Presentation on the Hampton Roads Express Lane by the Virginia Department of Transportation (VDOT)

The Virginia Department of Transportation is completing the preliminary engineering to widen east and westbound Interstate 64 from the eastern end of the Armistead Avenue Bridge to approximately 2,000 feet east of the Settlers Landing Road overpass. This portion of the Hampton Roads Express Lane (HREL) project, Segment 4C, will tie into the Hampton Roads Bridge Tunnel Expansion and to previously completed segments of Express Lanes on I-64.
