Briefing on the June 2020 Air Installations Compatible Use Zones Study from Joint Base Langley-Eustis, Virginia

Background Statement:

The 2020 Air Installations Compatible Use Zones Study (AICUZ) is an update of the Langley Air Force Base (AFB) 2007 AICUZ Study and includes Joint Base Langley-Eustis (JBLE). The Air Force initiated the update to include changes to the AICUZ since the release of the previous studies in 2007. It is a reevaluation of military operational noise and safety zones. The Air Force provides the AICUZ to aid in the development of local planning mechanisms that will protect the public safety and health, as well as preserve the operational capabilities of JBLE.

At a future date, Council and the public can expect to see updates to the Hampton Community Plan (2006, as amended) and the zoning ordinance to reflect this study. Please note that it is the noise contours which are changing and not the Accident Potential Zones.

PRESENTERS: Bruce Sturk, Director of Federal Facilities; Mr. Travis Willer, Langley; Lt. Col. Robert "Rex" Brooks, Langley; Peggy Todd, Realtor & Neighborhood Commissioner; Susan Gaston, Chief Administrative Officer for the Virginia Peninsula Association of Realtors; Hannah Sabo, Development Services Manager; Bonnie Brown, Deputy City Attorney; Steve Shapiro, Community Development Department Deputy Director.
