Ordinance To Amend And Re-Enact The Zoning Ordinance Of The City Of Hampton, Virginia by Amending Chapter 9, Article III Entitled "O-CC District - Coliseum Central Overlay" By Amending Section 9-23 Pertaining To Modifications To Permitted Uses

Background Statement:

Mobile food vendors are only permitted to operate in areas that are zoned for retail sales and where outdoor sales are permitted. Current permitted retail sales, services, and office uses in the Coliseum Central Overlay District are required to be conducted within an enclosed building. Under the existing zoning ordinance, mobile food vendors are not permitted to conduct outdoor sales in the Coliseum Central Overlay District as an accessory use to a hospital primary use.

The Sentara Hampton Careplex has requested that the City permit mobile food vendors to operate at the medical campus to satisfy demand for late night dining options for third shift workers. This is a unique use because hospitals are open at all hours and have a high number of employees who are scheduled to work after midnight. Allowing mobile food vendors to operate at Sentara would ensure that workers have access to food once the onsite dining facility closes after dinner and beyond the normal operating hours for many of the surrounding restaurants. The Coliseum Central Business Improvement District (CCBID) has been briefed on the proposed amendment and supports the change to allow mobile vendors as an accessory use to a hospital.

If approved, this amendment would allow mobile food vendors to conduct outdoor sales in the Coliseum Central Overlay as an accessory use to a hospital primary use.

This Zoning Ordinance Amendment is proposed in conjunction with City Code Amendment 18-0233, which would align the City Code regulations pertaining to peddlers permits and licenses (required for mobile vendors) with this zoning change.
