City Council Field Trip to Visit Buckroe Boardwalk Improvements, and Examples of Physical Improvements to Hampton City Schools by Visiting Phoebus, Kecoughtan and Hampton High Schools

PURPOSE/BACKGROUND:

As Council is aware, Hampton City School has been making major improvements made possible with the capital and extra funding for the Academies of Hampton. The outstanding physical transformations mirror the academic transformation.

So that Council may also take advantage of the time outside of your normal meeting location, prior to the school visits we will gather at Buckroe Beach to see the options for the boardwalk renovation.

Members of Council may choose to ride on a socially-distanced school bus or to use their own private transportation in between locations.

Recommendation:

This is informational for Council and requires no action..
