasing personal protective equipment, vehicles, equipment and supplies for fire service purposes in the receiving locality.

Discussion:

The ATL Funds is not a grant and there is no requirement to expend the funds within an allotted time period. Residual balances may roll over from year to year, if necessary. The allocation of funds will help support the operating needs of the Fire and Rescue Division. The City is required to report to the Commonwealth, on an annual basis, the use of funds allocated for the previous year as well as complete a Fire Programs Fund Disbursement Agreement form.

Impact:

The allocation for fiscal year 2022 is \$556,271, with no cash or in-kind match required. The funds will be appropriated to the Grant Fund for accounting and reporting purposes.

Recommendation:

Approve.
