Background Statement:

This amendment adds the new uses of private park and public park, while removing the existing uses of active park and passive park. Private parks are proposed to be permitted in districts in the same way that active and passive parks are currently permitted. Public parks would be permitted by-right in all districts. This amendment is in conjunction with 22-0070 and 22-0071. 22-0071 would add a general provision to govern areas that might otherwise be thought of as a park but that are associated with a development, while 22-0070 would add new definitions of private parks and public parks, and modify some existing definitions related to outdoor areas.
